LOT#	DESCRIPTION	PRICE
1	US \$20 gold, 1904, (AU with few bag marks), mounted in 14K gold chain-edge coin holder as pendant on heavy 24-inch 14K rope chain, gross weight 43.6 dwt (67.8 g), coin weight alone 21.4 dwt (33.4 g), leaving 14K gold net weight at 22.2 dwt (34.4 g).	2,200.00
2	US \$10 gold, 1895, (AU with numerous bag marks), gross weight 10.7 dwt (16.7 g).	700.00
3	US \$10 gold, 1880, (EF45 with obverse seeming more worn than reverse), