66	Cufflinks show hardly any wear, gift or retail ready.
67	Cufflinks show hardly any wear, gift or retail ready.
68	Cufflinks show light wear, gift or retail ready.
69	Multiple lots sold as-is, no further condition report available.
70	Ring shows very little wear, gift or retail ready.
71	Pin shows very light wear, light repair on top left pedal near rose cut diamond border (see photos), gift or retail ready.
72	Earrings show very light wear, gift or retail ready.
73	Pin shows hardly any wear, gift or retail ready.
74	Pendant and chain show hardly any wear, gift or retail ready. Boxes show very little wear.
75	Pin shows light tarnish to gold from age, gift or retail ready.
76	Bracelet shows hardly any wear, gift or retail ready.
77	Bracelet shows almost no wear, gift or retail ready.
78	Bracelet shows little wear, gift or retail ready.
79	Bracelet shows very light wear, gift or retail ready.
80	Bracelet shows hardly any wear, gift or retail ready.
81	Bracelet shows hardly any wear, gift or retail ready.
82	Bracelet shows very little wear, gift or retail ready.
83	Earrings show very little wear, gift or retail ready.
84	Recently polished, gift or retail ready.
85	Ring shows very little wear, gift or retail ready.
86	Ring shows very little wear, gift or retail ready.
87	Ring shows hardly any wear, gift or retail ready.

Lot#	Condition
88	Ring shows hardly any wear, gift or retail ready.
89	Ring shows hardly any wear, gift or retail ready.
90	Recent prong work to center diamond, ring shows very little wear, gift or retail ready.
91	Ring shows very little wear, gift or retail ready.
92	Ring shows very little wear, gift or retail ready.
93	Ring shows very little wear, gift or retail ready.
94	Ring shows hardly any wear, gift or retail ready.
95	Ring shows very little wear, gift or retail ready.
96	Ring shows light wear, diamond loose in mounting but not in danger of falling out.
97	Ring shows very little wear, gift or retail ready.
98	Ring shows very little wear, gift or retail ready.
99	Ring shows hardly any wear, gift or retail ready.
100	Ring shows hardly any wear, gift or retail ready.
101	Ring shows very little wear, gift or retail ready.
102	Ring shows very little wear, gift or retail ready.
103	Mvt: GRO, excellent-plus cosmetic mvt condition overall, light oxide to ratchet wheel; lightly spotted and discolored dial; excellent silver hands; polished case shows light wear, no dents or dings; crown shows little wear; glass crystal shows light chips on edges.
104	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide; fine dial with light surface spotting; excellent hands; unpolished case shows hardly any wear, no dents or dings; crown shows very little wear; good glass crystal.
105	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide; excellent-plus dial with very light surface spotting; near mint hands; lightly polished case shows very little wear, no dents or dings; original crown shows very little wear; good plastic crystal.
106	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide; near flawless dial with very light surface spotting not visible unless highly scrutinized; near mint hands; lightly polished case shows very little wear, one light ding on caseback; original signed crown shows very little wear; good plastic crystal. Tiffany box shows little wear, inner strap that holds the watch in place has started to frav.
107	Mvt: NR, requires a balance staff, excellent cosmetic mvt condition overall, no oxide, slight discoloration on balance cock; dial lacquer has lightly flaked off along the edge; excellent gold hands; lightly polished case shows very little wear, no dents or dings; crown shows very little wear; good glass crystal.
108	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide on rotor, no oxide elsewhere; excellent-plus dial with light surface spotting; near mint gold hands; unpolished case shows hardly any wear, no dents or dings; bracelet shows light wear, light stretch; original signed crown shows very little wear, good threads; good crystal; resealed for auction. Box shows very little wear.
109	Mvt: GRO, excellent-plus cosmetic mvt condition overall, no oxide on movement; near flawless dial; mint hands; unpolished case shows hardly any wear, no dents or dings; bracelet shows hardly any wear; replacement crown shows little wear; excellent faceted glass crystal.
110	Mvt: GRO, excellent cosmetic mvt condition overall, very light oxide to steelwork, light tarnish to plates; excellent-plus dial; excellent hands; lightly polished case shows very little wear, no dents or dings; original signed crown shows very little wear, good threads; good crystal; resealed for auction.
111	Mvt: NR, balance moves freely, excellent cosmetic mvt condition overall, no oxide; excellent-plus dial; mint hands; lightly polished case shows little wear, no dents or dings; bracelet shows light wear; original signed crown shows very little wear, good glass crystal.
112	Mvt: Ticks and stops, overhaul recommended, excellent cosmetic mvt condition overall, light oxide on plates near dial edge; lightly discolored dial; fine hands; polished case shows light wear, small repair in the bracelet near case edge, no dents or dings; crown shows very little wear; chipped glass crystal; presentation box shows hardly any wear.
113	Mvt: GRO, near mint cosmetic mvt condition overall, excellent overall gilt tone with some bits of mild clouding at perimeter; flawless dial; mint hands; case shows hardly any wear, no dents or dings, some enamel loss at left edge of rear, enamel loss to band between 8 and 10; tight bow, crown shows hardly any wear; good glass crystal.
114	Mvt: GRO apart from bow-setting occasionally slipping out of engagement unless bow is given a small touch of added pressure to crystal while turning the crown, excellent cosmetic mvt condition overall, some fine scratches at perimeter of center bridge, some micro-fine scratches elsewhere; dial with a very small edge chip at 11:30, seconds-register appears to have been re-glued, image is excellent with just some small specks of loss to background; fine mismatched hands, hour is blue, minute and seconds-hand are plum colored; case lift spring is not making contact to fully opened position which allows front lid to tip freely through about the final 1/4 of its motion, case shows very little wear, short scratch on band at 10:30, dent on band at 1, ding on band near 6, strong engine turning detail with only very slight bit of reduction at shoulders; tight bow, crown shows very little wear; good glass crystal.

Lot#	Condition
115	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous surfaces with few fine and micro-fine scratches; dial with a few hls; excellent hands; case shows hardly any wear, no dents or dings, superb engraving detail; tight bow, crown shows little wear; good glass crystal.
116	Mvt: GRO, balance cock screw is a replacement and is too high to use regulator properly, fine-plus cosmetic mvt condition overall, scattered fine scratches, micro-fine scratch striations from wiping of plates; dial with somewhat crudely repainted black Roman numerals; fine hands with finish loss; case shows very little wear, no dents or dings, enameling on front, rear and pendant is substantially intact with only a few miniscule specks of loss and some typical mild scratches; tight bow with sizable portion of enamel losses; good glass crystal. Key shows very little wear; gold-plated spring ring is worn to brass.
117	Mvt: GRO, excellent cosmetic mvt condition overall, some fine scratches and mild cloudy spotting; excellent dial with mild fine scratch near center, absolutely minuscule nick to top rim of seconds-register; excellent hands, minute hand has oxide on its slightly bent tip; case shows almost no wear, no dents or dings, superb engraving detail, enameling near fully intact with only a few minuscule specks of loss: tight bow. crown shows little wear: good glass crystal.
118	Mvt: GRO, fine cosmetic mvt condition overall, escape wheel bridge with fine scratch abrasions through finish, center bridge with patch of fine scratch abrasion through finish near third wheel jewel; flawless dial; excellent hands; case shows hardly any wear, no dents or dings, all seed pearls present, enameling is fully intact with just some typical small surface scratches; tight bow, crown shows hardly any wear; good glass crystal; pin with areas of enameling loss that have been filled with dark blue material, pin is missing two seed pearls.
119	Mvt: NR, balance is gummy, fine-plus cosmetic mvt condition overall, plates with scattered scratches and fine scratches; dial with some fine scratches, perimeter tarnish at 7:30; fine hands; case shows very little wear, cuvette with numerous fine scratches from slips when winding and setting, no dents or dings, enameling is substantially intact with only some very minor bits of loss; bow pivots freely and has some losses to enameling; good glass crystal.
120	Mvt: GRO, excellent cosmetic mvt condition overall, few micro-fine scratches; flawless dial; excellent hands; case shows almost no wear, no dents or dings, superb enamel detail with no loss; tight bow, crown shows hardly any wear; good glass crystal.
121	Mvt: GRO, near mint cosmetic mvt condition overall, some light micro-fine scratches; tarnished dial with some light surface spotting; fair hands with near complete finish loss, hour with some bend; case shows hardly any wear, slight very shallow crease type dent of lower rear, superb crisp engraving and engine turning detail; tight bow; good domed glass crystal.
122	Mvt: NR, fully wound and will sometimes tick temporarily after a twist but with visible error in the round of the balance motion, overhaul needed, excellent-plus cosmetic mvt condition overall, bright lustrous surfaces, small specks of oxide on winding wheels, mismatched blued screw on third wheel jewel setting, mismatched screw with larger head on balance jewel setting; dial with light hl below seconds-register near 6; near mint hands; case front is missing its lift spring, has some side-to-side play at hinge and opens a bit wide of 90 degrees, case shows little wear, dent on band near 10, few additional dings and small mild dents on band; tight bow, crown shows little wear; good glass crystal.
123	Mvt: GRO, crown retracts when setting unless held outward while turning, excellent cosmetic mvt condition overall, micro-fine scratches; dial with mild dark mark between 9 and 11, some mild small spots elsewhere; near mint hands; case shows hardly any wear, no dents or dings, exquisite filigree detail, missing one perimeter rose-cut diamond from case, some soldered repair evident at case hinge and at junction to pendant portion; crown shows hardly any wear; good glass crystal; necklace portion shows hardly any wear.
124	Mvt: GRO, excellent cosmetic mvt condition overall, darkened toning of gilt surfaces which is most notable at perimeter areas, some darkened spots of winding wheels; near flawless dial with a minuscule hl at edge under bezel near 6 and a minuscule fine scratch near 3; fine mismatched hands, hour is gold, minute is gilt; case shows hardly any wear, no exterior dents or dings, cuvette with a small protruding ding at center caused by mvt center pinion, exquisite micromosaic detail with only a few minuscule spots of loss; tight bow, crown shows hardly any wear; good glass crystal.
125	Mvt: GRO, good repeat function and tone, excellent cosmetic mvt condition overall, some scattered fine and micro-fine scratches; near flawless dial with vibrant gold color; near mint hands; case shows very little wear, mild crease type dent to lower left perimeter of rear, enamel portraits are fully intact with some typical fine surface scratches, surrounding black tracery enamel is substantially intact with only some very small bits of loss; tight bow, crown shows little wear but is missing a portion of its jacket (outer layer) along one side: good glass crystal.
126	Mvt: GRO, near mint cosmetic mvt condition overall, bright gilt plates with few scattered mild micro-fine scratches; flawless dial; near mint hands, case shows hardly any wear, no dents or dings, superb crisp engraving detail, enameling is fully intact with just some small fine scratches; tight bow, crown shows hardly any wear; good glass crystal.

Lot#	Condition
127	Mvt: GRO, good calendar function although timekeeping hands should be re-indexed as date advance is occurring as hands pass 5pm rather than at midnight, excellent-plus cosmetic mvt condition overall, good gilt tone, some scattered small bits of oxide to winding wheels; near flawless dial with fine scratch at 11, few small fine and micro-fine scratches elsewhere; rotating outer calendar rings with few fine scratches and some scattered mild surface marks or wear; near mint hands; case shows little wear, ding or mild shallow dent toward right rear shoulder, slight ding toward left side of rear, pinpoint nick on band at 10, good exterior engraving detail, Lange & Söhne case marking to inner rear lid is largely lost to wear presumably from past polishing; tight bow, crown shows light wear with ridge break; good glass crystal with very small surface nick toward right side.
128	Mvt: Presently ticking after a partial winding and a small twist to start but stopping intermittently and although the mechanism is intact and original its components are extraordinarily delicate and extremely prone to being set out of order, we also note that the chain has a tendency to slip from the top turn of the fusee spiral so for this reason the watch should not be fully wound to avoid unnecessary risk of damage, for these reasons and as this watch was produced as a one-off exhibition piece rather than as a timekeeper of ongoing functional utility we can not present this watch as running and can make no claim to its continued functionality, near mint cosmetic mvt condition overall, small spot at edge of plate within "City" marking, few micro-fine scratches; excellent dial with some mild paint loss to portions of markings; near mint hands; case with small slivers of rear planchet separation, case shows hardly any wear, no dents or dings, excellent engraving detail; bow pivots semi-freely; good glass crystal; silvered box shows hardly any wear, an attractive patina to its upper portion, no dents or dings, excellent engraving detail, good glass crystal; outer box shows light wear, some scratches and mild bits of leather loss, interior is excellent with descriptive text within lid all clearly legible.
129	Mvt: GRO, good repeat function and tone, good grande sonnerie function and tone, excellent cosmetic mvt condition overall, few small fine scratches, some toning and few mild spots to plate surfaces; flawless dial; near mint hands; case shows hardly any wear, no dents or dings, good engraving detail; tight bow, crown shows hardly any wear; glass crystal with few small scratches, very small internal edge flake at 7.
130	Mvt: GRO, mint cosmetic mvt condition overall; flawless crystal plate dials; flawless hands; case shows hardly any wear, no dents or dings; tight bow on articulating pendant, crown shows hardly any wear; good sapphire crystals.
131	Mvt: GRO, excellent cosmetic mvt condition overall, some typical mild micro-fine scratches and mild bits of smudge to plate surfaces; excellent silvered dial with small surface spot near right edge and few minuscule additional spots elsewhere, slight fine scratch within hour sector between 4 and 6; excellent gold figure with some mild fine and micro-fine scratches; case shows hardly any wear, some fine scratches and profuse micro-fine scratches to rear, no dents or dings, inner rear with two patches of scratching; tight gold bow, crown shows hardly any wear; glass crystal with a minuscule edge flake at lower left.
132	Mvt: GRO, good chronograph start/stop function but reset occasionally fails needing multiple executions to initiate resetting of hands, overhaul recommended, very near mint cosmetic mvt condition overall, superb gilt tone, few small fine or micro-fine scratches to one portion of larger winding wheel perimeter; flawless dial apart from a minuscule amount of white residue visible at seat of minute-register and seconds-register; near mint gold hands, blue sweep-seconds-hand has light oxide; few dings or very shallow dents to perimeter of front and rear; tight bow, crown shows hardly any wear; good glass crystal; box shows little wear overall, some leather loss to top front corners.
133	Mvt: Running, inconsistent repeat function with strikings of hours, quarters, and minutes that are occasionally inaccurate, the gongs have been lead solder repaired in two places which has yielded a dull and muffled tone, overhaul needed, excellent cosmetic mvt condition overall, few micro-fine scratches; flawless dial; excellent hands, light oxide to the minute; case shows light wear, scattered fine scratches and profuse micro-fine scratches, some scattered dings to rear and band, few slight dings to front; tight bow, crown shows little wear; good glass crystal.
134	Mvt: GRO, good calendar and moonphase function, mint cosmetic mvt condition overall; excellent-plus dial with light spider webbing; near mint hands; case shows hardly any wear, no dents or dings; tight bow, crown shows hardly any wear; good plastic crystal, good glass exhibition crystal on cuvette; massive chain is near mint showing hardly any wear.
135	Mvt: GRO, near mint cosmetic mvt condition overall, winding indicator advancing correctly, near mint cosmetic mvt condition overall, minuscule abrasion below "K" of Patek, slight ultra-fine striations on crown wheel bridge, very few micro-fine scratches elsewhere; dial with very faint hl from 2:30 to seconds-register, very faint small hl above indicator-register, above seconds-register and below seconds-register; near mint hands; case shows very little wear, small scratches around opening portion of bezel seam, some small scratches to glazed observation cover, pinpoint nick on band at 5, no dents or dings, tight bow, crown shows hardly any wear; good glass crystals.
136	Mvt: GRO, good repeat function with good tone, near mint cosmetic mvt condition overall, few small micro-fine scratches; near flawless dial with only small fractures near edge under bezel at 12 and 3; near mint hands; case shows very light wear, small scratches on band around opening lips, small nick to band at 6 and on the rear near top of repeat slide, good engraving detail with polished finer details; tight bow, crown shows very light wear; good glass crystal; box shows very little wear, two cracks at bottom of box that do not impair opening and closing function.

Lot#	Condition
137	Mvt: GRO, good repeat function and tone, chronograph sweep hand with an uneven motion frequently moving two or three increments at a time, otherwise good chronograph function, near mint cosmetic mvt condition overall, bright lustrous surfaces with few minimal small micro-fine scratches; very near flawless dial with only a minuscule flake to the upper rim of the seconds-register hole; excellent hands; case shows light wear, some scratches on cuvette at perimeter from slipped openings, mild shallow dent of upper rear, small ding to band at 6, cuvette with some denting adjacent the pendant, reduced engraving detail to initials; tight bow, crown shows little wear; glass crystal with some scratches.
138	Mvt: GRO, good repeat function and tone, good chronograph function as made of start/stop without provision for reset, fine-plus cosmetic mvt condition overall, scattered micro-fine and small fine scratches; flawless dial; near mint hands, demi-hour hand is blue, other hands are plum colored; case shows little wear, no dents or dings, good overall engine turning detail with some reduction at shoulders; tight bow, crown shows light wear with ridge break; good glass crystals.
139	Mvt: GRO, good repeat function and tone, very near mint cosmetic mvt condition overall, superb surfaces with negligible few minuscule micro-fine scratches; near flawless dial with only some subtle glaze clouding at perimeter areas which is visible in certain lightings; very near mint hands, minuscule nick near end of minute; case shows no wear, no dents or dings, exquisite crisp engine turning detail; tight bow, crown shows no wear; good glass crystals; walnut box shows light wear, two cracks that run along bottom rear, smaller crack at front left corner, silk pillow with some loss of gold foil.
140	Mvt: GRO, good repeat function and tone, good chronograph function, excellent cosmetic mvt condition overall, few small micro-fine scratches, small spot to center sweep-hand bridge, some oxide at portions of chronograph steelwork; near flawless dial with only small surface micro-fine scratches; near mint hands; case exterior shows very little wear, cuvette appears to have been polished possibly for inscription removal and has some rippling to its reflection, very slight flat spot and small hairline fractures to band surface at 11, slight ding to left perimeter of case front which is only evident to inner surface of lid, excellent engraving detail; gold bow, crown shows hardly any wear; good glass crystals.
141	Mvt: GRO, good repeat function, mild tinniness to tone, excellent cosmetic mvt condition overall, small spot on balance cock adjacent screw, some small bits of oxide to steelwork, escape wheel setting has some oxide, small scratches, and its screw is a blue replacement; dial with outer chapter hl at 9:30, blued steel center portion with scattered small bits of oxide and some mild micro-fine scratches, gold jacquemarts with superb engraving detail; fine hands with areas of oxide and finish loss; case shows hardly any wear, very subtle small flat spot to band near 11, superb engine turning detail; tight bow, crown shows hardly any wear; good glass crystals.
142	Mvt: GRO, good repeat function and tone apart from an occasional mild rattle to the hour tone, good chronograph function, good calendar function, fine cosmetic mvt condition overall, slight surface pitting in areas of plates, some oxide in areas of steelwork; dial with scratch above center, otherwise with very few slight fine or micro-fine scratches elsewhere; fine hands, hour and minute with some oxide, timekeeping hands are blue, calendar hands and chronograph hand are plum colored; case shows hardly any wear, dent to lower front adjacent hinge, front with small ding at upper right shoulder, front leaving narrow sliver of gap to band along lower right side when closed; tight bow, crown shows hardly any wear; glass crystals with some glue excess around their seats.
143	Mvt: GRO, excellent cosmetic mvt condition overall, light wear through to brass on rotor, no oxide on rotor, no oxide elsewhere; excellent dial with crisp printing, spider web cracks to lacquer do not effect visibility of printing, old relumed hour plots have aged to a greenish yellow in color; excellent original radium hands; polished head shows little wear, "8342-DB" scratched on the back of the bottom right lug, light dings on backs of lugs from a bracelet rubbing; bracelet shows light wear, ample stretch; Rolex replacement crown shows very little wear, good threads; good crystal; resealed for auction. Box shows ample wear with surface beginning to bubble; black residue on box's top lid from being stored under something, outer cardboard box shows light wear on corners.
144	Mvt: GRO, chronograph functions and resets properly, mint cosmetic mvt condition overall, no oxide on rotor, no oxide elsewhere; flawless dial; mint hands; very lightly polished head shows very little wear, no dents or dings; bracelet shows hardly any wear, hardly any stretch; original Rolex crown shows very little wear, good threads; excellent sapphire crystal; resealed for auction. Inner and outer boxes show hardly any wear.
145	Mvt: GRO, excellent-plus cosmetic mvt condition overall, no oxide on rotor, no oxide elsewhere; excellent-plus dial, very light damage to perimeter at 11 only visible when viewed under magnification; excellent matching tritium hands; lightly polished original head shows very little wear, chamfers are still visible, no dents or dings; refinished bracelet shows very little wear, very light stretch; Rolex Triplock service crown shows very little wear, good threads; good crystal; resealed for auction; inner box shows hardly any wear, outer box shows little wear with light paint loss along the edges and small tear to inner corner.
146	Mvt: GRO, recently serviced by CW21 certified Watchmakers International in Texas, near mint cosmetic mvt condition overall, no oxide on rotor, no oxide elsewhere, very light micro-fine scratches to plate edges; near flawless dial with cream lume plots; near mint hands; polished original head shows very little wear, lug chamfers barely visible, no dents or dings; bracelet shows hardly any wear, hardly any stretch; original Rolex crown shows little wear with two small dents on the edge that do not inhibit screwing the crown in place, good threads; good crystal; resealed for auction.

Lot#	Condition
147	Mvt: GRO, chronograph functions and resets properly, near mint cosmetic mvt condition overall, hardly any oxide to steelwork; excellent-plus refinished dial; excellent gold alpha hands; polished case shows light wear, light pitting to top right lug, light pitting on the backs of the lugs near the caseback as well as along the bottom side of the case, light ding on top right lug; original Rolex Oyster crown shows very little wear, good threads; good crystal; resealed for auction.
148	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide on rotor, no oxide elsewhere; excellent dial with very light surface scratches, puffy lume plots; relumed hour, minute and sweep second Mercedes handset, small arrow GMT hand is original and is not relumed; lightly polished original head shows very light wear, lug chamfers are strong and visible (see seventh image in our online catalog), no dents or dings; bracelet shows light wear, medium stretch; original Rolex signed crown shows very little wear, good threads; good plastic cyclope crystal; resealed for auction.
149	Mvt: GRO, mint cosmetic mvt condition overall, no oxide; near flawless dial with only very light surface spotting; lightly spotted hands; unpolished case shows hardly any wear, bezel knurls are sharp to the touch, still retains its original paper caseback sticker, no dents or dings; bracelet shows hardly any wear, no stretch; original signed crown shows hardly any wear, good threads; good crystal; resealed for auction; outer box shows medium wear to all corners as well as a break in the bottom right corner; inner box shows very light wear.
150	Mvt: GRO, mint cosmetic mvt condition overall, no oxide; flawless dial; mint hands; lightly polished case shows hardly any wear, no dents or dings; bracelet shows very little wear, hardly any stretch; original signed crown shows hardly any wear, good threads; good crystal; resealed for auction.
151	Mvt: GRO, excellent-plus cosmetic mvt condition overall, very light oxide to steelwork, light wear to brass on plates; excellent dial has light surface spotting; excellent Mercedes relumed hands; lightly polished case shows very little wear, no dents or dings; polished bracelet shows light wear, very light stretch; original signed crown shows very little wear, good threads; good crystal; resealed for auction; outer box shows light wear to corners; inner box shows hardly any wear.
152	Mvt: GRO, excellent-plus cosmetic mvt condition overall, no oxide on rotor, no oxide elsewhere; excellent dial with two light scratches side by side next to the cyclope; excellent matching tritium hands; polished original head shows very little wear, rounded chamfers are still visible, no dents or dings; refinished bracelet shows very little wear, very light stretch; original non dot Rolex Triplock crown shows light wear, good threads; good aftermarket crystal; resealed for auction; box shows very little wear.
153	Mvt: GRO, mint cosmetic mvt condition overall, no oxide on rotor, no oxide elsewhere; flawless dial; mint hands; very lightly polished case by Rolex servicing shows hardly any wear, lug chamfers are sharp and crisp in appearance (see photo), no dents or dings; bracelet shows hardly any wear, no stretch; original signed Triplock crown shows no wear, good threads; mint sapphire crystal; resealed for auction: inner and outer boxes show hardly any wear.
154	Mvt: GRO, mint cosmetic mvt condition overall, no oxide on rotor, no oxide elsewhere; excellent-plus dial with light spider webbing, dial lume has turned a deep lemon yellow; mint hands have aged to a lovely yellow; unpolished case shows hardly any wear, lug chamfers are strong and sharp in appearance, no dents or dings; bracelet shows light wear, very light stretch; original crown shows very little wear, good threads; original crystal in need of polishing or repair; resealed for auction.
155	Mvt: GRO, excellent-plus cosmetic mvt condition overall, no oxide on rotor, light spotting and discoloration to plates and rotor; dial has numerous spots and light bubbling of lacquer; fine relumed hands; polished case shows light wear, lug chamfers still visible but polished and rounded, light dings on the backs of the lugs from a bracelet; bracelet shows medium wear, ample stretch; original signed crown shows very little wear, good threads; good crystal; resealed for auction.
156	Mvt: GRO, excellent-plus cosmetic mvt condition overall, no oxide, light spotting on rotor edge; flawless dial; mint service hands; lightly polished case shows very little wear, several light dings on the tops of the lugs; bracelet shows light wear, light stretch; original signed crown shows very little wear, good threads; good sapphire crystal; resealed for auction.
157	Mvt: GRO, mint cosmetic mvt condition overall, no oxide on rotor, no oxide elsewhere; flawless dial; mint silver Mercedes hands; lightly polished case shows very little wear, light dings on the backs of the lugs from bracelet rub; bracelet shows light wear, light stretch; original signed crown shows very little wear, good threads; good sapphire crystal; resealed for auction. Inner and outer boxes show hardly any wear.
158	Mvt: GRO, excellent-plus cosmetic mvt condition, hardly any oxide; fine dial shows spotting and paint flecks most notably on the 45 minute recorder; excellent hands with light tritium loss in minute hand, improper subregister hands; polished case shows light wear, original lug chamfers still barely visible, bezel shows light wear with paint loss near 1, 3 and 5; signed replacement crown shows little wear, good threads; good plastic crystal with cyclope; resealed for auction.
159	Mvt: GRO, recently overhauled, excellent-plus cosmetic mvt condition overall, very light oxide to steelwork, light staining on rotor; near flawless dial; mint hands; lightly polished case shows very little wear, lug chamfers are still barely visible, no dents or dings; original Rolex signed crown shows very little wear, good threads; good crystal; resealed for auction.

Lot#	Condition
160	Mvt: GRO, all functions advance and set properly, mint cosmetic mvt condition overall, no oxide; flawless dial; mint hands; unpolished case shows hardly any wear, no dents or dings; original signed crown shows hardly any wear; good sapphire crystal; both inner and outer boxes show hardly any wear.
161	Mvt: GRO, excellent-plus cosmetic mvt condition overall, no oxide; excellent-plus dial with only light surface spotting; excellent-plus hands; original head shows very little wear, original hand engraved presentation on caseback shows little wear to detail, no dents or dings; original Calatrava cross crown shows very little wear; good plastic crystal. Cufflinks and assorted other material show very light wear.
162	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide to steelwork; excellent-plus refinished dial; excellent-plus gold hands; lightly polished original head shows hardly any wear, hallmarks still crisp and visible, no dents or dings; Patek signed crown shows hardly any wear; good plastic crystal.
163	Mvt: GRO, excellent-plus cosmetic mvt condition overall, no oxide on rotor; near flawless refinished dial; near mint white gold hands; lightly polished case shows very little wear, no dents or dings; original signed crown shows very little wear; good plastic crystal.
164	Mvt: GRO, mint cosmetic mvt condition overall, no oxide; flawless dial; mint rose gold hands; unpolished case shows almost no wear, no dents or dings; original signed crown shows very little wear; good sapphire crystals.
165	Mvt: GRO, chronograph functions and resets properly, mint cosmetic mvt condition overall, no oxide; flawless enamel dial; mint gold and blued steel hands; unpolished case shows hardly any wear, no dents or dings; original Roger Dubuis signed crown shows hardly any wear; good sapphire crystals, reverse crystal is subtly laser etched with the Roger Dubuis logo.
166	Mvt: GRO, serial numbers matching throughout, maltese cross portion of stopworks is absent which is not affecting movement function, two train jewels have been replaced, fine-plus cosmetic mvt condition overall, scratch below the first n in "Dennison" continuing to edge of mvt, some concentric circular scratches around winding arbors, some typical scattered mild fine scratches elsewhere, some bits of spotting to plate surfaces with the most prominent of these being at the left edge of the barrel bridge; near flawless dial with only a very faint hl in left side of seconds-register, an extremely faint hl below seconds-register near 6:30, and a extremely miniscule edge nick under bezel near 5; case shows light wear, no dents, few slight dings to front, large portion of engine turning detail remaining with loss primarily at rear shoulder and lesser degree of loss at front shoulder, cuvette with evidence of repair at hinge; tight replacement bow, replacement push shows little wear; good glass crystal.
167	Mvt: GRO, excellent cosmetic mvt condition overall, some fine and micro-fine scratches, steelwork with some scattered bits of oxide; excellent dial with a small hl above seconds-register; excellent but mismatched hands, hour is plum colored, minute and seconds-hand are blue, minute with slight bend; case with broken or missing lift spring, case shows ample wear, few very small nicks, no dents, engine turning virtually fully lost from lids with only some minimal slight traces remaining evident at a few portions, majority of band with engine turning detail fully lost but a smaller portion of band retains some engine turning detail, cuvette has a very slight bit of side-to-side play at its hinge which shows a small bit of metal loss to the left side of its central tube and also shows repair evident to the outer segments of hinge tube; tight bow, push shows ample wear; plastic crystal with some scratches.
168	Mvt: Running after a twist to start, correctly matched internal serial numbers with a factory executed overstamping of the last digit on the dial plate to correct from 165 to 164, lead solder which is likely not factory work is visible on dial mounting plate and is holding the dial feet, excellent cosmetic mvt condition overall, bright gilt tone, some scattered fine and more profuse scattered micro-fine scratches, small spot on main plate between third wheel and center wheel pinions; dial with long faint hl from 10:30 to 4, smaller faint hl running off to 12, some very small edge chips between 11 and 12, few very small to minuscule edge flakes elsewhere; excellent hands; purpose made display case shows light wear, no dents or dings, mvt is held via friction fit and must be handled carefully when bezel is removed so it does not potentially drop out; bow pivots freely; good thick glass crystals.
169	Mvt: Running after a twist to start, excellent cosmetic mvt condition overall, mvt hinge portion for case is broken, bright plates with few fine scratches, some punch marks and divot to plate surface in area surrounding click arbor near plate's edge below signature; dial has hl from center to 6, small hl along edge at 2:30, mild bit of brown discoloration within seconds-register; excellent minute hand, fair hour hand with finish loss and seconds-hands with oxide; case must be handled carefully when opened as mvt has a broken upper hinge and there is no hinge pin so the mvt can drop out from case, case shows light wear, an attractive patina, some scratches on fixed cuvette from misguided attempts at opening with a blade, few short scratches at central rear, few shallow dents on rear; bow pivots freely with side-to-side play in pendant sockets; good glass bull's-eye crystal.
170	Mvt: NR, bad balance staff, escapement components are present, excellent cosmetic mvt condition overall, strong gilt tone, small spot adjacent third wheel jewel setting; near flawless dial with very faint hl near 9:30; fine hands, some oxide to spade of minute hand and to seconds-hand.
171	Mvt: Ticking when wound but visibly dirty and with error in the flat of its balance motion, overhaul recommended, fine cosmetic mvt condition overall, some fine scratches, spotting and rub marks to gilt surfaces; glass dome and wooden base in excellent condition overall with few mild surface marks, glass dome with small initials scribed on the top of its handle portion, wooden base appears to be missing an original cover for its underside over the exposed mechanism.

Lot#	Condition
172	Mvt: GRO apart from some intermittent bits of excess escapement noise, fine cosmetic mvt condition overall, main plate with ultra-fine scratch striations likely from wiping, some mild small surface spots; dial with faint hl above seconds-register, abrasion below indicator-register, small hl along edge at 9; near mint hands; case shows light to medium wear, small ding on band near 11, reduced engine turning detail with areas of loss at shoulders and front center; tight bow; good glass crystal.
173	Mvt: GRO, good winding indicator function, near mint cosmetic mvt condition overall, bright lustrous plates with few small micro-fine scratches, few minuscule specks of oxide on winding wheels; dial has patched flake in indicator-register; fine hands, hour with dulled finish, indicator-hand with minor oxide; case front hangs up on latch and requires a small touch of help releasing, case shows very little wear, few mild shallow dents to front, slight compression dent to center rear and more pronounced compression dent to central cuvette, excellent engraving detail, brassy bezel; tight bow, crown shows little wear; good glass crystal.
174	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous surfaces, few small micro-fine scratches; dial near flawless with only an extremely faint short hl above seconds-register; excellent hands; case shows very little wear, no dents, small nick to upper shoulder of front, rear with small ding visible as ripple in reflection of interior surface but with negligible exterior visibility, excellent engraving detail, case shows no visual sign of having held another mvt but is presented as a recase as our consignor notes he paired it with this watch himself; tight bow, crown shows medium wear and small ridge break; good glass crystal.
175	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous plates, few small fine or micro-fine scratches, scattered tiny specks of oxide on regulator assembly; near flawless dial with only a minuscule edge flake under bezel near 2; excellent hands, minute with some oxide, seconds and hour hands have very minor bits of oxide; case shows very little wear, shallow dent on rear shoulder adjacent opening lip, excellent engraving and engine turning detail; tight bow, crown shows medium wear; good glass crystal.
176	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous plates with few mild micro-fine scratches, some spots of oxide on regulator assembly; near flawless dial with only a minuscule surface nick near edge between 3 and 4; excellent hour and minute hands, seconds-hand is covered in oxide; case swingout ring opens far enough to impact dial on case pendant so case must be opened with some care not to potentially cause dial damage, case shows little wear, scattered fine scratches on rear, no dents or dings, few small bits of wear to brass on pendant; tight bow, crown shows medium wear; good glass crystal.
177	Mvt: GRO, near mint cosmetic mvt condition overall, some typical micro-fine scratches; flawless dial; mint hands; case shows hardly any wear, no dents or dings, superb engraving detail; tight bow, crown shows hardly any wear; good glass crystal.
178	Mvt: GRO, excellent cosmetic mvt condition overall, bright lustrous plates with some typical mild micro-fine scratches, screw on lever jewel setting appears to be a replacement with larger sized head and there is some substance around the screw that appears to be possibly dried oil or shellac, regulator spring is not gilt and some mvt screws are non-gilt replacements, mvt currently with some rattle within case as upper case screw has a tendency to slide back from case lip; dial with few very faint hls; excellent hour and seconds-hand, minute with some oxide at its tip; case shows light wear, scattered short scratches on band, no dents or dings, engraving detail with some reduction; tight bow, crown shows light wear; good glass crystal.
179	Mvt: Ticking sluggishly, overhaul recommended, excellent cosmetic mvt condition overall, balance jewel setting is a brass replacement, scattered fine and micro-fine scratches with greatest profusion around balance jewel setting, third wheel jewel setting, and larger winding wheel center hub; excellent dial with only a faint outer chapter hl at 8; excellent hands with minor oxide; case shows little wear, no dents or dings, good engraving detail, enameling is substantially intact with only a few minuscule flakes; bow with excellent engraving detail, crown shows light wear; good glass crystal.
180	Mvt: GRO, excellent cosmetic mvt condition overall, some fine and micro-fine scratches, some oxide to winding wheels and regulator assembly; excellent dial with short very faint hl below seconds-register near 6, few minuscule edge flakes under bezel; excellent hour and minute hands, seconds-hand with some oxide; case shows very little wear, some fine scratches to upper right of cuvette from slips when opening no dents or dings; tight bow, crown shows light wear; glass crystal has internal edge flake at 6.
181	Mvt: GRO, excellent cosmetic mvt condition overall, some small fine scratches, some ultra-fine scratch striations likely from light wiping, some small scattered spots; dial with some hls, few very small surface nicks near center, small edge flake below seconds-register; fine hands, hour with rust to its stem; case shows medium to ample wear, front with some dings in its lower portion and a mild dent to its upper, rear with a small ding to its lower shoulder, no engine turning detail remains, black enameling is substantially intact with only tiny bits of loss, setting button of case is a brass replacement; bow pivots semi-freely, crown shows light wear; good glass crystal.
182	Mvt: GRO, excellent cosmetic mvt condition overall, good overall two-tone color and luster, balance cock foot with some spotting and with some small marring around its screw, some mild spotting at left side of barrel bridge near perimeter edge, a scratch and some fine scratches near lower case screw position; dial with faint hl in center, outer chapter hl near 7, and patched edge chips at 1, 2 and 6; fine hands, minute with some areas of bluing loss and with sanding marks at center; case shows little wear, surface dings or mars to front and rear of pendant, no dents or dings, excellent engraving detail; tight brassy bow, crown shows little wear; good glass crystal.

Lot#	Condition
183	Mvt: GRO, near mint cosmetic mvt condition overall, excellent two-tone color and luster, some typical micro-fine scratches, small strip of finish loss to regulator index; near flawless dial with very small edge nick under bezel near 3; excellent-plus hands; case shows light wear, no dents or dings, excellent engraving and engine turning detail, areas of wear to brass on high points of band and rear, thin partial rings of brass on rear and bezel edges; brassy bow pivots freely, crown shows light wear; good glass crystal.
184	Mvt: GRO, good winding indicator function, excellent cosmetic mvt condition overall, few small scratches at edge of barrel bridge adjacent balance cock, some typical mild micro-fine scratches elsewhere, some specks of oxide to regulator and central hub of larger winding wheel; excellent dial with faint hl within right side of indicator register, few extremely minuscule nicks to rim of central circular indicator-register sink, minuscule surface nick at center just left of hands; near mint hands; case shows hardly any wear, mild dent on band near 7 with few adjacent small dings or nicks, mild ding on band near 5, indentation mark from larger winding wheel inside cuvette; tight bow, crown shows very little wear; good glass crystal.
185	Mvt: Ticking sluggishly at times, overhaul recommended, near mint cosmetic mvt condition overall, strong gilt tone, few mild spots, two mild curved fine scratches to right of barrel arbor, one mismatched plate screw; flawless dial; fair hands, hour and minute with oxide and finish loss; case shows very light wear, no dents or dings, very small nick on band at 4, good engine turning detail with mild reduction at shoulder, rear lid with small amount of side-to-side play at hinge, cuvette with some solder excess visible at portions of planchet seam; bow pivots freely and with some side-to-side play within pendant sockets; good glass bull's-eye crystal.
186	Mvt: Running after a twist to start, excellent cosmetic mvt condition overall, good gilt tone, spot above s#, fine scratch near case screw; dial with patched chip between 7 and 8, some scattered hls; excellent hands; case shows light wear, no dents or dings, engraving detail with mild reduction; tight bow, replacement push is brass and shows medium wear; clean plastic crystal.
187	Mvt: GRO, near mint cosmetic mvt condition overall, superb gilt tone, minimal few micro-fine scratches, small spot of haze around one of the screws on the fourth wheel jewel setting; dial with small surface flake and small fractures near edge at 4, few faint hls elsewhere; excellent hands; case shows light wear, no dents or dings, excellent engraving details to initial monogram, engine turning detail lost at shoulders; tight bow, push shows light to medium wear; good glass crystal.
188	Mvt: GRO, good winding indicator function, excellent-plus cosmetic mvt condition overall, bright lustrous surfaces, short fine scratch near s#, some scattered micro-fine scratches, some specks of oxide on regulator assembly; dial with some mild small scattered fine scratches and some darkening around edges and sunken registers; excellent hands; case shows very light wear, no dents or dings, engraving detail with some overall reduction and some greater reduction at shoulder, extra lever slot at 1; tight bow, crown shows medium wear; glass crystal with some scattered short scratches.
189	Mvt: GRO, excellent cosmetic mvt condition overall, the music movement is perhaps later (early 19th Century), and may replace a musical bell box of Swiss or French origin, organ assembly is held in place with hex nuts and machine screws of a later type that would not have appeared in 1750, shown in photos; dial shows numerous hairlines and several perimeter chips; excellent hands; case has several light cracks as well as areas where the wood has expanded and contracted over time, light discoloration to some bronze work. Please see description regarding preview and shipping of this clock.
190	Mvt: GRO, excellent cosmetic mvt condition overall; dials are excellent; fine hands with some areas of finish loss and oxide; case is one of the finest quality we have seen, there is a large split running down the center of the pedestal that runs for 1/3 of the overall length, shown in photos, overall tarnish to brass inlay on pedestal with several missing pieces of inlay. Please see description regarding preview and shipping of this clock.
191	Mvt: NR, the clock will tick for several minutes then stop, overhaul needed but believed likely just requires fresh oil and a clockmaker's attention, excellent cosmetic mvt condition overall; fine dial with light discoloration and numerous surface scratches throughout, wear to brass along dial perimeter as well as next to the winding arbors for time and strike; excellent-plus pierced and engraved gilt hands; case with several areas of cracked and repaired tortoise shell as well as light repairs on the top structure and two of the finials, excellent glass. Please see description above regarding the preview and shipping of this lot.
192	Mvt: Runs when wound, may require a clockmaker's overhaul, fine cosmetic mvt condition overall; dial shows very little wear, gilt numerals are dull in appearance; excellent gilt brass hands; wooden base with split that runs to the edge. Please see description regarding the preview and shipping of this clock.
193	Mvt: NR, pendulum catches and will require the attention of a clockmaker, fine cosmetic mvt condition overall; excellent dial; fine gilt hands with some areas of finish loss and oxide; case with excellent enameling and gilt detail, cracked rear glass. Please see the description regarding preview and shipping of this clock.
194	Mvt: GRO, good repeat function and tone, fine-plus cosmetic mvt condition overall, very light oxide to steelwork, light micro-fine scratches and spotting to plates; excellent dial with light surface spotting; excellent hands with light oxide; case shows little wear, no tears or breaks in the leather wrap, would benefit greatly from light attention with a leather cleaner, no dents or dings; good plastic crystal.
195	Mvt: NR, good balance motion, may just require a light oiling; flawless dial; mint gold hands; gilt brass and glass exterior shows hardly any wear; red presentation case shows hardly any wear. Please see description regarding the preview and shipping of this lot.

Lot#	Condition
196	Mvt: NR, good balance motion, may just require a light oiling; near flawless dial; mint gold Breuget style hands; case red lacquer exterior shows hardly any wear. Please see description regarding the preview and shipping of this lot.
197	Sign with superb vibrant color which places it far above the vast majority of examples extant, scratch toward bottom below image and above the word "For," fine scratch between the lower part of the San Francisco dial toward the woman's held pocket watch, some additional lesser mild fine scratches, some mild perimeter bends of little visual impact, some spots of surface discoloration in perimeter portions, some scattered small surface nicks. Please see description regarding shipping of this lot.
198	Sign with excellent overall color and detail, surface has some long tears and creases which are mostly oriented horizontally, upper right area with some scattered very small surface punctures, some graying to the left-most approximately 3 inches of the lithograph. Matting and frame are excellent. Please see description regarding shipping of this lot.
199	Sign with excellent graphics and vibrant overall color, upper central portion with some creases or well repaired tears, some darkened discoloration within upper third of sign, several brown spots along top edge. Please see description regarding shipping of this lot.
200	Front of sign is near mint with just a few small surface scratches and two very small edge flakes at lower right; reverse of sign has area of porcelain loss at lower right alongside image of watch strap, smaller flakes of loss a bit further left, and some scattered scratches and small edge nicks; mounting bracket portion with some marks and finish loss.
201	Sign with very strong color, some scattered small surface spots and scrapes, darkened spot at the N of "Hamilton" at top, scratch near lower left edge, overall a very strong example.
202	Sign with good color and detail, some discoloration along bottom edge of image, surfaces with creases from having been rolled and some small bits of loss with the majority of these running horizontally and located at approximately 1/3 of the way up and 2/3 of the way up in the image, fine surface tear and crease near top edge at left, small bit of loss near top about 1/3 of way to right, small crease at upper right; glass and frame are excellent. Please see description regarding shipping of this lot.
203	Excellent-plus cosmetic condition overall; gold leaf with some lifting tight along right-most edge and with a small split at bottom right corner, some hairline splits in gold leaf of flat decorative element along left side, small spot of gold leaf loss to left edge about 2/3 of the way up; glass is superb; frame with some separation space at three of its corners, copper surface with a ding to upper portion a bit right of center and a few scattered mild fine scratches. Please see description regarding shipping of this lot.
204	Sign with strong overall appearance, a vertical tear of approximately 3 inch length at top a bit right of center, small bit of wear through image and adjacent bit of paper loss at right side approximately 1/2 way up. Please see description regarding shipping of this lot.
205	Sign with excellent graphics and vibrant color, few small creases at lower right, very small portion of loss visible near bottom right under edge of frame, upper left with edge with some spots of color loss and a very small (less than 0.5 inch) fine surface tear. Please see description regarding shipping of this lot.
206	Superb overall condition with strong color, surfaces with some residue that is believed to be from the original packaging paper that kept these signs from rubbing against one another when they were produced. Perimeter of sign with six small holes which is as-made for mounting.
207	Sign with vibrant strong color, some bits of loss within boy's hat, few small mild spots or marks elsewhere but with none of these being particularly eye-catching or disruptive to the overall visual appeal, small segment missing from raised ornamentation of frame at bottom left and very small bit missing from raised ornamentation at top. Please see description regarding shipping of this lot.
208	Sign with excellent color, surface tear at about the mid-point of Father Time's scythe blade, crease at lower right corner, mild short crease at left edge a bit above mid-point, few mild short creases along right edge, some scattered small surface nicks, a mild short scratch toward upper right edge. Please see description regarding shipping of this lot.
209	Strong overall appearance with good color, scattered pinpoint spotting mostly to right portion, some scratches and few mild creases, some pain loss and bending at corners.
210	Excellent sign with strong graphics and color, bottom right with a very small surface puncture near corner, top right with a short crease at edge. Please see description regarding shipping of this lot.
211	Mvt: GRO, excellent cosmetic mvt condition overall, plates with strong gilt tone and some mild ultra-fine scratch striations; dial with some hls around lower portion of seconds-register; excellent hands; case shows little wear, no dents or dings, good engine turning detail to majority of rear but with reduction and portions of loss to shoulders, cuvette with a few small scratches around winding aperture; tight bow; good glass crystal with only a very small scratch toward left side; chain is in good condition; box is excellent with good lock function.
212	Mvt: GRO, excellent cosmetic mvt condition overall, some scattered small spots, some mild ultra-fine scratch striations; dial with hl near edge between 4 and 5; fine-plus hands, hour and minute are blue, minute with small spot of oxide near center, seconds-hand is plum colored; case shows light wear, no dents, ding on band at 5 and few small nicks elsewhere, small bow impressions to upper rear; tight gold bow is thinned at top, crown shows light wear; glass crystal with some short scratches.

Lot#	Condition
213	Mvt: GRO, good repeat function and tone, good erotic automation function, fine-plus cosmetic mvt condition overall, scattered fine and micro-fine scratches; dial with patched edge chipping in areas near 3, around 7, around 9 and around 10, scattered hls including a profuse cluster around 3; excellent hands; case shows ample wear, rear opens wide of 90 degrees with some side-to-side play at hinge which shows a metal split to hinge tube at one side, bezel opens a bit wide of 90 degrees and shows a small metal split to hinge tube at one side, rear with perimeter denting to upper and upper-left area, some additional dings elsewhere around rear perimeter, band with some dings or small dents, bezel with a ding at 3, no engine turning detail remaining; bow pivots freely and with a bit of side-to-side play along its pin; good domed glass crystal with a few small finish bubbles.
214	Mvt: GRO, mint cosmetic mvt condition overall; flawless dial; mint hands; polished case shows hardly any wear, no dents or dings; tight gold bow, crown shows hardly any wear; good sapphire crystals; chain is near mint showing hardly any wear.
215	Mvt: GRO, excellent cosmetic mvt condition overall, few micro-fine scratches, small spot of oxide at perimeter of larger winding wheel, few tiny specks of oxide elsewhere to steelwork; excellent-plus dial; excellent hands with very light oxide to minute; case shows little wear, some fine scratches, no dents or dings, enameling intact apart from a small bit of loss on bezel at 12, numerous fine scratches to black enamel; tight bow with some very small specks of enamel loss to front and top, crown shows little wear; good glass crystal.
216	Mvt: GRO after a small twist to start, good repeat function and tone, very near mint cosmetic mvt condition overall, bright lustrous surfaces; very near flawless dial; near mint hands; case shows hardly any wear, few short scratches from slips when opening rear, fairly profuse micro-fine scratches to rear, no dents, very small nick on bezel at 6; tight bow, crown shows hardly any wear; good glass crystal.
217	Mvt: GRO, good repeat function and tone, good chronograph function, good calendar function, fine cosmetic mvt condition overall, some spotting and finish loss of gilt plates; dial with hl between seconds-register and day aperture; excellent hands, sweep hand with slight bend to tail; case shows hardly any wear, no dents or dings; tight bow, crown shows hardly any wear; good glass crystal.
218	Mvt: GRO, good repeat function and tone though it is important to note that the pendant must be fully depressed to achieve correct strike function, good automation function with jacquemarts striking in concert with repeat function, excellent cosmetic mvt condition overall, some fine scratches which are primarily around plate pins; chapter ring dial is excellent with only some fine scratches; fine hands, minute with some verdigris to its tip; case shows light wear, areas of gilt loss, very slight small ding aligned with winding arbor position, rear engine turning detail is substantially lost, rear lid and cuvette opening a bit wide of 90 degrees with the rear having a bit of rotational play at its hinge; bow pivots freely and with side-to-side play within the larger pendant sockets; outer domed glass crystal with a scratch in its lower portion, inner domed glass crystal with small fine scratch near center and a few small flakes bordering its central keyhole.
219	Mvt: GRO but with visible oil excess and dirtiness to mvt surfaces, inconsistent repeat function overall with quarter-hour strikes always omitted entirely but frequent correct strikings of hour and minute, good repeat to hour and minute strikes, good alarm function and tone, overhaul needed, excellent-plus cosmetic mvt condition overall, few small fine and micro-fine scratches to mvt, bell with few fine scratches from center with one extending over halfway to edge; dial with some light hls around 4 and 5, light hl bordering right side of seconds-register, minuscule flake to upper left perimeter of seconds-register and few minuscule flakes bordering upper right of seconds-register; fair to fine hands, hour and minute are mismatched, minute and seconds-hand with oxide; case front lift spring not making contact with lid when fully opened allowing lid to tilt back limply approximately half way, case shows hardly any wear, no dents or dings, minuscule pinpoint nick to upper front; tight bow, crown shows hardly any wear; good glass crystal.
220	Mvt: GRO, good repeat function and tone, excellent cosmetic mvt condition overall, few fine and micro-fine scratches, some light clouding of gilt surface at some areas, very light oxide to steelwork; near flawless dial with a short very faint hl between center and seconds-register; excellent hands, minute with finish loss and oxide to its tip; case shows very little wear, no dents or dings, superb crisp engraved detail; tight bow, crown shows hardly any wear; good glass crystals.
221	Mvt: Ticking after a twist to start but stopping frequently, hands are not setting as minute wheel post is broken off, unknown repeat function due to setting issue but repeat function that does occur has significantly dulled and muffled tone, good chronograph function apart from sweep-hand being set about 3 minutes out of index for reset point, overhaul needed, excellent cosmetic mvt condition overall, some fine and micro-fine scratches, steelwork with some small bits of oxide; flawless dial; near mint hands; case shows very light wear, two slight dings to front, front with good engine turning detail showing slight reduction at shoulder, rear with loss of engine turning at shoulder; tight bow, crown shows medium wear; good glass crystals.
222	Mvt: GRO after a twist to start, good 1/5-second jump function, good start/stop function, excellent cosmetic mvt condition overall, some light spotting to plates, some typical mild fine scratches; dial with scratch above center, some short scratches and small flakes around center of 1/5-second jump register; excellent gold time register hands, gold center-seconds hand has some mild bend, fine blue 1/5-second jump hand; case shows light wear, no dents or dings, reduced engine turning detail with full loss at shoulders; bow is thinned at top and pivots semi-freely; good glass crystal.

Lot#	Condition
223	Mvt: GRO, good repeat function and tone when pendant is fully depressed, good musical function and tone which ceases approximately 20 to 25 seconds after band slide is returned to upper position, excellent cosmetic mvt condition overall, some mild clouding of gilt surface, fine scratch at perimeter of plate near balance wheel, visible spot of shellac or glue above a bushing in the strike train at perimeter of plate adjacent to case hinge; dial with faint hl at 12, small edge flake under bezel at 4:30; excellent hands; case shows light wear, two small dents at perimeter of rear and a few additional mild dings at perimeter of rear; bow pivots freely: good glass crystal.
224	Mvt: GRO, repeat function occasionally is short one hour strike, hour strike at times has a muffled tone but at other times returns to a good reverberating tone, overhaul recommended, excellent cosmetic mvt condition overall, some typical fine and micro-fine scratches; outer dial with a moderate attractive patina, inner enamel dial with chipping around winding aperture, some small edge flakes at 6 to 7 and 12 to 1, short scratch below right side of signature; fine hands; case shows little wear, profuse micro-fine scratches, no dents or dings, case is missing the hinge pin for the pivoting dust-cap but dust-cap remains securely closed; bow pivots freely: good domed glass hull's-eye crystal.
225	Mvt: GRO, mint cosmetic mvt condition overall; flawless dial; mint hands; polished case shows no wear, no dents or dings, hand painted enamel detail shows no loss or wear; tight bow, crown shows hardly any wear; good plastic crystal.
226	Mvt: GRO after a small twist to start, good repeat function and tone, mint cosmetic mvt condition overall; near flawless dial with few slight micro-fine scratches; mint black spade hands; case shows hardly any wear, few slight small micro-fine scratches, no dents or dings, ribbed side detail shows no wear; tight bow, crown shows hardly any wear; good glass crystal.
227	Mvt: GRO, mint cosmetic mvt condition overall; flawless border dial design and engraved top plates; mint hands; case shows hardly any wear, no dents or dings; tight gold bow set with diamonds, original crown shows hardly any wear; good sapphire crystals; chain is near mint showing hardly any wear.
228	Mvt: GRO, excellent cosmetic mvt condition overall, strong gilt tone, few small fine and micro-fine scratches, some mild ultra-fine scratch striations, spot of oxide to click spring; near flawless dial with light tarnish to lower portion of seconds-register and adjacent area at 7; near mint hands, hour and minute are gold, seconds-hand is blue; case shows light wear, fine scratches to cuvette, few nicks or slight dings to front and rear, reduced engine turning detail with full loss at shoulders; bow pivots freely, push shows medium wear; good glass crystal; box shows ample wear, lower front portion is now missing along with small segment of lower right side, ample wear to corners and leather finish.
229	Mvt: GRO, good repeat function and tone, good chronograph function, excellent cosmetic mvt condition overall; dial with light hls near 12; excellent hands; case is missing its glazed mvt observation cover, case shows very little wear, some dings or small dents to front, some nicks and mild dings to band, good engine turning detail with mild reduction to shoulders; tight brassy bow, white metal crown shows little wear and some oxide: clean plastic crystal.
230	Mvt: GRO, bow-setting only engaging when case rear and cuvette are open and bow is held down, good repeat function and tone, excellent cosmetic mvt condition overall, some fine and micro-fine scratches; near flawless dial with some pinpoint surface nicks with the most visible of these being below 1; case shows hardly any wear, few nicks or small mild dings on band, excellent engraving detail to initials; tight bow with ding to upper left of rear, crown shows hardly any wear; good glass crystals.
231	Mvt: GRO, good repeat function and tone, excellent-plus cosmetic mvt condition overall, some mild fine and micro-fine scratches; near flawless dial with faint hl in upper portion of seconds-register; near mint hands; case shows very light wear, some fine scratches and profuse micro-fine scratches, no dents or dings, mild reduction of initial engraving detail; tight gold bow with chain guards, crown shows hardly any wear and is still sharp to the touch; good glass crystal.
232	Mvt: Ticking but stopping occasionally, repeat function not working as watch returns only a single abrupt tone when button is depressed regardless of time setting, good chronograph function apart from a sluggishness to reset, day calendar function advances as hands are set forward but is not advancing via date setting slide at bezel, other calendar functions and moonphase function advancing via setting slides, overhaul needed, excellent cosmetic mvt condition overall; dial with hl at 3:30, hl at 7:30, small hl above seconds-register, small hl below date-register, few very short scratches within upper portion of date-register; date-register hand with oxide, excellent other hands; case bezel is a replacement that seats on dial's perimeter rather than on case step as the original would have, case front with interior wear at portion clasped by latch and front does not stay shut unless given a bit of squeeze while closing, case shows hardly any wear, no dents or dings, very strong engine turning detail; tight brassy replacement bow, crown shows hardly any wear; clean plastic crystal.
233	Mvt: Ticking sluggishly and stopping often, overhaul needed, excellent cosmetic mvt condition overall, some fine and micro-fine scratches; dial with some mild spotting; excellent crystal; case shows light to medium wear, some mild dings on band, few slight dings at perimeter of rear, reduced engine turning detail with loss at perimeter; tight bow, crown shows hardly any wear; glass crystal with very small internal edge flake near top.

Lot#	Condition
234	Mvt: GRO, good chronograph function apart from some occasional sluggishness of the reset of the split hand in the counterclockwise direction, excellent cosmetic mvt condition overall, slight cloudy tone to plates, some fine and micro-fine scratches to balance cock, some small bits of oxide to steelwork; dial has area below 12 that appears to have been polished for removal of a signature and this area is visible in reflected light as having a cloudy appearance in contrast to the surrounding reflective surface glaze, dial otherwise excellent with only some micro-fine scratches; near mint hands; case shows light wear, slight shallow dent toward right side of rear; tight bow, crown shows light wear with some ridge break; good glass crystal with a small finish bubble at its upper left. Box in fine-plus condition, some loss of leather on sides and bottom, some fraying of inside material at corners, button latches securely but allows a small bit of upper lid play.
235	Mvt: GRO, excellent-plus cosmetic mvt condition overall, few micro-fine scratches on plates, signs of plate rub on crown wheel plate; near flawless dial with a few perimeter scratches outside minute chapter; excellent gold hour and minute hands, blue seconds-hand has a bend; case shows very little wear, sizable dent on band at 4, good overall engine turning detail with some reduction at shoulder: tight bow. crown shows very little wear: good glass crystal.
236	Mvt: GRO, mint cosmetic mvt condition overall; flawless dial; mint hands; case shows hardly any wear, no dents or dings, engraved coat of arms is crisp with no signs of wear; tight gold bow, original crown shows hardly any wear; good glass crystal; chain is near mint showing hardly any wear.
237	Mvt: Ticking with escapement noise and reduced balance amplitude in certain positions, overhaul recommended, near mint cosmetic mvt condition overall, bright lustrous plates, slight finish bubbling at perimeter of balance cock and crown wheel bridge; flawless dial; excellent hands; case shows almost no wear, no dents or dings, superb crisp engraving detail, enameling is fully intact with only some fine scratches; tight bow, crown shows very little wear; good glass crystal.
238	Mvt: GRO, excellent cosmetic mvt condition overall, short scratch and few mild fine scratches on crown wheel bridge, detent screw appears a replacement and is seated above the surrounding plate surface; near flawless dial with very small abrasion near edge at 6; excellent hands; case shows light wear, small abrasion on bezel near 9, very mild ding on bezel at 6, reduced engine turning detail with loss at shoulders; tight bow, crown shows little wear; good glass crystal.
239	Mvt: GRO, excellent cosmetic mvt condition overall, some slight clouding at portions of barrel bridge and balance cock; very near flawless dial, some mild toning of hour numerals; near mint hands; case shows very little wear, mild shallow dent to upper rear, some small nicks around perimeter, good engraving detail, enamel largely intact with only some small bits of loss in areas; bow pivots semi-freely, crown shows little wear; good glass crystal; excellent chain with enamel detail fully intact.
240	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide, few minimal micro-fine scratches; near flawless dial with only light perimeter wear under case bezel; near mint gold hands; case shows very little wear, fine scratches to rear, no dents or dings; tight bow, Rolex signed crown shows very little wear; good sapphire crystal.
241	Mvt: GRO, good repeat function apart from an occasional sluggishness to last few minute strikes, good repeat tone, excellent cosmetic mvt condition overall, some scattered fine and micro-fine scratches, small bit of oxide on one of the hammers; dial with hl at 4, hl from 10 to top of seconds-register with a smaller secondary hl branch above seconds-register; fine hands, minute with some darkening to its outer portion; case with small amount of play at its rear hinge, case shows very light wear, some short scratches at upper right of rear from slips when opening, small ding on band at 2, few small dings to rear, good engraving detail to initials; tight bow, crown shows very little wear; good glass crystal.
242	Mvt: GRO, good repeat function and tone apart from some sluggishness of operation and frequent reluctance of right side figure to move arm the last bit of the complete range of motion to contact with bell, overhaul recommended, fine-plus cosmetic mvt condition overall, some fine scratches and mild smudge to gilt surface; excellent central white enamel dial with some scattered mild fine scratches and very small surface nicks, surrounding blue guilloche enamel dial with some hls in upper portion, applied figures are excellent; case shows light wear, scratch to lower rear, dent to band at 1:30, some additional dings and lesser small dents to band, ding on bezel near 6, some dings or small dents around perimeter of rear; bow pivots freely; domed glass crystal with some small edge flaking or chipping at one side.
243	Mvt: GRO, good repeat function and tone, good musical function, a small lever under cuvette adjacent mvt is of uncertain function and its associated mechanism looks to be incomplete, excellent cosmetic mvt condition overall, some fine and micro-fine scratches; excellent dial with some minor spots; fine hands; hour with finish loss; case has some hairline fractures in the surface of the upper right of its rear which are more obviously evident from, case shows very little wear, many dings around perimeter of front and rear including a pair of sharp protruding dings at right side of rear, excellent engine turning and engraving detail; bow pivots freely; good glass crystal.

Lot#	Condition
244	Mvt: NR, fully wound, ticks with reverse pressure on winding arbor or clockwise pressure on setting arbor, repeat function (presumably a quarter-hour repeater) does not engage with the pendant depressing freely without resistance, automaton function unknown as watch is NR, excellent cosmetic mvt condition overall, few fine scratches and slight cloudiness on plates, some oxide on steelwork, shallow dent at perimeter of regulator disk; dial has two edge flakes near 10 and a short scratch near center; fine hands, minute with a metal break and some bend; case rear hinge pin is rotated with sharp points protruding slightly, case shows little wear, small soldered repairs of band near hinge and at 10:30, scattered shallow dents on rear and band, engraving detail shows mild reduction; tight bow; good glass crystal.
245	Mvt: Running upon winding but currently partly disassembled as pictured with hands, setting arbor, inner crystal, and several mvt components in a separate assemblage, repeat and automaton function are currently returning a single hour strike, overhaul needed, fine cosmetic mvt condition overall, clouding in areas of gilt surface; dial with perimeter chip at 12, small interior chip at 9:30, scattered hls and fine scratches; excellent hands; case shows little wear, small area of abrasion at upper rear, dings to bezel, band and rear perimeter; tight bow; missing external crystal, good internal glass crystal.
246	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous plates with few fine scratches and very slight cloudiness at edges; dial has edge chip at 12, faint hls at 3 and 9 adjacent the screw positions, tiny scratch within minute chapter between 7 and 8; excellent hands; outer case lift spring is weak so when in HC configuration the lid will not open under its own power and needs some assistance to open, outer case front lid opens a bit wide of 90 degrees and has a very small bit of split at one edge of its central hinge tube and a small touch of rotational play at this hinge, case shows hardly any wear, no dents or dings, excellent engraving detail, enameled scenes with scattered fine scratches, periphery enamel detail is substantially intact with only a few very small bits of loss; tight bow; good glass crystal.
247	Mvt: Ticking a bit sluggishly, overhaul recommended, good repeat function and tone, fine-plus cosmetic mvt condition overall, toning of plate surfaces, some micro-fine scratches, few small spots on center bridge and repeat bridge; excellent dial with few very mild micro-fine scratches, small bit of spotting at perimeter; excellent hands; case shows very little wear, small gouge and some scuffing at upper left edge of rear, a few mild dings, cuvette with a small bit of side-to-side play at its hinge; tight bow, crown shows very little wear; glass crystal with a few scratches at perimeter.
248	Mvt: Running with small error in the round of its balance motion, excellent cosmetic mvt condition overall, regulator spring is a replacement, three small fine scratches above "55 Heures" marking, some additional mild fine and micro-fine scratches elsewhere, fine scratch striations to steel piece surrounding balance jewel and to steel piece securing hairspring stud, micro-fine scratch striations to escape wheel jewel setting, few small specks of oxide to winding wheels; excellent dial with very faint hl within seconds-register, body of dial with few mild micro-fine scratches and minuscule surface nicks; fine hands, hour and minute are re-colored, seconds-hand possibly missing a tail; case with soldered repair to rear planchet which is readily apparent to internal surface of lid but more well executed externally with only mild color differences at areas of repair, case shows little wear, cuvette with some fine scratches, mild ding to lower left shoulder of rear, few small nicks; bow pivots semi-freely though its central range of motion, crown shows little wear; glass crystal with an internal edge chip or flake at 9.
249	Mvt: GRO, near mint cosmetic mvt condition overall, superb gilt tone, plate with a small spot near serial number and few additional minuscule spots elsewhere; dial with hl below seconds-register near 5, short hl below seconds-register at 6; case shows light wear, no dents or dings, few mild pinpoint nicks on band; tight bow, crown shows light wear; good glass crystal.
250	Mvt: Both GRO, both with good winding indicator function; s#4897377 in fine-plus cosmetic mvt condition overall with some fine scratches; s#4897371 in fine cosmetic mvt condition overall, scratch running across plate from regulator snail, plates with some finish loss and dullness; both dials with an overscratched portion of their lower signature line, dials likely originally read "Greenwich Sidereal Time" and "Greenwich Civil Time" but now with one having a small "C.V." marking scratched in place of the removed word and the other a small "C.V.T." marking in place of the removed word, apart from this signature alteration dials are otherwise fine to excellent with s#4897377 having some mild darkening at its right perimeter and s#4897371 having some very mild darkening at perimeter areas; both with near mint hands; both with cases showing very little wear, fine scratches to rear, no dents or dings; both with crowns showing very little wear; both with good glass crystals; box is excellent with some mild exterior marks.
251	Mvt: GRO apart from the setting mechanism having an occasional small skip, good seconds-setting function though with stiffness in its operation and we recommend a fresh servicing to reduce the potential for strain on this mechanism, wind indicator advancing correctly, very near mint cosmetic mvt condition overall, superb bright lustrous surfaces with very few minuscule micro-fine scratches or specks of oxide; very near flawless dial with only two minuscule fine scratches along edge under bezel at 1; near mint hands; case shows virtually no wear, unpolished with moderate tarnish and some small mild spots, some mild fine scratches on rear, no dents or dings; tight bow, crown shows virtually no wear; good thick glass crystal.

Lot#	Condition
252	Mvt: GRO, good winding indicator function, near mint cosmetic mvt condition overall, bright lustrous plates with few micro-fine scratches; excellent dial has few small mild spots and fine scratches, mild edge rub under bezel near 12; excellent hands with some mild oxide; case shows light wear, lever slot appears to have been deepened, scratch toward upper left of rear and scattered fine and micro-fine scratches elsewhere, scattered shallow dents and small dings on rear; tight bow, crown shows ample wear and does not snap into higher position but has some up/down play which allows case to be opened; thick glass crystal has small internal flake at 6
253	Mvt: Running but winds stiffly and somewhat sluggish starting so overhaul is recommended, near mint cosmetic mvt condition overall, specks of green debris on train wheels and sweep wheel, some green debris at edge of mvt and within thread areas of case; flawless dial; very near mint hands; case shows very little wear, no dents or dings, rear markings remain bold and as is often seen among these Canadian versions are very deeply stamped leaving corresponding impressions too the inner surface of the lid; tight bow, crown shows little wear; plastic crystal with fine and micro-fine scratches; box shows little exterior wear, some typical scratches, portion of lacquer loss to serial number label, plastic viewing cover is warped, cracked and discolored and the foam inserts and glue that secure it are deteriorated or lost causing it to be loose and drop down when box is opened.
254	Mvt: GRO, excellent cosmetic mvt condition overall, excellent gilt tone, some scratches around plate pins, few fine scratches elsewhere, mvt has provision for a dust-cap which is missing; dial with patched chip to lower portion of seconds-register, small surface flake at 3:30 surrounded by numerous radiating hls, some additional hls elsewhere, very small flaking to rim of center hole; excellent hands; case shows very little wear, an attractive acquired patina, some mild fine scratches, no dents or dings; tight bow, crown shows very little wear: good glass crystal.
255	Mvt: GRO, excellent cosmetic mvt condition overall, few small fine and micro-fine scratches; excellent dial with only a small edge flake largely under bezel at 12:15; very near mint hands; case shows little wear, fine scratches and abrasions, few small nicks on bezel and band, contract markings remain clear; bow pivots semi-freely, crown shows little wear; clean plastic crystal; box shows light wear, some mild scratches and scuffs, a few spots to lower left of top.
256	Mvt: GRO, very near mint cosmetic mvt condition overall, superb surfaces with minimal few micro-fine scratches, few minuscule specks of oxide on regulator spring, mismatched case screws; near flawless dial with few small surface spots; very near mint hands; case rear with s#570985 while case band has differing s#2925, rear threads closed with its contract markings perfectly oriented, case shows very little wear, some fine scratches, small nicks to left side of band, contract markings remain crisp and original circular finish of case rear is intact, some chrome loss to band in areas adjacent to pendant and at bottom; tight bow, crown shows hardly any wear; clean plastic crystal.
257	Mvt: GRO, near mint cosmetic mvt condition overall, few fine scratches near lower case screw, few minuscule specks of oxide on regulator assembly; near flawless dial with some edge rub under bezel and few scattered minuscule edge flakes under bezel; near mint hands; case shows no wear, no dents or dings, original circular finish of rear is fully intact; bow pivots semi-freely, crown shows no wear: clean plastic crystal.
258	Mvt: GRO, excellent-plus cosmetic mvt condition overall, speck of oxide on mirrored portion of larger winding wheel, few micro-fine scratches on plates; very near flawless dial has only two minuscule edge flakes under bezel at 7 and 9; near mint hands; case shows hardly any wear, few fine scratches on rear, scattered pinpoint nicks along band, no dents or dings, contract markings are crisp, circular finish of rear remains fully intact; tight bow, crown shows little wear; glass crystal with some light scuffs; box shows little wear: some finish cracking and loss at edges and corners.
259	Mvt: NR, currently overbanked as watch started running when wound but is frequently overbanking, overhaul needed, good winding indicator function, fine cosmetic mvt condition overall, some marring around case screw areas, some spots to plates; refinished dial is in excellent cosmetic mvt condition overall; fine hands; case shows little wear, some marring around bezel seam likely from attempts to open with a blade or tool, small dent and few dings on band; tight chrome-plated base metal replacement bow, crown shows light wear; plastic crystal somewhat hazy with fine and micro-fine scratches. Box shows light wear and some mild scratches.
260	Mvt: GRO, good chronograph function, near mint cosmetic mvt condition overall, few minuscule specks of oxide to base of regulator spring; near flawless dial with a small and very slight sliver of edge rub under bezel at 6; excellent hands; case shows hardly any wear, typical contact fine and micro-fine scratches, tiny nick on band at 7, no dents, contract markings are crisp and original circular finish of case rear is fully present; tight bow, crown shows light wear; plastic crystal with fine scratches.
261	Mvt: GRO, excellent-plus cosmetic mvt condition overall, bright lustrous surfaces with few micro-fine scratches; dial with some scattered fine surface scratches, few bits of paint loss to GCT marking; excellent hands, minute and hour have minor losses of paint; case shows little wear, scattered fine scratches and abrasions, no dents or dings, lightly stamped contract markings remain legible: tight bow: crown shows light wear: good glass crystal.
262	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide; flawless dial; mint gold hands; unpolished case shows hardly any wear, no dents or dings; original signed crown shows hardly any wear; good sapphire crystals.
263	Mvt: NR, broken balance staff, will require a watchmaker's attention, fine-plus cosmetic mvt condition overall, light oxide to steelwork, light discoloration to plates along movement perimeter; excellent dial with relumed outer chapter; original near mint kite shaped luminous hands; case shows very little wear with original cosmoline style lacquer over the Parkerized finish, no dents or dings, retains almost all of its original matte gray finish; original crown shows very little wear; good plastic crystal.

Lot#	Condition
264	Mvt: GRO, fresh battery installed 12/18/2018, excellent cosmetic mvt condition overall, no oxide; flawless dial; mint hands; lightly polished case shows very little wear, no dents or dings; original oval shaped crown set with a diamond shows hardly any wear; good sapphire crystal.
265	Mvt: GRO, mint cosmetic mvt condition overall, no oxide; flawless dial; mint blued steel Breguet hands; unpolished case shows hardly any wear, no dents or dings; original sapphire cabochon crown shows hardly any wear; good sapphire crystal.
266	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide; flawless dial; mint blued steel hands; unpolished case shows hardly any wear, no dents or dings; original sapphire crown shows hardly any wear; excellent curved sapphire crystal. Box shows very little wear.
267	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide; near flawless dial; mint hands; unpolished case shows hardly any wear, no dents or dings; original signed crown shows hardly any wear; good glass crystal.
268	Mvt: GRO, mint cosmetic mvt condition overall, no oxide; near flawless used gold piece dial; mint hands; unpolished case shows no wear, no dents or dings; original diamond set crown shows hardly any wear; good sapphire crystal.
269	Mvt: GRO, retrograde jumping hour function advances and flies back properly, mint cosmetic mvt condition overall, no oxide; flawless dial and engraved main plates; mint hands; unpolished case shows hardly any wear, no dents or dings; original crown shows hardly any wear; good sapphire crystals.
270	Mvt: GRO, mint cosmetic mvt condition overall, no oxide; flawless dial; mint gold luminous hands; unpolished case shows hardly any wear, several light scuffs on bezel; original signed crown shows hardly any wear; good sapphire crystals; inner and outer boxes show very little wear.
271	Mvt: GRO, reserve indicator functions properly, mint cosmetic mvt condition overall, no oxide; near flawless dial; mint hands; unpolished case shows hardly any wear, no dents or dings; original signed crown shows very little wear; good sapphire crystal; both the inner and the outer boxes show hardly any wear.
272	Mvt: GRO, chronograph functions and resets properly, near mint cosmetic mvt condition overall, no oxide; excellent-plus dial with only very light surface spotting; excellent-plus hands with one small piece of lume missing from the minute hand; unpolished case shows very little wear, no dents or dings; original signed crown shows very little wear; good plastic crystal.
273	Mvt: GRO, chronograph functions and resets properly, excellent cosmetic mvt condition overall, light oxide to steelwork, light tarnish to plates and balance cock; near flawless dial; mint hands, replaced minute recording hand and minute hand, however they look correct; unpolished case shows very little wear, retains most of its original factory finish, sharp lug chamfers, no dents or dings; original crown shows very little wear; good plastic crystal.
274	Mvt: GRO, chronograph functions and resets properly, excellent cosmetic mvt condition overall, very light oxide to steelwork; excellent-plus dial; excellent hands; unpolished case shows very little wear, still retains extra crisp lug chamfers, no dents or dings; original crown shows little wear; good plastic crystal.
275	Mvt: GRO, when battery installed, battery removed 9/25/18 for storage, near mint cosmetic mvt condition overall, no oxide; near flawless dial with only light surface spotting; near mint hands; unpolished case shows hardly any wear, appears to be unworn, no dents or dings; original signed crown shows very little wear; good plastic crystal.
276	Mvt: GRO, recent overhaul dated May 2012, excellent-plus cosmetic mvt condition overall, no oxide, light spotting on rotor edge; flawless dial; mint hands; unpolished case shows hardly any wear, no dents or dings; original screw down crown shows very little wear; good threads; good sapphire crystal.
277	Mvt: GRO, chronograph functions and resets properly, mint cosmetic mvt condition overall, no oxide; flawless dial; mint hands; unpolished case shows hardly any wear, no dents or dings; original signed screw down crown shows no wear, good threads; good sapphire crystal; inner and outer boxes show hardly any wear.
278	Mvt: GRO, chronograph functions and resets properly, mint cosmetic mvt condition overall, no oxide; flawless dial; mint hands; unpolished case shows hardly any wear, no dents or dings; original signed crown shows no wear, good threads; good sapphire crystal; inner box shows light wear to its outer black finish.
279	Mvt: GRO, alarm functions and sets properly, excellent cosmetic mvt condition overall, no oxide; excellent dial with light surface spotting; fine gold dauphine hands; polished case shows light wear, light solder repair to alarm post on caseback, numerous light dings and dents on caseback and retaining ring; Elgin signed replacement crowns shows little wear; good plastic crystal.
280	Mvt: GRO, mint cosmetic mvt condition overall, no oxide; flawless dial; mint blued steel Breguet hands; unpolished case shows very little wear, no dents or dings; original sapphire cabochon crown shows hardly any wear; good sapphire crystal.
281	Mvt: GRO, chronograph functions and resets properly, excellent cosmetic mvt condition overall, light oxide to steelwork; excellent-plus dial with light spotting on minute recorder and subsidiary seconds register; excellent hands, center sweep is missing some of its original high visibility white paint; unpolished case shows little wear, lug chamfers are strong and crisp in appearance, several light dings on caseback from the improper use of a case wrench; original compressor crown shows very little wear; scratched original plastic crystal.
282	Mvt: GRO, chronograph functions and resets properly, good flyback function, recent complete overhaul, near mint cosmetic mvt condition overall, very little oxide; excellent-plus dial with even fade of dial to brown, light discoloration on lume plots; excellent hands with light lume loss on minute hand; very lightly polished case shows light wear, several light dings on caseback from improper use of a case wrench; original signed crown shows very little wear; good glass crystal.

Lot#	Condition
283	Mvt: GRO, fine cosmetic mvt condition overall, light oxide to steelwork; fine refinished dial with light ding at 2; spotted and discolored hands; polished case shows little wear, several light dings on the sides and back; crown shows light wear; good outer glass crystal, missing inner glass crystal.
284	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide; flawless dial; mint hands; factory polished case and bracelet show little very little wear, no dents or dings; original locking crown shows very little wear; good sapphire crystal; travel case shows hardly any wear.
285	Mvt: GRO, mint cosmetic mvt condition overall, no oxide; flawless dial; mint gold hands; unpolished case shows hardly any wear, no dents or dings; original sapphire cabochon crown shows hardly any wear; good sapphire crystals.
286	Mvt: GRO, mint cosmetic mvt condition overall, no oxide; flawless engraved plates dial; mint hands; unpolished case shows hardly any wear, no dents or dings; original crown shows very little wear; good sapphire crystals.
287	Mvt: GRO, mint cosmetic mvt condition overall, no oxide; flawless dial; mint gold hands; unpolished case shows hardly any wear, no dents or dings; original sapphire cabochon crown shows hardly any wear; good sapphire crystals.
288	Mvt: GRO, mint cosmetic mvt condition overall, no oxide; flawless dial; mint hands; unpolished case shows hardly any wear, no dents or dings; original sapphire cabochon crown shows hardly any wear; good sapphire crystals.
289	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide; near flawless dial; mint hands; unpolished case shows hardly any wear, no dents or dings; original signed crown shows hardly any wear; good glass crystal.
290	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide; flawless dial; mint gold Breguet style hands; unpolished case shows hardly any wear, cloisonné enamel shows hardly any wear, no dents or dings; original Paul Picot signed crown shows hardly any wear, good threads; good sapphire crystal; inner and outer boxes show very little wear.
291	Mvt: GRO, reserve indicator and date function properly, near mint cosmetic mvt condition overall, no oxide; flawless dial; mint gold hands; unpolished case shows hardly any wear, no dents or dings; original signed screw down crown shows hardly any wear, good threads; good sapphire crystals.
292	Mvt: GRO, chronograph functions and resets properly, near mint cosmetic mvt condition overall, no oxide; flawless dial; near mint hands; unpolished case shows hardly any wear, no dents or dings; original signed crown shows very little wear; good sapphire crystals.
293	Mvt: GRO, mint cosmetic mvt condition overall, no oxide; flawless dial; mint gold dauphine hands; unpolished case shows hardly any wear, no dents or dings; original signed crown shows hardly any wear; good sapphire crystals.
294	Mvt: GRO, mint cosmetic mvt condition overall, no oxide; flawless dial; mint gold dauphine hands; unpolished case shows hardly any wear, no dents or dings; original signed crown shows hardly any wear; good sapphire crystals.
295	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide; flawless dial; mint gold spade hands; unpolished case shows hardly any wear, no dents or dings; original signed crown shows no wear; mint curved sapphire crystals.
296	Mvt: GRO, mint cosmetic mvt condition overall, no oxide; flawless dial; mint hands; unpolished case shows hardly any wear, no dents or dings; original signed crown shows no wear; good sapphire crystal; outer box shows hardly any wear, inner box shows very little wear on the exterior, the inner portion has flaking common among Patek and Vacheron boxes of this era.
297	Mvt: GRO, mint cosmetic mvt condition overall, no oxide; flawless dial; mint gold hands; unpolished case shows hardly any wear, light brown tarnish along caseback from what appears to be a caseback sticker, no dents or dings; original V&C signed crown shows hardly any wear; good sapphire crystal.
298	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide; excellent dial overall with small black spots near the base of the polished baton indices; excellent-plus hands; unpolished original head shows hardly any wear, one small ding on the center of the caseback; white crown shows little wear; good glass crystal.
299	Mvt: GRO, excellent cosmetic mvt condition overall, light discoloration to gilt finish, very light oxide to steelwork, light fine scratches to plates; near mint refinished dial with light surface bubbling; original kite shaped relumed hands, sweep hand has been painted white; case shows very little wear, no dents or dings, retains almost all of its original matte gray finish; original crown shows very little wear: good plastic crystal.
300	Dial has light vertical surface scratches, sloppy dial lume.
301	Dial shows ample wear with bubbling surface texture and discoloration to the gilt text, recommend dial stabilization as soon as possible.
302	Dial has several light spots and shows light surface scratches, still appears glossy and vibrant, relumed indices fade quickly after UV charges the dial lume.
303	Near flawless dial, with light puffiness to lume especially around 12, perimeter with light paint loss from case rub which is not overly noticeable unless scrutinized.
304	Mvt: GRO, excellent cosmetic mvt condition overall, light oxide to steelwork, ready for a case or for parts to repair an existing movement.
305	Dial has very light vertical surface scratches, glossy non reactive lume under UV appears to be a later addition.
306	Bezel has a dent to steel ring at "60" with a crack running through it, crack through "75," various light surface scratches and scuffs throughout insert.

Lot#	Condition
307	Bezel has a dent to steel ring at "75" with a crack running through it and chip in insert, various light surface scratches and scuffs through insert.
308	Polished and lightly refinished bracelet shows very light wear, light wear to backs of links from clasp rub.
309	Excellent condition overall, light surface scratches and spotting, puffiness and discoloration to lume most notable at 12, 3, 6 and 9.
310	Excellent-plus dial has started to turn brown along the right portion of the dial, several light surface spots and discoloration along dial perimeter.
311	Near flawless dial, light discoloration on lume edges most likely from where a case met the dial.
312	Nearly flawless dial, light spotting around lume plots.
313	Bezel has light surface scratches indicative of an insert worn for many years, original Pepsi colors fading to a light sky blue and a light pink.
314	Dial has numerous light surface spots and shows ample surface scratches, still appears glossy and vibrant, relumed indices fade quickly after UV charges the dial lume.
315	Bezel has light surface scratches indicative of an insert worn for many years, original Pepsi colors fading to a light metallic grey and light purple, stainless steel bezel shows little wear, several light dings.
316	Bezel has light surface scratches indicative of an insert worn for many years, original black faded to a light soft gray tone.
317	Bezel has light surface scratches indicative of an insert worn for many years, original jet black color with wear to aluminum along insert's edge.
318	Bezel has light surface scratches indicative of an insert worn for many years, original black color has turned to a bluish hue.
319	Multiple lots sold as-is, no further condition report available.
320	Bezel has light surface scratches indicative of an insert worn for many years, light crack in insert at 4, original Pepsi colors fading to a deep sapphire blue and an orangey-pink, stainless steel bezel shows little wear, several light dings.
321	Multiple lots sold as-is, no further condition report available.
322	Excellent-plus dial, very light surface spotting not visible unless highly scrutinized, relumed lume plots.
323	Near flawless dial, light scratches on subsidiary seconds dial where it appears a watchmaker slipped.
324	Bezel insert has ample scratches most notably between 12 and 3 where it has worn off the edge, original Pepsi colors fading to purplish-blue and an orange-red.
325	Bezel has numerous surface scratches, polished surface worn to a matte surface at 12 and 6.
326	Hands show hardly any wear, ready for storage or placement on a watch.
327	Excellent-plus dial, very light spotting on hour recorder and subsidiary seconds register.
328	Multiple lots sold as-is, no further condition report available.
329	Multiple lots sold as-is, no further condition report available.
330	Nearly flawless dial with small oil spot near 11 not visible unless highly scrutinized.
331	Nearly flawless dial with one spot of damage at 5 which is not visible unless highly scrutinized.
332	Nearly flawless dial, slight yellowing to lume corners.
333	Crown shows hardly any wear and appears to be unused.
334	Bracelet shows ample wear with numerous dents and dings, end links have been heavily beaten and shaved down from 20mm and are not original to this bracelet, ample stretch, recommend rebuilding to fresh materials.
335	Multiple lots sold as-is, no further condition report available.
336	Multiple lots sold as-is, no further condition report available.
337	Hands show ample wear, bright orange hand has lost its color and looks light yellow in appearance.
338	Multiple lots sold as-is, no further condition report available.
339	Multiple lots sold as-is, no further condition report available.
340	Multiple lots sold as-is, no further condition report available.
341	Multiple lots sold as-is, no further condition report available.
342	Multiple lots sold as-is, no further condition report available.
343	Multiple lots sold as-is, no further condition report available.
344	Multiple lots sold as-is, no further condition report available.
345	Multiple lots sold as-is, no further condition report available.
346	Multiple lots sold as-is, no further condition report available.
347	Multiple lots sold as-is, no further condition report available.
348	Multiple lots sold as-is, no further condition report available.
349	Multiple lots sold as-is, no further condition report available.

350	Multiple lots sold as-is, no further condition report available.
351	Multiple lots sold as-is, no further condition report available.
352	Multiple lots sold as-is, no further condition report available.
353	Caseback shows hardly any wear, light signs of polishing, very little pitting present.
354	Caseback shows hardly any wear, light signs of polishing.
355	Excellent condition overall, lightly oxidized, excellent lume color.
356	Multiple lots sold as-is, no further condition report available.
357	Multiple lots sold as-is, no further condition report available.
358	Multiple lots sold as-is, no further condition report available.
359	Caseback shows hardly any wear, light signs of polishing.
360	Bracelet shows ample wear with numerous dents and dings, end links have been swapped from a different bracelet and are not original to this piece, ample stretch, recommend rebuilding to fresh materials.
361	Multiple lots sold as-is, no further condition report available.
362	Multiple lots sold as-is, no further condition report available.
363	Dial is near flawless.
364	Hands show hardly any wear, ready for storage or placement on a watch.
365	Bracelet shows very light wear, extension was done very well and appears seamless in transition.
366	Multiple lots sold as-is, no further condition report available.
367	Multiple lots sold as-is, no further condition report available.
368	Dial has light surface spotting as well as wear at perimeter, tarnished gold indices, missing dial feet.
369	Mvt: Runs and stops, fine cosmetic mvt condition overall, light oxide to steelwork, light discoloration and spotting on plates as well as wear to brass; excellent dial with light surface spotting; fine gold hands; crown shows little wear.
370	Dial has light surface spotting as well as light spider webbing to lacquer finish, tarnished gold indices.
371	Multiple lots sold as-is, no further condition report available.
372	Mvt: NR, apparent rust damage to movement, will require a watchmaker's attention, fine cosmetic mvt condition overall, rust apparent on plates and under dial; fine dial with rust showing on the dial perimeter; missing hands; polished case shows light wear, missing dust cover and caseback, original hash mark Super Compressor crowns show very little wear; good plastic crystal.
373	Bracelet shows very light wear, light stretch.
374	Bezel and insert show hardly any wear.
375	Bezel shows light wear with paint flakes to most of the bezel, dot over 90 clearly visible and intact.
376	Bezel shows light wear appearing ghosted in appearance, dot over 90 clearly visible and intact, small ding on steel bezel at 9.
377	Bezel shows light wear with paint flakes to most of the bezel, dot over 90 clearly visible and intact.
378	Bracelet shows ample wear, missing half of a fixed section and one end tab, for parts or repair.
379	Bracelet shows hardly any wear.
380	Bezel shows very light wear with sharp black appearance, light dent to steel bezel at 80.
381	Bezel shows light wear, bluish gray fade, light dent to steel bezel at 90.
382	Multiple lots sold as-is, no further condition report available.
383	Mvt: Running after a twist to start, frequent slippage when winding as the visible wolf's tooth winding wheel exhibits significant wear to a number of its teeth, tendency to overbank as safety roller is glued to balance staff in wrong position, overhaul recommended, original polished steel disk over ratchet wheel has been replaced by a crude thin copper colored piece held by two mismatched screws, otherwise fine-plus cosmetic mvt condition overall, dark spot at perimeter of main plate adjacent one of the plate screws, few lesser spots elsewhere, some scattered micro-fine scratches and mild fine scratches, mild ultra-fine scratch striations likely caused by light wiping; dial with hl from 12 to center, 1 to center, small hl above seconds-register; excellent hands; case shows very light wear, very mild ding toward top of front that is more apparent to inner surface of lid, good overall engraving and engine turning detail with some mild reduction; tight bow thinned at top; good glass crystal.
384	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous surfaces, some fine and micro-fine scratches, few small bits of oxide on smaller winding wheel; near flawless dial with few pinpoint surface nicks and small fine scratches; near mint hands; case shows very little wear, no dents or dings, excellent overall engraving detail with only very slight reduction of rear pattern detail, case shows no visual sign of having held another mvt but our consignor notes that he paired this case and mvt together; tight bow, crown shows very little wear; good glass crystal.

Lot#	Condition
385	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous surfaces with few small micro-fine scratches; excellent dial with small edge flaking concealed by bezel between 12 and 1, minuscule flakes to rim of seconds-register hole, few micro-fine scratches; case shows medium wear, few mild shallow dents to rear, reduced engraving detail and loss to much of engine turning, cuvette with wear to brass at its upper right perimeter; tight bow, crown shows light wear; good glass crystal.
386	Mvt: Ticking sluggishly, overhaul recommended, excellent cosmetic mvt condition overall, some fine and micro-fine scratches, regulator spring is a somewhat larger replacement; dial with edge chipping between 12 and 2 of which a portion is concealed by bezel, very small edge flake and hl at setting lever, two hls below seconds-register, very faint hl at 8; excellent hands, spot of oxide on spade of minute; case shows ample wear, a few dings around perimeter of rear, engraving detail substantially reduced, only minimal bits of engine turning remain evident, wear to brass to much of band and pendant; tight bow, crown shows ample wear and has lost its jacket (outer layer); good glass crystal.
387	Mvt: NR, likely broken mainspring, excellent cosmetic mvt condition overall, some scattered fine scratches; very near flawless dial with few very mild bits of edge rub under bezel; near mint hands; case shows hardly any wear, no dents or dings, small nicks on band between 4 and 5, excellent engraving and engine turning detail; tight bow, crown shows hardly any wear; glass crystal with edge chipping at upper left.
388	Mvt: GRO, excellent cosmetic mvt condition overall, scattered micro-fine scratches, small four-digit service code lightly scribed on plate surface above s#; near flawless dial with some fine scratches within seconds-register, some micro-fine scratches and ultra-fine scratches to body of dial; near mint hands; case rear hinge pin is broken along one side allowing some play to knuckles on one side of hinge and allowing case rear to open a small touch wide of 90 degrees, uckle, case shows almost no wear, few short fine scratches on band near pendant, no dents or dings, excellent engraving detail, excellent details and enameling to applied emblem with only few specks of enamel loss to a few letters along bottom element; tight bow, crown shows light wear with small ridge break; glass crystal with few short fine scratches.
389	Mvt: GRO, slightly difficult to set as lever tends to slide back in on its own while setting, excellent cosmetic mvt condition overall, scattered short fine and micro-fine scratches on plates, few specks of oxide on regulator assembly; dial has scattered faint hls, edge flake at setting lever mostly covered by bezel, tiny edge flake under bezel at 8; excellent hour hand with tiny spot of color loss on tip, fair minute and seconds-hand have oxide and loss of color; case shows very light wear, dent toward lower right of rear, engraving and engine turning detail show mild even reduction, very thin partial rings of brass on bezel and rear edge; tight bow, crown shows light wear; good glass crystal.
390	Mvt: GRO, excellent cosmetic mvt condition overall, bright lustrous plates, oxide to regulator assembly and in lesser spots on winding wheels; excellent dial with some edge rub under bezel between 3 and 5 and a minuscule edge flake under bezel at 3; fair hands with finish loss and oxide; case shows very light wear, small nick at lower right corner of rear shield, no dents, engraving detail shows mild to moderate overall reduction and some bits of full loss at shoulders; bow pivots freely, crown shows light wear; glass crystal with some scratches.
391	Mvt: GRO, virtually mint cosmetic mvt condition overall, mvt surfaces are extremely close to pristine but appear likely to have not seen a cleaning in quite some time; flawless dial; very near mint hands; case shows no wear, no dents or dings, satin finish on case rear is fully intact with only some slight micro-fine contact scratches; tight bow, crown shows no wear; good glass crystal; outer cardboard box shows medium wear and tattering, small end flap torn off but present on top side, both small end flaps missing on bottom, bottom main flap with interior taping, bottom with end label bearing correctly matched s# apart from tattering loss to its last digit; inner aluminum box shows little wear; business card legible but with some creases and with an address marking crossed out.
392	Mvt: GRO, excellent cosmetic mvt condition overall, bright lustrous surfaces, some typical mild fine and micro-fine scratches, few specks of oxide on regulator assembly and winding wheels; dial has one very faint short hl above seconds-register; near mint hands; case shows virtually no wear, no dents or dings, superb crisp engraving detail, mild bit of toning to left side of case rear; tight bow. crown shows virtually no wear. good glass crystal.
393	Mvt: GRO after a sluggish start, fine-plus cosmetic mvt condition overall, balance cock with a short but deep scratch at about the mid-point of its inner side, small marring around balance jewel setting, main plate with scattered fine and micro-fine scratches; dial with hl at 5, faint hl at 8:45, faint hl above seconds-register, minuscule flake to lower rim of center hole, few minuscule edge flakes under bezel; fine hands, minute with finish loss to much of its stem, seconds-hand with some oxide; case shows medium wear, very mild shallow dent to lower left perimeter of rear, engine turning detail largely lost with only faint remainder visible around central portion; tight bow, replacement crown shows hardly any wear; good glass crystal.
394	Mvt: GRO, excellent-plus cosmetic mvt condition overall, bright lustrous surfaces with some mild fine and micro-fine scratches; dial with some very faint hls, minuscule flaking to rim of center hole; near mint hands, minute with some small spots of bluing loss; case bezel has a handscratched serial number that does not correspond to the serial number of the band and rear but its superb condition and pattern engraving are entirely consistent with remainder of case so we suspect this may simply be a factory assembly error, case shows virtually no wear, no dents or dings, superb crisp engraving detail; tight bow, crown shows virtually no wear. good thick glass crystal.

Lot#	Condition
395	Mvt: GRO, excellent cosmetic mvt condition overall, some fine and micro-fine scratches; flawless dial; fine hands with portions of finish loss and oxide; case shows hardly any wear, no dents or dings, excellent engraving detail; tight bow, crown shows very little wear; good glass crystal; modern era boxes with mild wear.
396	Mvt: GRO, very near mint cosmetic mvt condition overall, superb bright lustrous surfaces with very few minimal micro-fine scratches; dial with very small patched edge chip at 6, faint hls within and below seconds-register, very faint hl above seconds-register; excellent hands, minute with oxide at tip; case shows no wear, mild ding on band at 3:30 causing small flat spot, superb crisp engraving detail; tight bow, crown shows hardly any wear; glass crystal with short scratch near center; leather pouch shows some mild wear and soiling.
397	Mvt: GRO, excellent-plus cosmetic mvt condition overall, some fine and micro-fine scratches to perimeter of balance cock, few micro-fine scratches elsewhere; dial with hl below seconds-register at 5:15, two faint hls at center; excellent hands, hour and minute are blue, seconds-hand is plum colored; case shows hardly any wear, marring to band around rear lip caused by rough openings, no dents or dings, superb crisp engine turning detail; tight bow, crown shows very little wear; glass crystal with some flaking at its lower right edge.
398	Mvt: GRO, fine-plus cosmetic mvt condition overall, scattered fine and micro-fine scratches, specks of oxide on winding wheels and regulator spring, center wheel with some perimeter abrasion; dial has scattered faint hls, very small patched edge chip near 4; excellent hour and minute hands, fair seconds-hand; case shows hardly any wear, no dents or dings, superb engraving detail; tight bow, crown shows very little wear; good glass crystal with one very short fine scratch above seconds-register.
399	Mvt: GRO, excellent cosmetic mvt condition overall, small spot above "Elgin" and some additional scattered very small spots, few specks of oxide on steelwork; dial has blue colored hl through center and a tiny edge chip under bezel between 1 and 2; fine hands are dulled in color; case shows hardly any wear, no dents or dings, excellent engraving detail, front hinge is missing both end caps, front lift spring is not making contact with lid through final portion of opening range but hinge is tight so the fully opened lid will hold its 90 degree position; tight bow, crown shows light wear with ridge break; good glass crystal.
400	Mvt: GRO, very near mint cosmetic mvt condition overall, superb gilt tone, few micro-fine scratches; flawless dial; near mint hands; case shows no wear, no dents or dings, superb crisp engraving and engine turning detail with no reduction; tight bow, crown shows no wear; good glass crystal.
401	Mvt: GRO, excellent-plus cosmetic mvt condition overall, some micro-fine scratches on plates, few minuscule specks of oxide on winding wheels; dial has flake at center of seconds-register, some light outer chapter hls, few flakes at seconds hole, one short scratch within seconds-register, and two minuscule edges flakes under bezel at 6; fine hands have some oxide; case shows little wear, no dents or dings, engraving detail shows mild reduction, hinge is missing both end caps; tight bow, crown shows light wear; good glass crystal.
402	Mvt: GRO, good winding indicator function, excellent cosmetic mvt condition overall, some spots of oxide on winding wheels, some scratches around train bridge case screw area, fine scratch on larger winding wheel; scattered fine scratches on plates and one on larger winding wheel, spots of oxide on winding wheels; dial has scattered light hls, tiny flake to upper rim of seconds-register, few small flakes around wind indicator hole; fair hands have been painted over; case shows hardly any wear, scattered short scratches along band, some fine and micro-fine scratches to rear, no dents or dings, superb engraving detail; tight bow, crown shows hardly any wear; good glass crystal with some glue excess around its seat.
403	Mvt: GRO, excellent cosmetic mvt condition overall, bright lustrous plates, scratch between fourth wheel jewel setting and escape wheel jewel setting, scattered fine scratches elsewhere; dial with few very faint hls in center section, few minuscule nicks to rim of center hole; excellent hands with minor oxide; case shows very little wear, an attractive light patina, few tiny nicks on band, ding toward lower right of rear just outside of vase image, excellent engraving detail; tight bow, crown shows light wear; good glass crystal.
404	Mvt: GRO, excellent cosmetic mvt condition overall, some toning of center bridge plate, few minuscule specks of oxide on winding wheels and loop of regulator spring; very near flawless dial with only a very small fine scratch near 9; excellent hands, seconds-hand is slightly bent; case shows light wear, profuse tiny nicks throughout perimeter of rear and band, scattered tiny nicks on bezel, dent on band at 10, excellent engraving detail; tight bow, crown shows ample wear; good glass crystal.
405	Mvt: GRO, very near mint cosmetic mvt condition overall, exceptional two-tone color and luster, few minimal micro-fine scratches; dial with scattered faint hls including a cluster in the upper part of the center section, minuscule surface nick inside 3; excellent hands; case shows little wear, slight ding at lower right of rear visible as subtle ripple to reflection, excellent engraving detail; tight bow, crown shows light wear; good glass crystal with a minuscule finish bubble in its upper portion.
406	Mvt: GRO, excellent cosmetic mvt condition overall, some oxide to larger winding wheel and loop of regulator spring, loss of enameling on one of the digits in s#, few fine scratches under "Barrel" marking; flawless dial with a very minor as-made finish imperfection of a few minuscule specks of printing incompleteness to the minute chapter near 12 and 1; excellent hands; case shows light wear, scattered fine scratches on rear, curved scratches to a portion of inner rear likely caused by a mvt case screw rubbing at some time in the past, no dents or dings, excellent engraving detail, tiny sliver of wear to brass beginning along rear shoulder, small bits of wear to brass at corners of pendant and to high points of bezel reeding; tight slightly brassy bow, crown shows light wear; good glass crystal.

Lot#	Condition
407	Mvt: GRO after a sluggish start, excellent cosmetic mvt condition overall, some micro-fine scratches, some surface dirtiness; dial with some faint hls, edge flake near 3; excellent hands; case shows light wear, no dents or dings, reduced engraving detail; tight bow; crown shows medium wear; good glass crystal.
408	Mvt: GRO, excellent cosmetic mvt condition overall, some fine scratches and small mild surface spots; dial flawless in visible portion; excellent hands; case shows hardly any wear, slight ripple of reflection toward lower right of rear caused by a very shallow slight dent, superb engraving detail; tight bow, crown shows little wear; good glass crystal. Chain and fob are excellent showing light wear overall.
409	Mvt: GRO, fine cosmetic mvt condition overall, plates with darkened tone, some fine scratches and spots; dial with fracture at bottom of seconds-register with sliver of material crudely pasted in place, small chip at right side of seconds-register, scattered hls including a complex cluster between 8 and 9; excellent hands, hour with mild bend; case shows ample wear, bow impressions to upper rear, no engine turning detail remaining; tight bow; good glass crystal.
410	Mvt: GRO after a twist to start, excellent cosmetic mvt condition overall, plates with ultra-fine scratch striations in areas likely from light wiping, some oxide in areas of steelwork; dial with light hl at perimeter between 2 and 3, light hls below and above seconds-register, light branched hl between 8 and 9; excellent hands with some mild spots of oxide and finish loss; case is believed to be likely original to this mvt which is currently secured with a single case screw and a locating pin at the 11 position. There is an empty case screw position on the mvt near the case hinge; the mvt surface shows a witness mark from having previously held a case screw at this position while the adjacent case areas show a possible corresponding witness mark to a case screw of a small scratch along the inner cuvette surface adjacent hinge. Mvt is machined for a locating pin at the 8:45 position but no pin is present, and the case is also machined to accept a locating pin at the same position, case shows very light wear, small nick on band at 6:45, no dents or dings, good engine turning detail around central rear progressing to reduction at shoulder; bow pivots semi-freely; good glass crystal.
411	Mvt: GRO, excellent cosmetic mvt condition overall, small spot below s#, some darkening at edge of train bridge at "Slow" marking; dial with patched chipping to lower left rim of seconds-register, fractures to left side of seconds-register, hls near 5; near mint hour and seconds-hand, minute with some bends; case shows ample wear, front with some dings; bow pivots semi-freely, push is a brass replacement showing medium wear; glass crystal is small turning freely within bezel.
412	Mvt: GRO, excellent cosmetic mvt condition overall, some scattered spots, some oxide to areas of steelwork; dial very nearly flawless with few minuscule hls along outer edge outside minute chapter; excellent hands; case push is currently opening both front and rear simultaneously when depressed, case shows ample wear, ding to right side of front, ding to lower left of rear, small dent to upper right of cuvette, engine turning detail is largely lost with only some portions remaining lightly evident; replacement bow is thinned at top and pivots freely with substantial play within much larger pendant-sockets; good glass crystal.
413	Mvt: GRO, fine cosmetic mvt condition overall, darkened gilt plates with uneven tone, spot at regulator index; dial with fracture, flaking and some discoloration within seconds-register, few hls in main body of dial; excellent hands; case shows ample wear, dents on band at 5 and 11, some dings elsewhere on band, worn scratch causing slight indentation to rear just above center, engine turning detail is virtually entirely lost with only the faintest remnant remaining evident at a small portion of the rear; tight bow. push shows medium wear; good glass crystal.
414	Mvt: GRO, fine cosmetic mvt condition overall, gilt plates with a darkened tone, scattered spots of oil haze on plates, some specks of oxide on steelwork; dial has two short hls below seconds-register, very faint hl above seconds-register, two small flakes at seconds-register hole; fine hands, hour has slight crimp, minute has oxide at tip and some loss of bluing on stem; case has very weak lift spring that is not currently secured and falls out at times, case shows ample wear to surfaces that are exposed when in OF orientation, lid that is only exposed when in HC orientation shows little wear evidencing that this watch spent the vast majority of its working history carried as an OF, some fine scratches on exterior lid, no dents or dings, engine turning detail is largely lost from surfaces exposed in OF orientation with only some portions remaining lightly evident, lid that is only exposed when in HC orientation retains good overall engine turning detail with some reduction and mild loss at shoulder, hinge for exterior lid missing both end caps; replacement bow pivots freely and with some play within pendant sockets; good glass crystal.
415	Mvt: GRO, excellent cosmetic mvt condition overall, plates with strong overall gilt tone, some mild small spots, barrel with somewhat darkened gilt tone, some oxide to steelwork; dial with two hls at edge outside 7; fine hands, spades of hour and minute with some oxide; case shows light wear, some slight dings which are mainly evident only to inner lid surfaces as mild ripples of reflection. good engraving detail: tight bow: good glass crystal.
416	Mvt: GRO after a sluggish start, fine-plus cosmetic mvt condition overall, some fine scratches and small abrasions, oxide spots to steelwork of winding and setting escutcheons; dial with patched chipping below seconds-register, some hls surrounding seconds-register; excellent hands, hour and minute are blue, seconds-hand is plum colored; case shows ample wear, mild dent to band near 10, mild ding to upper left of front evident mainly to only interior of lid, engine turning detail is fully lost; tight bow, push shows ample wear; clean plastic crystal.

Lot#	Condition
417	Mvt: GRO, fine cosmetic mvt condition overall, gilt plates with uneven tone and some ultra-fine scratch striations likely caused by wiping, spot near third wheel jewel; dial is flawless in visible portion; near mint hands; case shows ample wear, two dents just right of center rear, small dent at right edge of rear, no engine turning detail remaining; tight bow, replacement push shows little wear; good glass crystal.
418	Mvt: GRO after a twist to start, excellent cosmetic mvt condition overall, some fine and micro-fine scratches, small marring to loop of regulator spring, small marring tight around stem detent screw; dial with outer chapter hls at 5 and 7; fine hands; case shows very light wear, few long fine scratches on cuvette, some mild dents and dings to band, small soft dent to lower front perimeter, engine turning detail reduced at shoulders; tight bow, crown shows medium wear; glass crystal with very small edge flake at upper right.
419	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous surfaces with some mild micro-fine scratches; near flawless dial with just some mild micro-fine scratches and some scattered areas of wispy glaze clouding that are mainly visible when light reflects off surface at certain lighting angles; near mint hands; case shows little wear, no dents or dings, good engraving detail; tight bow thinned somewhat at top, crown shows little wear; good glass crystal.
420	Mvt: GRO, excellent-plus cosmetic mvt condition overall, some scattered micro-fine scratches; dial with faint hl above seconds-register, edge flake at 9, small edge flake under bezel at 8, minuscule edge flake under bezel at 1; near mint hands, hour and minute hands have few tiny specks of bluing loss; case shows hardly any wear, small ding or nick to bottom shoulder of front, no dents, superb engraving and engine turning detail, case front opening very slightly wide of 90 degrees; tight bow, crown shows very little wear; good glass crystal.
421	Mvt: GRO, excellent cosmetic mvt condition overall, bright lustrous surfaces, some fine scratches on barrel bridge in area of case screw; dial with two hls in center section, hls in outer chapter along edge between 3 and 4, fine scratches in seconds-register; excellent hands; case front opens somewhat short of 90 degrees, case rear lid is missing its Jurgensen-style lip, case shows very little wear, mild soft dent at upper right of rear which is more evident to inner surface of lid, excellent engraving detail; tight bow, crown shows light wear; good glass crystal.
422	Mvt: GRO, excellent-plus cosmetic mvt condition overall, few small fine scratches, some mild toning of plates; dial with outer chapter hl at 9; excellent mismatched hands, hour is blue, minute and seconds-hand are plum colored; case shows hardly any wear, no dents or dings, superb crisp engraving detail; tight bow, crown shows light wear; good glass crystal.
423	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous surfaces with few small fine and micro-fine scratches, few tiny specks of oxide on regulator assembly; flawless dial apart from a very faint shadow of Canadian market 13 to 24 hour numerals that were presumably overpainted at one time, these are visible mainly in certain lighting angles when the light reflects off the dial glaze but were likely cleaned away leaving only this faint trace remaining within the dial's surface glaze; fair hour and minute hands with areas of finish loss and some oxide, fine seconds-hand is a replacement of a bit lighter gauge than the original; case shows little wear, some short fine scratches and mild abrasions to rear, no dents or dings, very thin slivers of wear to brass to lower portion of band, small bits of wear to brass on pendant; brassy bow pivots semi-freely, replacement crown is a bit smaller than the original and shows light wear; good glass crystal.
424	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous plates with few fine scratches, few specks of oxide on regulator spring and center of winding wheel; dial has small edge chip at 6, few minuscule scattered surface and edge nicks; excellent hands; case shows very light wear, few fine scratches and a small nick on bezel, file mark on band at 3:30 and few small nicks elsewhere on band; tight bow, crown shows light wear; good glass crystal.
425	Mvt: GRO, near mint cosmetic mvt condition overall, some micro-fine scratches; dial has short hl below seconds-register near 6, micro-fine scratch or extremely faint hl in outer chapter at 1; excellent-plus hands, minute hand with speck of oxide on tip, hour hand with small bit of bluing loss; case shows little wear, scattered fine scratches on rear, ding on band at 9, two minuscule nicks to rear, excellent engraving detail; rigid bow with excellent engraving detail, crown shows very little wear; good glass crystal; outer box shows medium wear, some tattering and areas of separation at edges, writing in ink on reverse, corners are taped on inside, labels still present and legible, front label with no s# marking and with some paper loss in the area this is typically marked, few tears, inner aluminum case shows light wear, few dings, a cloth liner has been added.
426	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous surfaces, some oxide to rim of winding wheel; dial has two faint outer chapter hls between 10 and 11, very faint hl below seconds-register near 6, small edge chip under bezel at 9; excellent-plus hands; case shows almost no wear, no dents or dings, superb engraving detail; tight bow, crown shows very little wear; good glass crystal.
427	Mvt: GRO, excellent cosmetic mvt condition overall, tiny spot of finish wear near escape jewel setting, few minuscule nicks near balance jewel setting; dial has some faint hls in outer chapter and seconds-register, minuscule flake to upper rim of center hole, reverse of dial has been inspected and has correct feet positions for this hunting case model mvt; fine hands, minute and seconds-hand have some fading and minor oxide; case shows very light wear, scattered fine scratches on front, scattered tiny nicks and dings along band, engraving and engine turning detail with very mild reduction, few tiny spots of wear to brass on band near hinges, spots of brass on cuvette; tight bow, crown shows light wear; good glass crystal.

Lot#	Condition
428	Mvt: GRO, excellent-plus cosmetic mvt condition overall, good gold tone to plates, some spots of oxide to regulator spring; dial with some faint outer chapter hls, very faint hl above seconds-register, tiny spot of printing incompleteness to lower part of 3, fine scratch in upper part of seconds-register; excellent hands; case shows very light wear, no dents or dings, excellent engraving detail, engine turning detail shows mild reduction at shoulders on rear and medium overall reduction on bezel with some areas of full loss, few thin lines of wear to brass on bezel; tight bow, crown shows light wear; good glass crystal.
429	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous surfaces, some small bits of oxide to regulator spring and larger winding wheel; dial with some scattered hls, two minuscule flakes to rim of seconds-register hole, reverse of dial has been inspected and does have correct original dial feet positions for this Model 8 mvt; fine-plus hands, minute is missing a small bit of its tip; case shows hardly any wear, profuse scratching inside front lid, some marring to lip of rear from opening with a tool, few tiny nicks on pendant, no dents, excellent engraving and engine turning detail, additional setting lever slot has been added; bow pivots semi-freely, crown shows little wear; plastic crystal with some internal circular rub marks caused by hands.
430	Mvt: GRO, excellent-plus cosmetic mvt condition overall, bright lustrous surfaces, some oxide to perimeter of larger winding wheel and in small bits on regulator assembly; excellent dial with very faint outer chapter hl at 3:30; fine hands appear to have been re-painted; case shows little wear, scattered tiny nicks along band, no dents, engraving detail shows only a very minor reduction; tight bow, crown shows little wear; glass crystal with a scuff and with scattered scratches.
431	Mvt: GRO, excellent cosmetic mvt condition overall, few fine and micro-fine scratches, mild small spot at perimeter of larger winding wheel; very near flawless dial has slight bend at edge under bezel near 11; near mint hands, seconds-hand has minor oxide; case shows little wear, some fine scratches on rear shoulder and cuvette, no dents or dings, excellent engraving detail; bow pivots freely, crown shows little wear; plastic crystal with a scratch at lower left.
432	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous surfaces, few minuscule specks of oxide on smaller winding wheel and regulator spring; flawless dial; near mint hands; case shows very light wear, some short fine scratches on band, some fine scratches and mild abrasions to rear, no dents or dings, excellent engraving detail; tight bow, crown shows very little wear; good glass crystal; box shows medium wear, losses of leather around edges and corners, upper lid has been re-glued and is seated a bit below its original level, label with some losses at its edges; tag has been bent and has two tears secured by tape but is fully legible.
433	Mvt: NR, likely broken balance staff, missing center wheel arbor, missing steel escutcheon and square above center wheel arbor, missing screw which secures hairspring stud, broken fourth wheel arbor, missing a jewel setting screw on lever, one jewel setting screw missing half its head on escape wheel jewel setting, fully wound, setting mechanism untested, overhaul needed, a partial disassembly reveals matching s#6 on underside of balance cock and underside of balance wheel spar (arm), no visible s# to visible portion of pillar plate when dial was removed, fine cosmetic mvt condition overall, spot on plate near fourth wheel jewel setting, gilt plates with darkened tone, some scattered fine scratches and spots; dial with several chips in center section bordering the seconds-register, some scattered edge flakes and small chips, some scattered hls; hands are missing, seconds-hand post (fourth wheel arbor) is broken.
434	Mvt: NR, missing case stem and when mvt is removed from case and tested with a stem it will tick in dial down position with some error in the flat of its balance motion but when turned dial up it usually stops soon after suggesting a likely balance staff and/or balance jewel issue, overhaul needed, excellent cosmetic mvt condition overall, fine scratch on barrel bridge, few mild lesser fine and micro-fine scratches elsewhere, oxide to regulator assembly; dial with hl from 9:30 continuing through center to 3:30, hl from center into seconds-register, few minuscule edge flakes under bezel near 4 and 6; fine hour and seconds-hand, minute hand with finish loss; case shows hardly any wear, no dents or dings, excellent engraving and engine turning detail, small spot of wear to brass within upper part of inner rear lid; tight bow with slightly brassy underside, brass crown shows light wear, stem is missing; good glass crystal.
435	Mvt: NR, fully wound, balance is gummy, overhaul needed, excellent cosmetic mvt condition overall, missing regulator spring, few spots and fine scratches on plates, few minuscule specks of oxide on regulator; dial has hl from 11 to center, hl from center into seconds-register, very faint hl near 3, some fine scratches at signature, some small flakes at center hole; fine hands have oxide; case shows little wear, few fine scratches on front and rear, scratches on cuvette, few small darkened areas on front and rear, no dents or dings, numerous small nicks on band, excellent engraving detail, brassy bezel; tight bow with slightly brassy underside, crown shows little wear; good glass crystal.
436	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous surfaces, oxide to regulator assembly, fine scratch at perimeter of barrel bridge adjacent larger winding wheel, larger winding wheel is a bit different style than we have typically seen with this grade; dial with some faint hls in center section and below seconds-register, surface pit under bezel between 4 and 5; excellent hands; case shows almost no wear, no exterior dents or dings, engraving to thin gauge cuvette has caused rippling of its surface and trace-through of the engraving to the inner surface of the cuvette, superb crisp exterior engraving detail; tight bow, crown shows very little wear; good glass crystal.

Lot#	Condition
437	Mvt: GRO, excellent-plus cosmetic mvt condition overall, bright lustrous surfaces, missing one center jewel setting screw, few specks of oxide to steelwork, short scratch at perimeter of barrel bridge adjacent larger winding wheel, few mild fine and micro-fine scratches; dial with scattered outer chapter hls, scattered small patched edge chips under bezel; excellent hands; case shows hardly any wear, two short scratches on band, no dents or dings, superb crisp engraving detail; tight bow, crown shows little wear; good glass crystal.
438	Mvt: GRO, very near mint cosmetic mvt condition overall, superb lustrous surfaces with very few minuscule micro-fine scratches, few minuscule nicks to perimeter edge of balance cock foot; dial with two faint outer chapter hls near 8, few extremely minuscule nicks to perimeter of center section between 7 and 9, extremely minuscule edge nick under bezel at 6:30; fine hands with some spots of oxide; case shows very light wear, few fine scratches on rear, no dents or dings, excellent engraving detail, small portions of wear to brass to areas at perimeter of stag; tight bow, crown shows little wear; good thick glass crystal with mild fine scratch near center.
439	Mvt: GRO, good repeat function and tone when hands are set between 1:00 and 11:59 but watch does not strike either hour or five-minute tones when hands are set between 12:00 and 12:59, overhaul needed, fine-plus cosmetic mvt condition overall, some fine scratches and small spots; near flawless dial with minuscule flake at lower left perimeter of seconds-register; excellent hands, seconds-hand with some oxide; case shows very little wear, no dents or dings; tight bow, crown shows light wear; glass crystal with few small fine scratches.
440	Mvt: NR, tension immediately releases upon winding suggesting a likely click or click spring issue, balance swings freely and will tick if crown is prevented from releasing backward while winding, overhaul needed, fine-plus cosmetic mvt condition overall, small marring around escape jewel setting, some mild spots and micro-fine scratches to main plate; dial with cluster of hls near 4, two hls at 9:30, small hl above seconds-register; fine hands; case reversible function has been negated by conversion of this watch to stemwinding as the case stem and the mvt setting lever impede the rotation of the central body and as there is no placement for the case stem if OF orientation were attempted, case shows ample wear to its spring loaded hunting lid, light wear to its other side, this disparity in wear indicative that the watch likely saw the majority of its working life in OF form prior to its conversion to stemwinding after which it could only be used in HC form, some dings and mild shallow dents, engine turning detail to rear with mild overall reduction and some loss at shoulder; tight bow, crown shows ample wear; good glass crystal.
441	Mvt: GRO, excellent cosmetic mvt condition overall, scratch above plate screw adjacent serial number, some scattered fine or micro-fine scratches, small abrasion above "Mass.," few specks of oxide on winding wheels and regulator; dial has faint hl between 3 and 4, faint short hl below seconds-register near 6, minuscule edge flake under bezel at 6; near mint hands, minute hand has tiny bit of oxide on tip; case shows very light wear, no dents or dings, engine turning detail with reduction at shoulders; tight bow, crown shows light wear; good glass crystals.
442	Mvt: GRO, virtually mint cosmetic mvt condition overall, superb bright lustrous surfaces are very near pristine; dial with very faint hl below seconds-register at 6:30, few very small fine scratches near center; near mint hands; case shows very little wear, ding on band at 2, nicks on band at 4 and 6, nick on bezel at 4, two dings to rear visible mainly only to inner surface of lid, ding on cuvette, excellent engraving detail; tight bow, crown shows very little wear; good glass crystal.
443	Mvt: NR, fully wound and will tick briefly with a twist or will tick weakly continuously with additional pressure given at barrel arbor, overhaul needed, excellent cosmetic mvt condition overall, strong overall gilt tone with some mild clouding in a few areas, barrel bridge with some slight ultra-fine scratch striations; excellent dial with only a small scratch in upper part of seconds-register; excellent hour and minute hands, seconds-hand with some areas having surface rust; case shows medium wear, an attractive mild patina, small ding on band at bottom, few small nicks to lids, reduced engraving detail, inner rear lid with wear to hallmark, inner cuvette with a snailed finish that is differs from the plain finish typically seen, mvt with small bit of play within case in spite of case screw seemingly tight; bow pivots freely; good glass crystal.
444	Mvt: GRO, excellent-plus cosmetic mvt condition overall, bright lustrous plates with some mild micro-fine scratches, small marring of escape wheel jewel setting; dial has outer chapter hl at 8, very small hl along edge near 11, absolutely minuscule edge nick under bezel at 3:30; excellent hands, seconds-hand has minor oxide; case shows hardly any wear, no dents or dings, minuscule nick on band at 3:30, superb engraving detail; tight bow with some wear to brass, crown shows little wear; good glass crystal.
445	Mvt: GRO, excellent cosmetic mvt condition overall, numerous fine and micro-fine scratches on main plate with the most visible of these between the case screw position and the s#, few specks of oxide on winding wheels and regulator; dial has two short hls at 1, minuscule pinpoint surface nick at 12:30, small edge chip under bezel at setting lever, very short fracture along edge under bezel near 4; excellent minute and seconds-hand, hour hand with finish loss and fine scratch striations to its spade; case shows very light wear, scattered tiny nicks on rear, excellent engraving detail; tight bow, crown shows light wear; good glass crystal.
446	Mvt: GRO, fine cosmetic mvt condition overall, scratches and profuse fine scratches around main plate case screw area, some fine and micro-fine scratches elsewhere to plates, small area of marring around balance cock screw; dial has two faint hls below seconds-register, faint hl at 7:30, group of very faint hls at edge near 8, group of small hls at edge between 5 and 6; excellent hands; case shows very little wear, no dents or dings, excellent engraving and engine turning detail showing very little reduction; tight bow, crown shows little wear; good glass crystal.

Lot#	Condition
447	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous surfaces with few minimal micro-fine scratches, regulator spring with some very small specks of oxide; excellent dial with only a faint hl below seconds-register near 6; case shows little wear, mild ding on band at 5 and few very mild dings elsewhere on band, no dents; tight bow, crown shows hardly any wear; good glass crystal.
448	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous surfaces, some specks of oxide to winding wheels; dial with edge chip at 4, hls between 1 and 4, hl at 11:30; excellent hands; case shows light wear, no dents or dings, engine turning detail greatly reduced at shoulder; tight bow, crown shows ample wear with ridge break; glass crystal with scattered scratches; box shows minor wear and typical mild exterior scratches and marks; certificate is in good condition with some mild creases at its perimeter tucked into upper box lid.
449	Mvt: GRO, good winding indicator function, near mint cosmetic mvt condition overall, bright lustrous surfaces, few minimal micro-fine scratches, very small spot of finish loss to barrel bridge adjacent larger winding wheel near click; dial with light outer chapter hl above indicator-register near 12, light outer chapter hl below seconds-register at 6:30, extremely faint hl above seconds-register; case shows hardly any wear, no dents or dings, excellent engraving detail, enameling detail fully intact, additional lever set slot at 1; tight bow, crown shows very little wear; good glass crystal.
450	Mvt: GRO, good chronograph function, fine-plus cosmetic mvt condition overall, some cloudiness and few fine scratches to plates, specks of oxide on steelwork; dial has hls between 3 and 5, small fracture with very small surface flake near edge at 4, two edge flakes under bezel at 6; excellent hands; case shows little wear, few dings and nicks to front, very mild dent near center rear, shallow dent with few tiny nicks on band near 12, excellent engraving detail; tight bow is thinning slightly at top, crown shows medium wear with ridge break as well as loss to its jacket (outer layer) in two areas; good glass crystal.
451	Mvt: GRO, good winding indicator function, excellent cosmetic mvt condition overall, few specks of oxide on larger winding wheel and regulator, scattered micro-fine scratches on plates, some ultra-fine scratch striations to larger winding wheel; dial with outer chapter hl at 12:30; excellent hands, seconds-hand with oxide, wind indicator hand is a bit different shade of blue; case shows very little wear, no dents or dings, excellent engraving detail with only mild reduction at high point of shoulder, few tiny spots of wear to brass on pendant; tight bow, crown shows light wear; good glass crystal.
452	Mvt: GRO, excellent-plus cosmetic mvt condition overall, light oxide on regulator assembly, some haze to plates; dial with hairlines at 5 and 7, scratch above seconds-register and near 10; fine mismatched hands, minute and seconds-hand with light oxide; case shows little wear, light dings on front and rear, excellent engraving detail; tight bow, crown shows light wear with ridge break; good glass crystal.
453	CONDITION: Virtually flawless with only a few exceedingly minuscule flakes of the center hole rim which will easily be covered by hands if dial is used.
454	Flawless dial.
455	Flawless dial.
456	Excellent dial with some very light outer chapter hls between 7 and 8, some mild beveling of outer edge near 7 that appears to be as made.
457	Near flawless dial with only a mild rub around the seconds-register hole and a minuscule edge flake near 11:45.
458	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous plates with few fine and micro-fine scratches, missing case screw; near flawless dial has only few micro-fine surface scratches; excellent hands with some small bits of finish loss.
459	Mvt: Starts running upon winding but with likely broken mainspring as an audible slip is heard after every several turns of the stem, overhaul needed, near mint cosmetic mvt condition overall, few tiny specks of oxide on winding wheels; dial with hl at 4, hl at 11:30, very faint hl at 6:30; excellent hands have very minor oxide.
460	Mvt: NR, broken mainspring, balance is gummy, hairspring looks out of shape, overhaul needed, fine-plus cosmetic mvt condition overall, plates with some scattered fine scratches and spotting, oxide on regulator, mismatched non-gilt screw on balance jewel setting; dial with small fracture to lower left corner of center section, two outer chapter hls at 8, hl in seconds-register, short faint hls at 5 and 6. scattered tiny edge flakes: fine hands with areas of oxide.
461	Mvt: GRO, excellent cosmetic mvt condition overall, very light oxide to steelwork, light discoloration to plates, light wear to brass on high edge of rotor; poorly refinished dial; excellent gold alpha hands; polished case shows light wear, fluted bezel is worn and polished smooth, rounded lugs, several light dings on the caseback from a case wrench; original signed Super Oyster crown shows very little wear. good threads: good crystal: resealed for auction.
462	Mvt: GRO, excellent-plus cosmetic mvt condition overall, no oxide, very light tarnish to plates and rotor; excellent dial with light surface spotting; excellent steel dauphine hands; very lightly polished case shows very little wear, no dents or dings; original signed crown shows very little wear, good threads; good crystal; resealed for auction; outer box shows light wear with wear at corners, several marks and writing on boxes as well as aged yellow tape on original paper label, inner box shows very little wear.
463	Mvt: GRO, mint cosmetic mvt condition overall, no oxide; near flawless dial; mint hands; very lightly polished case shows hardly any wear, no dents or dings; bracelet shows very little wear, very light stretch; original signed crown shows very little wear, good threads; good crystal; resealed for auction; box shows little wear with most wear on high corners.

Lot#	Condition
464	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide on rotor; excellent dial shows light surface spotting; excellent hands show light spotting; lightly polished original head shows light wear, no dents or dings; bracelet shows light wear, light stretch; original signed crown shows very little wear, good threads; good crystal; resealed for auction.
465	Mvt: GRO, excellent-plus cosmetic mvt condition overall, no oxide, light spotting to rotor and plates; excellent dial with light discoloration and surface spotting; lightly spotted gold hands with a blued steel sweep; polished case shows light wear, worn inner lugs from someone using a bracelet for many years, light dings on the backs of the lugs as well as next to the crown; original signed crown shows very little wear, good threads; good crystal; resealed for auction.
466	Mvt: GRO, mint cosmetic mvt condition overall, no oxide; flawless dial; mint hands; unpolished case shows hardly any wear, no dents or dings; unpolished bracelet shows hardly any wear, still retains some of its original factory plastic, no stretch; original signed crown shows no wear, good threads; good crystal; resealed for auction. Inner and outer box show hardly any wear.
467	Mvt: GRO, fine-plus cosmetic mvt condition overall, very light oxide to steelwork, light wear to brass on rotor and plates; excellent dial shows light surface spotting; excellent gold alpha hands; polished case shows light wear, light dings on the backs of the lugs as well as wear to the caseback knurls; original signed crown shows very little wear, good threads; good crystal; resealed for auction.
468	Mvt: GRO, excellent cosmetic mvt condition overall, light oxide, light wear to brass on plates and rotor; excellent-plus dial, however the edge is running under the bezel; near mint gold alpha hands; polished case shows light wear, light dings on the backs of the lugs from a bracelet as well as light dings on the tops of the lugs and along the bezel; original signed crown shows very little wear. good threads: good crystal: resealed for auction.
469	Mvt: GRO, excellent cosmetic mvt condition overall, very light oxide to steelwork; excellent-plus dial; near mint hands; unpolished case shows hardly any wear, no dents or dings; original signed crown shows very little wear; good crystal; resealed for auction; inner box shows light wear with a light tear on the back bottom corner as well as cracking to the existing finish.
470	Mvt: GRO, near flawless cosmetic mvt condition overall, one small spot of oxide on the crown wheel; excellent dial with light spotting along perimeter; excellent hands; unpolished case shows very little wear, hallmarks are crisp in appearance, still retains most of its original factory finishing, no dents or dings; original signed crown shows no wear; good crystal; resealed for auction.
471	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide on rotor, no oxide elsewhere; near flawless dial; near mint hands; lightly polished case shows hardly any wear, no dents or dings; bracelet shows light wear, light stretch; original signed crown shows hardly any wear. good threads; good crystal; resealed for auction.
472	Mvt: GRO, fine cosmetic mvt condition overall, ample oxide on rotor, plates worn to brass in almost all areas; excellently refinished dial; excellent gold hands; lightly polished case shows very little wear, heavy polishing to caseback most likely to remove a presentation or initials, no dents or dings; original signed crown shows very little wear, good threads; good crystal; resealed for auction.
473	Mvt: GRO, mint cosmetic mvt condition overall, mirror finish on polished chamfers of the main plates, no oxide; flawless dial; mint hands; unpolished original head shows almost no wear, small serial number hand etched onto the back of the bottom right lug, no dents or dings; original Rolex signed crown shows hardly any wear, good threads; mint crystal; resealed for auction; inner and outer boxes show very little wear.
474	Mvt: GRO, fine-plus cosmetic mvt condition overall, light tarnish and discoloration to the rotor, light discoloration and wear to brass on plates; excellent dial shows several radium burns from the hands as well as light surface spotting; excellent radium hands; very lightly polished case shows very little wear, part of the original factory finish is still visible, no dents or dings; original signed non-screw down Oyster crown shows very little wear, good threads; good crystal; resealed for auction.
475	Mvt: GRO, mint cosmetic mvt condition overall, no oxide on rotor; flawless dial; mint hands; unpolished case shows hardly any wear, no dents or dings; polished bracelet shows light wear, light stretch; original signed crown shows very little wear, good threads; good crystal; resealed for auction; inner and outer box shows very little wear.
476	Mvt: GRO, excellent-plus cosmetic mvt condition overall, no oxide on rotor, very light spotting to edge of rotor; excellent dial with light surface spotting; excellent gold dauphine hands; lightly polished case shows very little wear, no dents or dings; bracelet shows very light wear, light stretch; original signed crown shows very little wear, good threads; good crystal; resealed for auction; box shows light wear indicative of an old box as well as a label that had been stuck on it over time and removed poorly.
477	Mvt: GRO, fresh battery installed 3/6/19, near mint cosmetic mvt condition overall, no oxide; excellent-plus dial with light surface spotting; excellent gold hands; polished case shows light wear, light dings on the case sides; bracelet shows light wear, light stretch; original signed crown shows very little wear, good threads; good crystal; resealed for auction.
478	Mvt: NR, near mint cosmetic mvt condition overall, no oxide; dial with light radium burns from the hands; blued steel radium hands with light lume loss; lightly polished case shows hardly any wear, no dents or dings; original signed crown shows hardly any wear. good threads: good crystal: resealed for auction; box shows hardly any wear.

Lot#	Condition
479	Mvt: GRO, excellent cosmetic mvt condition overall, no oxide, light staining on rotor; near flawless dial with very light surface spotting not visible unless highly scrutinized; excellent gold hands; polished case shows little wear, light dings on the backs of the lugs; refinished bracelet shows light wear, light stretch; original signed crown shows little wear, good threads; good crystal; resealed for auction: inner and outer boxes show very little wear.
480	Mvt: GRO, fine cosmetic mvt condition overall, light oxide to steelwork, rotor mechanism worn to brass with the exception of the edge of the rotor; excellent dial with light surface spotting; excellent silver dauphine hands; polished case shows little wear, no dents or dings; original signed crown shows very little wear, good threads; good crystal; resealed for auction.
481	Mvt: GRO, excellent cosmetic mvt condition overall; finely aged dial shows ample surface spotting; excellent alpha hands; polished case shows little wear, no dents or dings; polished bracelet shows very little wear, excellent springs, hardly any stretch; signed replacement crown shows very little wear, good threads; good crystal; resealed for auction.
482	Mvt: GRO, fine cosmetic mvt condition overall, light oxide on rotor, light oxide to steelwork, discoloration to plates as well as wear to brass; excellent faded dial with several light surface blemishes; excellent radium dauphine hands; polished case shows little wear, no dents or dings; bracelet shows hardly any wear, no stretch; original signed crown shows very little wear, good threads; good crystal.
483	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide on rotor, no oxide elsewhere; spotted dial made visible by sunlight or when highly scrutinized; excellent hands; very lightly polished case shows very little wear, light dings on the backs of the lugs from a bracelet; original signed crown shows very little wear, good threads; good crystal; resealed for auction.
484	Mvt: GRO, excellent-plus cosmetic mvt condition overall, no oxide, light tarnish to plates; dial has a slight wavy appearance; lightly oxidized hands; polished case shows little wear, no dents or dings; original signed crown shows very little wear, good threads; good crystal; resealed for auction.
485	Mvt: GRO, excellent cosmetic mvt condition overall, no oxide, light tarnish and wear to brass on plates and rotor; excellent dial with only light surface spotting; excellent alpha hands; lightly polished case shows very little wear, no dents or dings; signed replacement crown shows very little wear, good threads; good crystal; resealed for auction.
486	Mvt: GRO, excellent cosmetic mvt condition overall, light oxide to steelwork, light wear to brass on rotor and plates; dial has lost its surface lacquer and appears matte in appearance, ample spotting with several light paint flecks; fine gold dauphine hands; polished case shows light wear, several light dings to the backs of the lugs; original signed crown shows very little wear, good threads; good crystal; resealed for auction.

523	Mvt: GRO, retrograde seconds functions properly, mint cosmetic mvt condition overall, no oxide; flawless dial; mint gold hands; unpolished case shows hardly any wear, no dents or dings; original signed crown shows hardly any wear; good sapphire crystal.
524	Mvt: GRO, reserve indicator functions correctly, mint cosmetic mvt condition overall, no oxide; flawless dial; mint gold hands; unpolished case shows hardly any wear, no dents or dings; original signed crown shows hardly any wear; good sapphire crystals; inner and outer boxes show very little wear.
525	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide; near flawless dial; mint gold hands; unpolished case shows very little wear, no dents or dings; original signed crown shows very little wear; good sapphire crystal.
526	Mvt: GRO, fresh battery installed 11/7/2018, mint cosmetic mvt condition overall, no oxide; flawless dial; mint hands; unpolished case shows hardly any wear, no dents or dings; original signed crown shows hardly any wear; good sapphire crystals.
527	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide; near flawless dial; mint gold hands; unpolished case shows hardly any wear, no dents or dings; original signed crown shows very little wear; good sapphire crystals; outer box shows light scuffing, inner box shows hardly any wear.
528	Mvt: GRO, near mint cosmetic mvt condition overall, no oxide; flawless gold dial; mint gold dauphine hands; unpolished case shows hardly any wear, no dents or dings; original signed crown shows hardly any wear; good sapphire crystal.
529	Mvt: GRO, reserve indicator functions correctly, excellent cosmetic mvt condition overall, no oxide; near flawless dial; near mint hands; unpolished case shows hardly any wear, no dents or dings; original signed crown shows hardly any wear; good sapphire crystals.
530	Mvt: GRO, excellent cosmetic mvt condition overall, no oxide; near flawless dial; excellent gold hands; unpolished case shows light wear, no dents or dings; original signed crown shows very little wear; good glass crystal.
531	Mvt: GRO, mint cosmetic mvt condition overall, no oxide; near flawless dial; near mint gilt radium hands; unpolished case shows only light wear from handling in and out of a showcase, no dents or dings; original crown shows no wear; mint plastic crystal. Inner and outer boxes show very little wear.
532	Mvt: GRO, calendar functions advance and set properly, excellent cosmetic mvt condition overall, very light oxide to steelwork; fine dial with ample surface spotting and several light fine scratches; fine gold hands; very lightly polished case shows little wear, extremely strong lug chamfers as well as some of its original factory finishing, no dents or dings; replacement crown shows little wear; good plastic crystal.
533	Mvt: GRO, excellent cosmetic mvt condition overall, very light oxide, light fine scratches to plates and rotor; lightly spotted dial with discolored inner bezel; gold dauphine hands show light spotting; lightly polished case shows very light wear, still retains some of its original factory finishing, light dings on caseback from improper use of a casewrench; original signed crown shows very little wear; good plastic crystal.

Lot#	Condition
534	Mvt: GRO, chronograph and calendar function and reset properly, excellent cosmetic mvt condition overall, very light oxide to steelwork; lightly spotted dial with light surface scratches; excellent-plus hands; lightly polished case shows very little wear, strong lug chamfers and still retains some of its original factory finishing, several light dings on the top of the top right lug; replacement crown shows little wear: good plastic crystal.
535	Multiple lots sold as-is, no further condition report available.
536	Mvt: GRO, good chronograph function, excellent-plus cosmetic mvt condition overall, few small surface spots; dial with very faint hls above seconds-register and below minute-register, minuscule scratch near center of minute-register and at dial perimeter near 12; near mint hands; case shows very light wear, mild dent to band at 9:30, few nicks or small dings to band and rear with some evidence of dent removal to inner rear, good initial engraving detail; tight bow, crown shows very light wear; good glass crystal.
537	Mvt: GRO, winding indicator advances when winding but is currently set out of index, fine-plus cosmetic mvt condition overall, cloudiness and spots of oil haze on plates, few spots of oxide on steelwork; dial has few fine surface scratches, some fading of signature, areas of light edge rub under bezel; fine-plus hands with some oxide; case shows very light wear, fine scratches and few scuffs to rear, dent to rear below first initial, scattered dents to band between 5 and 9, excellent engraving detail; bow pivots freely. crown shows light wear: good glass crystal.
538	Mvt: GRO, excellent cosmetic mvt condition overall, some fine and micro-fine scratches on bright plates; dial has short very faint hl on edge at 3; fine gold hands; original outer case shows light to medium wear, few shallow dents on rear, engraving details with moderate overall reduction which is greatest and high relief portions, metal loss piercing through one arm and the head of figure on left, one knuckle of hinge is a white metal replacement, good function of button latch with brass button; original inner case shows light wear, case must be closed with a firm extra squeeze along left side otherwise bezel does not sit flush at left, circumferential denting around sides, some shallow denting of rear; bow pivots freely with some side-to-side play at pendant; good domed glass bull's-eye crystal with a small finish bubble right of center.
539	Mvt: GRO, good calendar function, fine-plus cosmetic mvt condition overall, ultra-fine scratch striations to plates likely caused by wiping, some typical fine scratches; dial with hl from 1 to 4, small fracture at 11:30, scattered fine scratches, flake surrounding winding aperture; fine hands, metal break along hour; case shows little wear, shallow dent toward upper left of rear, very mild shallow dent to left central perimeter of rear; tight bow; good domed glass crystal.
540	Mvt: GRO, near mint cosmetic mvt condition overall, few minimal micro-fine scratches; fine dial with some surface spotting that is most notable around 10; near mint hands; case shows hardly any wear, some fine and micro-fine scratches to rear, no dents or dings, brushed finish of rear remains intact, enamel detail is fully intact; tight bow, crown shows hardly any wear; clean plastic crystal. Clip and chain show hardly any wear, sapphire is light in appearance and without abrasions to table.
541	Mvt: GRO, excellent cosmetic mvt condition overall, bright lustrous plates with one long fine scratch near s# and few short fine scratches on top plate adjacent balance, some mild ultra-fine scratch striations likely from light wiping; dial has two hls near 4, small edge chip at 6; near mint hands; case was originally gilt but retains only very small hints of exterior gilt finish while interior of case retains its gilt finish, case with weak lift spring inside front lid which opens case lid slightly but lid then moves limply open/closed beyond that point, case shows hardly any wear, front and rear with scattered very small dings, excellent engine turning detail, front hinge missing one end cap; tight bow; good glass crystal.
542	Mvt: GRO, good repeat function and tone, excellent cosmetic mvt condition overall, scratch across repeat bridge, some mild fine and micro-fine scratches elsewhere; near flawless dial with few minuscule nicks to rim of center hole and around affixing screw at 9; excellent hands, minute with some very small bits of oxide and finish loss; case shows light wear, mind ding on band at 5:30, engine turning detail with loss at shoulders; bow pivots semi-freely, push shows light wear; good glass bull's-eye crystal.
543	Mvt: GRO, near mint cosmetic mvt condition overall, excellent gilt tone, few mild micro-fine scratches, some light ultra-fine scratch striations from slight wiping; dial with hl from 12 to center, hl above seconds-register; near mint hands; case shows ample wear to front and rear as engine turning detail has been polished off, band shows very light wear, no dents, few small ripples from very slight lid dings, engine turning detail is fully lost; tight gold-filled replacement bow, crown shows little wear; good glass crystal.
544	Mvt: NR, fusee chain is wrapped loosely around barrel and not attached to fusee, balance appears to be good, near mint cosmetic mvt condition overall, bright lustrous gilt tone, few short scratches at bottom pin; dial has faint hand rubbing line on inner chapter and few edge flakes under bezel with the most notable at 7; fine hands, minute hand is of a darker shade than hour hand, hour hand has a spot of wear through on detail; original outer case appears to have been freshly gold-plated with plating on portion of button latch, case shows light wear, hinge is missing one end cap, one crack on rear near man's foot, no dents or dings, some wear to detail on high points with one tiny hole in man's head, button latch good; original inner case shows little wear, "Le Roy" crudely scratched inside rear, scattered tiny pinprick nicks on rear, one small ding and small dent on rear shoulder; bow pivots freely with play at pendant junction; domed glass crystal has scattered small conchoidal flakes.
545	Mvt: GRO with recent cleaning and overhaul, excellent cosmetic mvt condition overall, some toning to perimeter of plate; flawless dial; excellent hands; case shows little wear, scattered spotting of oxide or surface rust, no dents or dings; tight bow, crown shows very little wear; glass crystal with few small scratches.

Lot#	Condition
546	Mvt: GRO, virtually mint cosmetic mvt condition overall, superb gilt surfaces; flawless dial; near mint hands; case shows hardly any wear, small scratches around rear seam from openings, no dents or dings; tight bow, crown shows hardly any wear; good glass crystal.
547	Mvt: GRO, near mint cosmetic mvt condition overall, slight clouding at a few spots to plate surfaces; flawless dial; near mint hands; case shows hardly any wear, no dents or dings; tight gold bow, crown shows hardly any wear; good glass crystal; box shows very little wear.
548	Mvt: GRO, excellent cosmetic mvt condition overall, some fine and micro-fine scratches, some toning of dial plate surface; dial with few scattered very small spots; excellent hands; case shows hardly any wear, no dents or dings, excellent engraving detail; tight bow, crown shows hardly any wear; good glass crystal.
549	Mvt: GRO, near mint cosmetic mvt condition overall, small amount of mild toning at perimeter of mvt, few micro-fine scratches; near flawless dial with some slight toning at a few of the hour numerals; excellent-plus hands; case shows very little wear, some fine scratches to rear, no dents or dings, excellent engraving detail; tight bow, crown shows hardly any wear; good glass crystal; box shows typical light exterior wear and marks.
550	Mvt: GRO, near mint cosmetic mvt condition overall, few mild small spots of clouding to gilt surfaces; excellent dial with few very small surface spots; excellent-plus hands, light spot of oxide near minute hand tip; case shows virtually no wear, few fine and micro-fine scratches to rear, superb crisp engine turning and engraving detail; tight bow, crown shows virtually no wear; good glass crystal; box shows light wear, faux tortoise shell finish has started to peel back from the sides and is bubbling in most places.
551	Mvt: NR, ticking with escapement noise in some positions but stopping in others, overhaul needed, fine cosmetic mvt condition overall, clouding to nickel tone, some spotting and fine scratches, missing a screw from barrel bridge signature plate; dial with short faint hl above center, minuscule hl above seconds-register, mild fine scratch near 1; excellent hands; case shows light wear, fine scratches and profuse micro-fine scratches, dent to lower front, mild ding to upper front, scattered shallow denting to rear, nick on band at 7:30; tight bow, crown shows little wear; good glass crystal; box with typical mild wear.
552	Mvt: GRO apart from need to wind carefully as crown/stem assembly will pull out of case, good repeat function and tone apart from the omission of a 12th hour strike between 12:00 and 12:59, near mint cosmetic mvt condition overall, few fine and micro-fine scratches; dial with some hls, seconds-register appears re-glued and is seated slightly off level; excellent hands; case shows substantial wear, some dings and evident repairs to band, some dings and mild dents to front and rear, engine turning detail is fully lost and only faint remains of central lid circular detail remains; tight bow, crown shows light wear, crown/stem assembly will pull out of case; front bezel with a plastic crystal glued in place, mvt observation cover is lacking its crystal.
553	Mvt: GRO, fine-plus cosmetic mvt condition overall, some fine and micro-fine scratches, ultra-fine scratch striations likely from a light wiping, small spot on plate adjacent balance bridge; dial with hls near 6 and 7, light hls between 2 and 3, small flaking to rim of winding aperture; excellent hands with some spots of abrasion and finish loss; case shows very little wear, an attractive acquired patina, small scratch to upper rear and few lesser small scratches elsewhere, mild ding on edge near 6; tight bow; domed glass crystal with some scratches; chain is in good overall condition with medium wear and a mild to moderate patina, one link with soldered repair evident.
554	Mvt: GRO, center-seconds barrel is missing stopworks, near mint cosmetic mvt condition overall, bright lustrous gilt surfaces with only very mild clouding immediately around winding arbors; dial with scattered hls; excellent hands; case shows light wear, an attractive acquired patina, dent/ding at the right edge of rear, engraving detail with some reduction; tight bow; good glass crystal.
555	Mvt: GRO, near mint cosmetic mvt condition overall, strong gilt tone, few small fine scratches; dial flawless in visible portion; excellent hands; case shows virtually no wear, mild ding on band at 5, superb crisp engraving detail, flawless enamel detail; tight gold bow, crown shows virtually no wear; good glass crystals.
556	Mvt: Running in some positions and stopping in others, crown/stem assembly pulling out completely from case, overhaul needed, excellent cosmetic mvt condition overall, some oxide to winding wheels, some micro-fine scratches, some mild ultra-fine scratch striations likely from a light wiping; excellent dial, timekeeping portion with some mild spots; excellent hands; case shows very little wear, loss of gilt to vast majority of exterior with only small amounts remaining, gilt is largely intact to interior case surfaces, enamel detail to rear is fully intact with some typical fine scratches; tight bow, crown shows very little wear; glass crystal with some mild fine scratches.
557	Mvt: GRO, excellent cosmetic mvt condition overall, slight cloudiness to plates, one short scratch next to fourth wheel jewel setting; dial has scattered light hls and hand rubbing marks in the seconds-register; fine hands have oxide, minute is slightly bent; case shows little wear, no dents or dings, excellent engine turning detail other than some mild uneven reduction at shoulders, rear hinge is missing an end cap; tight bow; good glass crystal.
558	Mvt: GRO, good musical alarm function, good automation functions, mint cosmetic mvt condition overall; near flawless dial; near mint hands; case shows hardly any wear, no dents or dings, excellent engraving detail; tight bow, crown shows hardly any wear; good plastic crystal; box shows hardly any wear.
559	Mvt: GRO, good musical alarm function, good automation function, mint cosmetic mvt condition overall; near flawless dial; near mint hands; case shows hardly any wear, no dents or dings, excellent engraving detail; tight bow, crown shows hardly any wear; clean plastic crystal; box shows hardly any wear.

Lot#	Condition
560	Mvt: GRO, excellent cosmetic mvt condition overall, bright plates have few short scratches and spot of oil haze; dial has few darkened areas and few fine surface scratches; excellent hands; case shows light wear, scattered fine scratches and small nicks to rear, dent to rear shoulder at left side, very shallow dent to rear shoulder at lower right, hinge missing one end cap; bow pivots freely with substantial play at pendant, crown shows medium wear; good domed glass crystal.
561	Mvt: GRO, excellent cosmetic mvt condition overall, some toning to plates at perimeter, few slight specks of oxide to steelwork; dial with patched chip near 11, chipping around seconds-register hole, small flaking at center hole, light hl at 11; fine hands, light lead solder repair on minute; case back opens wide of 90 degrees, case shows ample wear, numerous scattered dents, greatly reduced engine turning detail with large portion of full loss; tight gold bow, crown shows light wear; good glass crystal.
562	Mvt: Ticking sluggishly after a twist to start and stopping occasionally, overhaul recommended, excellent cosmetic mvt condition overall, some fine and micro-fine scratches; dial with chip between 4 and 5, small hls at edge near 9; fine hands, minute is a lighter style replacement of different color and has some bends; outer case shows light wear, a light patina, dent on bezel at 5, very slight mild dent toward lower left of rear, button latch is non-functional as end of latch is missing; inner case shows light wear, some small nicks around perimeter; bow pivots freely; good glass crystal.
563	Mvt: GRO, fine-plus cosmetic mvt condition overall, abrasion at edge of main plate adjacent balance wheel, some patches of profuse small scratches at edge of main plate in other areas; dial has faint hl at 6 extending through seconds-register; excellent hands; original outer case shows light wear, some scratches to rear, small indent on bezel from bow, dent to left perimeter of rear, nick or small ding on rear shoulder at 3, fairly shallow dent on bezel at 6, good button latch though a bit stiff to open; original inner case shows light wear, circumferential dent, some denting to rear center, nick to rear shoulder at 12; bow pivots freely with side-to-side play along pin; domed glass bull's-eye crystal with scattered very short scratches.
564	Mvt: GRO, excellent cosmetic mvt condition overall, some mild clouding and smudge at areas of plate surface; near flawless dial with superb vibrant color; near mint hands; case shows hardly any wear, two dings or mild small dents at lower rear edge, very slight ding at right rear edge, superb engraving and engine turning detail; tight bow; good bull's-eye glass crystal.
565	Mvt: GRO, fine-plus cosmetic mvt condition overall, light oxide to steelwork, light discoloration to plates; dial has light spotting and numerous glue stains along its perimeter; fine hands that have turned a splotchy purple; case shows light wear, shallow mild dent to lower rear, dent on band at 12:30 and few small mild dings elsewhere on band, engraved initials show light wear; tight bow, crown shows little wear: clean plastic crystal.
566	Mvt: GRO, good calendar function, excellent cosmetic mvt condition overall, some mild fine scratches; front dial with hl and small flake above upper right of seconds-register; rear calendar dial with hl between 15 and 16 dates, two hls at 29 date, very small edge nick under bezel outside 12 date, some mild rub to portions of inner rim of dial; excellent hands; case shows little wear, small but deep ding near left edge of rear, few additional mild dings or slight dents elsewhere along perimeter of lids and band, good overall engine turning detail with mild reduction at shoulders; tight bow, crown shows hardly any wear; good glass crystals though rear with ample glue excess around its seat.
567	Mvt: GRO, good repeat function, some tinniness to first strike of quarter tone, chronograph function in need of overhaul as hand will engage but tends to jump beats for initial 15 seconds and then tends to stop and cause mvt to stop running at approximately 30 seconds after engagement, fine-plus cosmetic mvt condition overall, plates with some scattered fine scratches and spots, some oxide to steelwork; dial flawless in visible portion; excellent hands; case shows very little wear, scattered dings to band, some slight dings to front and rear visible as subtle ripples of reflected light, strong engraving detail to initials; bow pivots freely, crown shows very little wear; clean plastic crystals.
568	Mvt: GRO, excellent cosmetic mvt condition overall, fine scratch at edge of barrel bridge adjacent larger winding wheel, some scattered micro-fine scratches, few tiny spots of oxide on winding wheels; very near flawless dial has only a few specks of paint loss; fine hands have color loss and minor oxide; case shows hardly any wear, few scratches on cuvette, no dents or dings, superb engraving detail; tight bow, crown shows little wear; good glass crystal.
569	Mvt: GRO, repeat function is inconsistent and typically strikes an incorrect number of times, good repeat tone, fine-plus cosmetic mvt condition overall, good gilt tone, some scratches; dial markings with some fading, surface wear and spots; fine hands, minute with small bend; case shows light wear, areas of paint loss, numerous dings to rear, ding on band at 3; bow pivots freely; glass crystal with some scratches; box is in solid condition with some areas of mild leather loss which is primarily around around its edges.
570	Mvt: GRO, excellent-plus cosmetic mvt condition overall, missing regulator spring, few mild micro-fine scratches; dial with a small triangular shaped fracture left of seconds-register hole that is seated off level and that may have be secured with adhesive, several additional radiating hls within seconds-register; fine-plus hands, minute with oxide to its end; case rear and cuvette open a small bit wide of 90 degrees, case shows very little wear, ding on band at 4, few small dings to case rear; tight white metal replacement bow, crown shows ample wear with ridge break; good glass crystal.

Lot#	Condition
571	Mvt: GRO, near mint cosmetic mvt condition overall, few very small micro-fine scratches, slight clouding at a few small areas of gilt surfaces; dial with a scratch and some hls in center section; near mint hands, hour and minute are gold, seconds-hand is plum colored; case shows very little wear, light ding on band at 2, small dent on bezel at 6; tight bow, crown shows very little wear; good glass crystal.
572	Mvt: GRO, fine-plus cosmetic mvt condition overall, numerous fine and micro fine scratches to plates as well as some deeper marks at the signature area adjacent the pillar which is missing its pin; dial with hls at 3 and 9, some scattered small scratches and fine scratches; fine gold hands with light spotting; outer case shows medium wear, tortoise shell discolored in areas of rear, rear with several cracks at perimeter near hinge and button, some small losses at perimeter near button, bezel with some cracks and one small segment lifting, button latch good though case does not seat fully flush when closed; inner case shows medium wear, ding on edge at 6, gilt virtually fully lost to exterior; bow pivots freely with some play at pendant; good domed glass crystal.
573	Mvt: NR, chain is detached from barrel and wrapped around fusee, hook is present, balance will tick with reverse pressure given at fusee, overhaul needed, excellent cosmetic mvt condition overall, strong gilt tone, scattered fine and micro-fine scratches; dial with some hls and surface scratches; excellent hands; outer case shows light wear, an attractive acquired patina, profuse denting to rear with the deepest of these toward the hinge, good button latch function but with metal loss to button; inner case shows light wear, dent to upper right perimeter of rear, scattered additional lesser dents to rear, some circumferential denting, side to side play to mvt hinge, inner soldered repair evident to pendant junction; bow pivots freely; domed glass bull's-eye crystal with some small scratches; chain is in good overall condition with an attractive dark patina, some surface rust on initial two loops.
574	Mvt: GRO after a twist to start, good calendar function, excellent cosmetic mvt condition overall, gilt finish with ultra-fine scratch striations likely from light wiping; dial with numerous hls at perimeter and center, fracture and small edge chip at 5:30; excellent hands; case shows light to medium wear, scratches and fine scratches to cuvette, small but deep pinpoint ding to upper rear, reduced engine turning detail with loss to rear shoulder and much of band; tight bow with some pitting and evidence of repair to its upper portion: good glass crystal.
575	Mvt: NR, fusee chain is present, segment of loose chain below repeater barrel is visible, balance wheel tilted to one side indicating likely bad balance staff, not disassembled to inspect strike mechanism which is presumably a quarter-hour repeater, overhaul needed, fine cosmetic mvt condition overall, fine and micro-fine scratches.
576	Mvt: NR, catgut is broken, balance staff likely broken, overhaul needed, fine cosmetic mvt condition overall, scattered scratches and abrasions.
577	Mvt: NR, fully wound, balance is gummy, when alarm winding arbor is turned power is immediately released through strike train oscillating the alarm hammer, overhaul needed, excellent cosmetic mvt condition overall, fine and micro-fine scratches, dial with many hls, edge chip at 8; fine hand with areas of oxide.
578	Mvt: NR, chain is missing, balance is gummy, hour and minute wheels are missing, overhaul needed, excellent cosmetic mvt condition overall, fine and micro-fine scratches.
579	Mvt: NR, chain is missing, balance is tilted indicative of likely bad balance staff, motion works missing, overhaul needed, fine cosmetic mvt condition overall, scratches and fine scratches; dial loose as one leg is missing a securing taper pin, dial with a chip at 11, scattered scratches, some chipping around center hole.
580	Multiple lots sold as-is, no further condition report available.
581	Multiple lots sold as-is, no further condition report available.
582	Multiple lots sold as-is, no further condition report available.
583	Mvt: NR, chain is present, balance is gummy but possibly intact, repeat mechanism components are present/absent and in condition as pictured, fine-plus cosmetic mvt condition overall, some scratches on main plate; dial is not currently secured with taper pins and lifts freely off mvt, dial with chipping around winding aperture, cluster of hls at 5, scattered scratches.
584	Mvt: NR, broken balance staff, detached chain, overhaul needed, excellent cosmetic mvt condition overall, a three digit number lightly scratched on plate below "A Paris," some scattered fine scratches, excellent overall gilt tone.
585	Mvt: NR and very incomplete, balance and time train are missing as well as numerous other components, present items are as pictured and include plates, cock, barrels, and a few strike wheels.
586	Mvt: NR, chain is detached from fusee and wrapped around barrel with end hook present, balance appears likely intact, fine cosmetic mvt condition overall, plate with fine scratches and areas of abrasion.
587	Mvt: NR, fusee chain is present, balance staff likely bad, broken center arbor is flush with plate surface, missing cannon pinion and hour wheel, alarm components are present/absent as pictured, fine-plus cosmetic mvt condition overall, some scattered scratches and fine scratches.
588	Mvt: NR, fully wound, balance moves semi-freely but escapement not advancing, missing motion train, contrate wheel with visible soldered repair of two teeth, overhaul needed, fine cosmetic mvt condition overall, fine and micro-fine scratches, two of the pillars are missing their decorative silver elements.
589	Mvt: GRO, fine-plus cosmetic mvt condition overall, scattered fine and micro-fine scratches; excellent dial with some small edge scuffs under bezel near 5:30 and near 7, few very slight ultra-fine hairline splits in surface outside upper perimeter of seconds-register; near mint hands, hour and minute are dark colored, seconds-hand is plum colored; case shows no wear, tiny pinpoint nick a bit left of rear center, superb crisp engraving detail; tight bow, crown shows no wear and compass is functioning; box is excellent showing hardly any wear but some staining to its bottom.

Lot#	Condition
590	Mvt: GRO, excellent cosmetic mvt condition overall, scattered fine scratches; very nearly flawless dial; excellent hands; case shows no wear, small divot or ding at bottom of rear within portrait area at Byrd's shoulder; superb crisp engraving detail; tight bow, crown shows no wear; yellowed plastic crystal with few mild fine scratches at center; box is near mint with just some mild marks and slight handling wear; "Directions" paper insert has small loss at one corner.
591	Mvt: GRO, excellent cosmetic mvt condition overall, some fine and micro-fine scratches; excellent dial chapter with some fine and micro-fine scratches; excellent hands, hour and minute are gilt, seconds-hand is blue; case shows little wear, few short scratches or scrapes at upper left of bezel, no dents; tight bow, crown shows little wear; good glass crystals.
592	Mvt: GRO after a twist to start, excellent cosmetic mvt condition overall to portion which is visible from dial side, some mild surface spotting evident; paper dial with some darkening and mild discoloration in areas (most prominently around 2 and 9); excellent hands; case shows little wear, mild gilt loss to band, greater gilt loss to pendant, celluloid front and rear are superb without damage or loss; tight bow, crown shows little wear; good glass crystal.
593	Mvt: GRO after a sluggish start, excellent cosmetic mvt condition overall, some bits of oxide on larger winding wheel, short scratch and very small marring around escape wheel jewel setting, some typical micro-fine scratches, losses to black coloring of mvt lettering; very near flawless dial with minuscule scratch above seconds-register; excellent hands; case shows very little wear, nick or slight ding on band at 5, no dents, excellent engraving detail; tight bow, crown shows light wear; glass crystal with mild fine scratch near center.
594	Mvt: GRO, fine cosmetic mvt condition overall, missing regulator spring and one plate screw, oxide to larger winding wheel and some lesser oxide elsewhere to steelwork, some scattered scratches and fine scratches; dial has some scratches within seconds-register, small scratch near 5; excellent hands have very minor loss of bluing, minute hand minor oxide; case shows light wear, few tiny nicks on bezel and rear, no dents, good loaner marking engraving detail; tight replacement bow is white gold-filled and is from a later vintage Ball case (and would be very useful for one of these cases in need, while this case could be corrected with a simple antique style nickel bow), crown shows medium wear; glass crystal with small scratch below center.
595	Mvt: GRO, excellent-plus cosmetic mvt condition overall, short scratch near upper case screw, few fine to micro-fine scratches elsewhere; flawless dial; excellent hands; case shows very little wear, scattered short scratches along band, no dents or dings, excellent engraving detail overall with some mild reduction at rear shoulder; tight slightly brassy bow with some nicks, crown shows light wear: clean plastic crystal.
596	Mvt: GRO, excellent-plus cosmetic mvt condition overall, some micro-fine scratches on plates; dial has one small edge chip largely under bezel near 8; excellent hands with minor oxide; case shows very little wear, no dents or dings, excellent engraving detail with mild reduction at shoulder; tight bow with some wear to brass, crown shows little wear; good glass crystal.
597	Mvt: GRO, near mint cosmetic mvt condition overall, micro-fine scratch near train bridge case screw; dial flawless in visible portion apart from some wispy mild clouding of its surface glaze in its upper right portion which is visible in certain lighting angles; excellent hands, spot of rust toward end of minute; case shows no wear, no dents or dings, mild rippling to reflection of cartouche at center front, superb crisp engraving detail; tight bow, crown shows no wear; good glass crystal.
598	Mvt: GRO, excellent cosmetic mvt condition overall, spots of oil haze and few fine scratches on plates, mismatched screw on barrel bridge; dial has quite a bit of white fill material tracing the junctions of the dial sinks which were presumably chipped away as well as fill material patched into additional chips below the seconds-register and within the center section, numerous hls in center section, some outer chapter hls, seconds-register is aligned out of index; fine hour and seconds-hand with oxide, missing minute hand; case shows medium to ample wear, profuse fine and micro-fine scratches on rear and cuvette, ding on band at 3, few additional lesser dings or nicks bezel and one on band, engraving shows heavy reduction missing both end caps on rear hinge and one on front hinge; tight bow is slightly thinned on top; good thick glass crystal.
599	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous plates, few minuscule specks of oxide on regulator; dial has hl at 5, faint line below the glaze under 12 and 1, small edge chip under bezel at 5, patched edge chip under bezel at 8:30; excellent hands; case shows very little wear, some micro-fine scratches on rear, no dents or dings, superb engraving detail; tight bow with spot of brass on underside, crown shows little wear; good glass crystal.
600	Mvt: GRO, excellent cosmetic mvt condition overall, some typical fine and micro-fine scratches, regulator spring has lost nearly all of its gilt finish; dial with faint hl above seconds-register, faint hl below seconds-register with a minuscule flake at its top edge; near mint hands; case shows light wear, some shallow denting, dings, and peck marks on rear, dings on band, wear to brass to portion of band; bow pivots freely, crown shows light wear; good glass crystal.
601	Mvt: GRO, excellent-plus cosmetic mvt condition overall, some fine and micro-fine scratches; near flawless dial with few minuscule flakes of seconds-register hole, mild edge rub under bezel between 2 and 5, small pinpoint surface pit within second letter of signature which appears to be as-made; near mint hands; case shows light wear, no dents or dings, attractive engraving detail with mild reduction; bow pivots semi-freely, crown shows light wear; good glass crystal.

Lot#	Condition
602	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous plates, fine scratch at left side of barrel bridge, some fine or micro-fine scratches to balance cock foot; dial with scratch to lower portion of seconds-register, faint hl below seconds-register at 5:30, edge rub under bezel between 9 and 11 with a small edge nick under bezel at 9:30; excellent hands; case shows light wear, scattered tiny nicks and dings along band, some strips of wear to brass to band and perimeter of bezel and rear, few small spots of brass on pendant; tight brassy bow, crown shows light wear; good glass crystal.
603	Mvt: GRO, excellent cosmetic mvt condition overall, some fine and micro-fine scratches; near flawless dial with minuscule surface nick at 9 and few small fine scratches; fine hands, minute with significant portion of color loss, seconds-hand with oxide; case shows little wear, no dents or dings, few spots of wear to brass on pendant, few tiny specks of wear to brass on bezel at 1:30; tight bow. replacement crown shows hardly any wear: good glass crystal.
604	Mvt: GRO, excellent cosmetic mvt condition overall, plates with bright lustrous tone but having areas of scratches and fine scratches with majority being to left side of barrel bridge, case screw areas and foot of balance cock, some visible scratching to one of the balance wheel spars (arms); dial with light hl at 8, small scratch at edge near setting lever, very small surface nick near 10; excellent hands, minute with some finish loss and mild oxide to its tip; case shows little wear, no dents or dings; tight bow, crown shows little wear: good glass crystals.
605	Mvt: GRO, excellent cosmetic mvt condition overall, some scattered small fine scratches and micro-fine scratches, some scattered small spots; dial with faint outer chapter hl at 10, "C.F.M. Loaner" marking in center section is only faintly visible at certain lighting angles as this was likely originally painted on the dial surface and then cleaned fully off at a later date leaving only a ghost trace of the marking in the surface glaze; excellent hands; case shows very little wear, no dents or dings, excellent engraving detail, very small bit of wear to brass on band at 1; bow pivots freely, crown shows very little wear; good glass crystal.
606	Mvt: GRO, near mint cosmetic mvt condition overall, minuscule scratch near inner center bridge screw, few micro-fine scratches; dial with scattered fine surface splits and micro-fine surface splits; case shows very little wear, ding on band at 6, traces of original brushed finish visible on rear; tight bow, crown shows little wear; good glass crystal.
607	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous surfaces with few micro-fine scratches; very near flawless dial has one short fine surface scratch in the left portion of center section; fine-plus hands, hour has spots of bluing loss; case shows hardly any wear, no dents or dings, tiny pinpoint nick toward upper left of rear, excellent engraving detail; tight bow, crown shows very little wear; glass crystal with very small edge flake at lower left.
608	Mvt: GRO, near mint cosmetic mvt condition overall, superb two-tone color and luster, few minuscule specks of oxide on regulator assembly, plates with few minimal micro-fine scratches; dial with some very faint outer chapter hls; excellent hands; case rear with challenging threads that take some patience to align correctly for closing, case shows light wear, no dents or dings, reduced engraving detail, thin partial ring of brass on bezel edge, two tiny spots of wear to brass on pendant; tight bow is slightly thinning at top. crown shows medium wear: good glass crystal.
609	Mvt: GRO, near mint cosmetic mvt condition overall, very strong two-tone color and luster, third wheel jewel setting is a gold replacement, some typical small fine and micro-fine scratches, few minuscule specks of oxide on regulator spring; dial has two minuscule nicks and faint branching hls between 10 and 11; excellent-plus hands, minute with loss of bluing at tip; case shows very light wear, no dents or dings, engraving and engine turning detail reduced at rear shoulder, bezel engine turning detail largely reduced with sizable portion of full loss; tight bow, crown shows ample wear; glass crystal with internal edge chip at 8 and scratch near edge at 12.
610	Mvt: GRO, excellent cosmetic mvt condition overall, bright lustrous plates with scattered small fine and micro-fine scratches, some tiny specks of oxide on larger winding wheel; flawless dial; excellent hands, seconds-hand with some oxide; case shows little wear, some fine scratches and a small scuff on rear, band with some nicks and few small shallow dings; tight bow, crown shows little wear: good glass crystal.
611	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous plates, some micro-fine scratches, one minuscule speck of oxide on loop of regulator spring; dial has some very faint outer chapter hls at 4:30 and 7:30; near mint hands; case shows almost no wear, no dents or dings, superb crisp engine turning detail; tight bow, crown shows little wear; good glass crystal.
612	Mvt: GRO, very near mint cosmetic mvt condition overall, one fine short scratch near larger winding wheel adjacent end of adjustment marking, very small scratch above Hamilton marking; flawless dial; mint hands; case shows almost no wear, few contact fine and micro-fine scratches to rear, no dents or dings, original circular rear finish is fully intact without reduction; tight bow. crown shows hardly any wear: good glass crystal.
613	Mvt: GRO after a sluggish start, excellent cosmetic mvt condition overall, some scattered spotting to main plate, oxide to stop works steelwork; dial with hl at 1:30; excellent hands; case shows medium wear, ding or small dent to lower right of rear, some tiny pitting along lower portion of seam of front planchet, greatly reduced engine turning detail with perimeter portions at full loss; tight bow, gold-filled crown style push shows medium wear; good glass crystal.
614	Mvt: GRO, fine cosmetic mvt condition overall, gilt main plate with portion of discoloration and some spots; dial with light hl below seconds-register; excellent hands, minute with mild bend; case shows light to medium wear, no dents or dings, reduced engraving detail: tight bow. crown shows substantial wear: good glass crystals.

Lot#	Condition
615	Mvt: GRO, excellent cosmetic mvt condition overall, good gilt tone, some scattered spots; dial with hl at 8; excellent hour and seconds-hand, minute is rusted and missing its tip; case rear has very poorly executed solder repair to a separated planchet seam with excess solder visible both inside and out, case shows light wear, no dents or dings, reduced engraving detail; tight bow, crown shows light wear and some verdigris in areas: clean plastic crystals.
616	Mvt: GRO, crown must be given downward pressure when winding and even with this winding mechanism has an occasional slip, overhaul recommended, excellent-plus cosmetic mvt condition overall, few micro-fine scratches; dial flawless in visible portion; near mint hands; case shows very light wear, dent to rear of band at 12, mild dent to band at 6:30 and some dings elsewhere to band, lids with scattered dings and mild dents, engine turning detail reduced at shoulders, upper left of rear with area of mild discoloration; tight bow, crown is currently seated very high on pendant and pulling clear of pendant when in setting position, crown shows medium wear; plastic crystal with some fine scratches.
617	Mvt: Starts running when wound but mainspring is likely broken and audibly slips every several turns of the crown, setting mechanism has an intermittent skip in its clockwise direction, overhaul needed, excellent cosmetic mvt condition overall, some spots in area surrounding s#, some scattered fine and micro-fine scratches; dial with some scattered hls, minuscule flakes at center, seconds-register looks to have been re-glued with some excess visible at portions of its seat; excellent hands, hour and minute are blue, seconds-hand is plum colored; case front latch is not depressing to release bezel, case shows light wear, dark toning to its lower edge, no dents or dings, engine turning detail lost at shoulder, front hinge missing an end-cap; tight bow, crown shows medium wear with ridge break; good glass crystal.
618	Mvt: Starts running when wound but likely broken mainspring that audibly slips while winding and does not reach full tension, overhaul needed, excellent-plus cosmetic mvt condition overall, some fine and micro-fine scratches; dial with hl near 5, light hl above seconds-register; hour and minute hands are missing their tips, fine seconds-hand; case rear with profusely wavy reflection that appears to be a combination of likely polishing to remove some type of engraving in addition to a few shallow dents, ultra-fine scratch striations to rear likely also resultant of past polishing, case shows medium wear, bezel and band without dings or dents; tight bow thinned a bit at top, white metal replacement crown is substantially worn; glass crystal with two short scratches at lower left.
619	Mvt: Running, setting mechanism is substantially slipping while making a clicking sound, excellent cosmetic mvt condition overall, plates with some fine and micro-fine scratches, regulator assembly with some oxide, small marring around stem detent screw and lower case screw; excellent dial with some fine scratches above center, minuscule edge nick under bezel at 6:30; fine hands with areas of oxide and finish loss, minute with some bends; case shows very light wear, scattered dents to band with the majority around the lower portion, good engine turning detail to central portion of rear but reduced at shoulders to some areas of full or near-full loss; bow pivots freely, crown shows medium wear; good glass crystal.
620	Mvt: GRO, excellent-plus cosmetic mvt condition overall, spot at upper portion of "H," mild oxide to regulator assembly; dial with hl at 5; excellent hands, minute has bluing loss at tip; case shows very light wear, no dents or dings, engine turning detail with some reduction and portions of full loss at shoulders, bezel hinge is missing one end cap; tight bow, crown shows medium wear; good glass crystal.
621	Mvt: NR, fully wound and will tick weakly for a while with a twist, overhaul needed, excellent cosmetic mvt condition overall; dial with scratch in seconds-register, outer chapter hls at 11; excellent hands, hour and minute are plum colored, seconds-hand is blue; case shows little wear, some fine scratches, two small nicks to upper rear; bow pivots freely, crown shows little wear; glass crystal with small fine scratch near bottom.
622	Mvt: Ticking sluggishly on a full wind, overhaul recommended, near mint cosmetic mvt condition overall, scattered micro-fine scratches on plates; dial with very light outer chapter hls between 11 and 12, very light outer chapter hl at 6, edge chip under bezel at setting lever; excellent hands, hour with oxide to tip; case shows light wear, fine scratches on shield, few shallow dents on rear, few tiny nicks on band, reduced engraving detail; tight bow, crown shows light wear; glass crystal with scattered short scratches.
623	Mvt: GRO, near mint cosmetic mvt condition overall, few fine scratches on larger winding wheel, tiny speck of oxide on loop of regulator spring; near flawless dial has one short scratch in lower part of seconds-register and some micro-fine scratches to left side of seconds-register; excellent hands, seconds-hand has some bluing loss; case shows very little wear, rear with two scratches right of initials and some fine scratches elsewhere, few slight nicks on band, no dents, excellent engraving detail; tight bow, crown shows little wear: good glass crystal.
624	Mvt: GRO, excellent cosmetic mvt condition overall, bright lustrous plates, mild oxide on winding wheels and regulator assembly, tiny nicks and micro-fine scratches on balance cock, lettering has lost much of its black coloring; dial with outer chapter hl at 12; excellent-plus hands, hour has few fine scratches at tip, minute has few specks of oxide; case shows light wear, some scratches on rear, some pinpoint nicks on rear, tiny ding on band at 7, partial ring of brass to rear shoulder, scattered small spots of brass along high points of bezel and rear edges; tight bow, crown shows light wear; good glass crystal.

Lot#	Condition
625	Mvt: GRO, excellent-plus cosmetic mvt condition overall, bright lustrous plates, two short scratches near s#, small marring tight around lower case screw position, some fine scratches and some very small marring to steel disk around balance jewel, mild oxide to regulator spring and few bits of oxide to winding wheels; dial has few very faint outer chapter hls at 12 and 6, few small surface nicks or scratches between 9 and 10; fine hands have areas of oxide and finish loss; case shows very little wear, few scattered tiny nicks along band and rear, no dents, excellent engraving detail; tight bow, crown shows light wear; glass crystal with a scratch above center.
626	Mvt: GRO, excellent cosmetic mvt condition overall, strong two-tone color and luster, plates with few scattered small spots; dial signature is slightly off level and appears to have been applied to the surface of the dial glaze, has two hls from 1 to center, three small hls above seconds-register, some very small edge chips or flakes under bezel; near mint hands; case shows little wear, no dents or dings, excellent engraving detail, thin slivers of wear to brass along raised ridge at front and rear perimeter; tight slightly brassv bow. crown shows light wear: good glass crystal.
627	Mvt: GRO, excellent cosmetic mvt condition overall, plates with attractive surface toning towards a warm somewhat golden hue, some scratches adjacent upper case screw; dial has scattered faint hls, edge flakes near 12:30 and 2, some additional very small flakes and some scratches under bezel along edge, extremely minuscule surface nick to inner rim of outer chapter at 9:30; near mint hands; case shows very light wear, an attractive mild patina, few slight dings toward perimeter of rear; tight bow, crown shows light wear: good glass crystal.
628	Mvt: GRO, excellent-plus cosmetic mvt condition overall, superb overall gilt tone, some scattered small surface spots; dial with faint hls along edge between 2 and 3, few minuscule flakes under bezel between 1 and 1:30, minuscule flake to rim of seconds-register hole; excellent blue hour and minute hands, fine seconds-hand is plum colored and has some crimps; case shows little wear, some mild fine scratches, two very mild shallow dents to rear, very small nick on bezel near 3 and scattered tiny pinpricks and scratches on rear; tight bow; good thick glass crystal.
629	Mvt: GRO, excellent cosmetic mvt condition overall, spots of oxide and fine scratches on larger winding wheel, scattered micro-fine scratches on plates; very near flawless dial with minuscule nick to rim of center hole, small blue spot under bezel near 12 that appears to be an as-made imperfection; has one small area of edge wear at the top of the seconds-register; excellent hands; case shows light wear, circular scratches within case rear, few tiny nicks on band, shallow dents to rear, ding at left shoulder of rear, small spots of wear to brass on pendant, small specks of wear to brass on rear edge; bow pivots freely, crown shows light to medium wear; good glass crystal; box shows medium wear visible most prominently at edges, image on box with strip of loss to mid-point and area of loss to Sangamo marking at lower portion, label intact apart from some perimeter loss legible but with wearing; inner tag with a few creases but all remaining clearly legible.
630	Mvt: GRO, excellent cosmetic mvt condition overall, some whitish toning of plate surfaces, some typical mild micro-fine scratches; flawless dial apart from two minuscule pinpoint pits in surface at edge under bezel at 2:30 that appear as-made; fine hands with portions of oxide and finish loss; case shows little wear, few very shallow dents around center rear causing mild rippling of reflection: tight bow. crown shows little wear: good glass crystal.
631	Mvt: GRO, excellent-plus cosmetic mvt condition overall, strong two-tone color, spot at edge of plate adjacent s#; dial with two very faint hls in seconds-register, few minuscule flakes to seconds-register hole and single minuscule flake at center hole, few fine scratches; excellent hands, minute with some finish loss and oxide, hour hand is slightly crimped on stem; case shows medium wear, shallow dents to rear, few small dings on band, one small ding on cuvette, engraving detail with some reduction, band worn to brass between 10 and 12, tiny spots of brass at high points of front and rear edges; tight bow, crown shows medium wear; clean nlastic crystal.
632	Mvt: GRO, near mint cosmetic mvt condition overall, short scratch adjacent lower case screw; excellent dial with faint hl above the seconds-register, fine scratch within lower portion of seconds-register; excellent hands; case shows hardly any wear, mild shallow crease type dent at lower right perimeter of rear, superb engraving detail, enameling fully intact and with few fine scratches; tight brassv bow. crown shows little wear: good glass crystal.
633	Mvt: GRO, good chronograph function, excellent-plus cosmetic mvt condition overall, scattered small fine and micro-fine scratches, few tiny specks of oxide on steelwork, scattered micro-fine scratches on plates; dial with hl along edge between 2 and 3; excellent hands, sweep-seconds-hand with tiny spot of oxide on tip, minute hand is slightly bent; case shows hardly any wear, few short fine scratches on rear, no dents or dings, superb engraving detail; tight bow, crown shows light wear; good glass crystal.
634	Mvt: GRO, near mint cosmetic mvt condition overall, superb gilt tone, few mild small spots to left portion of barrel bridge; excellent dial with only small edge flaking under bezel near 5 and a fine scratch above the signature; near mint hands; case shows hardly any wear, gutta percha surface is fully present having just two small indentations in the perimeter of the front lid, a few mild fine scratches; tight bow, push shows light wear; good glass crystal; chain is excellent overall but is missing gold bands from three of its links.
635	Mvt: GRO, excellent-plus cosmetic mvt condition overall, bright plates with few fine scratches, few specks of oxide on regulator assembly; nearly flawless dial with only a short hl under bezel along edge at 10; excellent hands; case lift spring is not functioning so front lid tilts opened/closed limply, case shows hardly any wear, no dents or dings, superb engraving detail, setting lever slot has been widened; tight bow, crown shows very little wear; good glass crystal.

Lot#	Condition
636	Mvt: GRO, near mint cosmetic mvt condition overall, few mild fine scratches, few minuscule specks of oxide on winding wheels and regulator; excellent dial with few mild fine scratches; near mint hands; case shows light wear, scattered fine scratches and few scuffs on rear, no dents or dings, superb engraving detail, enameling is fully intact; tight bow, crown shows little wear; good glass crystal.
637	Mvt: GRO, excellent cosmetic mvt condition overall, plates with some scattered spots with the most visible being adjacent the serial number, few minuscule specks of oxide on regulator; near flawless dial has one very faint short hl above the seconds-register; fine hands, seconds-hand is covered in oxide; case shows little wear, dings and mild dent on right rear shoulder, good engraving and engine turning detail with only mild reduction at shoulders; tight bow; good glass crystal.
638	Mvt: GRO, excellent-plus cosmetic mvt condition overall, excellent gilt tone overall with some mild clouding at barrel bridge edge and a few scattered small additional spots, hairspring stud with filing marks, mismatched banking pin screws; flawless dial apart from a few minuscule bits of glue seepage at seconds-register seat suggesting the possibility seconds-register has been re-glued; excellent hands, hour hand has polished spade, minute hand does not; case shows light wear, an attractive light patina, scattered fine scratches on front and rear, tiny ding on front left shoulder, small nick at bottom of band, engraving detail shows mild reduction; tight bow, push shows light wear; good glass crystal.
639	Mvt: GRO, excellent cosmetic mvt condition overall, bright lustrous plates with some typical scattered micro-fine scratches, fine scratch striations to visible portion of barrel; dial with group of hls near 4, faint hl near 7, short scratch mostly under bezel near 9, fine scratch in seconds-register, edge flake under bezel at lever and minuscule edge nick under bezel at 7; near mint hands; case shows light wear, some mild areas of small finish pitting adjacent crystal, scattered small dings along band, engraving detail shows mild reduction, few spots of brass on pendant; slightly brassy bow pivots freely, crown shows little wear; glass crystal has one small internal edge chip at 4.
640	Mvt: GRO, good winding indicator function, near mint cosmetic mvt condition overall, few tiny specks of oxide on regulator, few micro-fine scratches on plates; dial has short hl below seconds-register at 6, very faint hl above indicator-register at 11:30, very small scratch inside 4, small edge flake under bezel at 6, absolutely minuscule nick to upper rim of indicator-register; excellent hands, hour and minute hands have small spot of oxide; case shows hardly any wear, scattered fine and micro-fine scratches and mild scuffs to rear, no dents or dings, excellent engraving detail; tight bow, crown shows very little wear; good glass crystal.
641	Mvt: GRO, excellent-plus cosmetic mvt condition overall, some mild fine and micro-fine scratches, few minuscule specks of oxide on winding wheels; dial with outer chapter hls at 8:30 and 9; fine hands, oxide to end of minute; case shows medium wear, dents on band near 2 causing front and rear to leave a small bit of gap to band when closed; tight bow, crown shows medium wear; good glass crystal.
642	Mvt: GRO, near mint cosmetic mvt condition overall, bright lustrous surfaces with some typical mild micro-fine scratches; dial with outer chapter hls at 6 and 9; fine hands have been painted over; case shows little wear, some nicks to band, small nick to lower rear, excellent engraving detail, case with additional lever set slot at 11; tight bow, crown shows light wear; glass crystal with few short scratches.
643	Mvt: GRO, excellent-plus cosmetic mvt condition overall, mismatched screw on balance jewel setting, few specks of oxide on larger winding wheel, few short fine scratches adjacent main plate case screw; dial has scattered light hls, a small edge fracture with some fill material mostly under bezel at 5, minuscule edge nicks under bezel at 12:30 and near 4; excellent hour and seconds-hand, minute with finish loss; case shows medium to ample wear, few shallow dents on rear, scattered small dings on band and few on bezel, engraving detail largely lost, only a few faint hints of engine turning detail remaining, partial ring of brass on band, few spots of wear to brass on pendant and in tiny spots on high points of bezel and rear edges; brassy bow is misshapen and pivots semi-freely, crown shows medium wear; good glass crystal.
644	Mvt: Running but setting function is not working, good chronograph function, excellent cosmetic mvt condition overall in visible portion; front dial has hls between 6 and 7, small flake near edge at 6:30, small edge flake under bezel at 3; rear dial with scattered hls, small chip at right side affixing screw, patched chipping around left side affixing screw, small patched chip at upper right edge; excellent hands, hour is plum colored, other hands are blue, sweep hand with slightly bent tail; case with extraneous button on band at 1, case shows light wear, gouge on bezel with slightly sharp edges, few nicks on bezels, no dents; bow pivots freely and is thinned at top, crown shows little wear; front glass crystal has scattered scratches, good rear glass crystal.
645	Mvt: GRO, excellent cosmetic mvt condition overall, good gilt and nickel tones, fine scratches surrounding main plate case screw, partial disassembly reveals correctly matched serial numbers under barrel bridge and balance cock, balance wheel spars (arms) have correct initial few digits but final few digits are lost as surface has been sanded and darkened on one side; flawless dial; excellent hands, minute and seconds hands have some oxide; case shows medium to ample wear, scattered dings along band, engraving detail shows ample reduction with areas of full loss; tight bow, crown shows light wear; good glass crystal.
646	Mvt: GRO apart from setting mechanism having a slight clicking when turned counterclockwise, near mint cosmetic mvt condition overall, bright lustrous surfaces with few small fine and micro-fine scratches; dial with some light outer chapter hls; fine hands, hour and minute with slight bends, seconds-hand with finish loss; case shows hardly any wear, no dents or dings, very strong engraving detail, cuvette surface is entirely through to brass and has some long scratches; tight bow, crown shows hardly any wear; good glass crystal.

Lot#	Condition
647	Mvt: GRO, excellent cosmetic mvt condition overall, some scattered fine and micro-fine scratches with the most prominent of these around upper case screw area, mismatched case screws; dial with mild spots near 12, some additional scattered minuscule spots; excellent hands; case rear and cuvette open a small bit wide of 90 degrees, case shows light wear, no dents or dings, good engraving detail; tight bow, crown shows light wear; good glass crystal.
648	Mvt: NR, likely broken mainspring, balance is gummy, setting mechanism operating in counterclockwise direction only, overhaul needed, chronograph unable to be tested as watch is NR however it was not left at zero and it did fly back to zero, fine cosmetic mvt condition overall, center bridge with gilt finish loss and fine scratches; front dial has hls at 12, tiny edge nick under bezel at 6; rear dial has scattered hls, patched chip at affixing screw at 60, patched edge chips around 25, chip at affixing screw at 30, dial has what appears to be a seconds-register impress and markings at its lower portion; excellent hands, hour has tiny spot of bluing loss, sweep hand has minor oxide; case shows light wear, spots and lines of finish wear on bezels, no dents or dings; tight bow, crown shows little wear; good glass crystals.
649	Mvt: GRO, setting lever wants to retract so must be held in position while setting, excellent cosmetic mvt condition overall, scratch at plate perimeter adjacent lower case screw, some typical fine and micro-fine scratches elsewhere, oxide to regulator assembly, spot of abrasion on main plate adjacent barrel, some marring around balance jewel setting which appears to be a replacement; dial with scattered light outer chapter hls, minuscule flake near 12 to inner rim of outer chapter edge, edge flake under bezel at setting lever; excellent hands; case lift spring does not touch lid when fully opened allowing lid to move toward closed position slightly due to gravity, case shows medium wear, few shallow dents on front and rear, one small ding on cuvette, reduced engine turning and engraving detail with areas of full loss to engine turning; tight bow, crown shows medium wear with ridge break; glass crystal with a small edge chip at its upper right.
650	Mvt: GRO, usually good chronograph function but with an occasional reluctance of crown to engage/disengage at times and a spring is missing from the mechanism which attaches to the plate just left of the s#, excellent cosmetic mvt condition overall, some micro-fine scratches and small spots; dial with flake or very small chip adjacent seconds-register at 5, small edge chip near 6, small edge flake at 12; fair hands have been crudely re-painted; case shows ample wear, some dings to rear with the most prominent being a small deeper mark at right perimeter, some nicks and mild dings to bezel, engine turning detail largely lost with only a portion remaining lightly visible, wear to brass in strips around high areas; tight brassy bow, white metal replacement crown shows little wear; good glass crystal.
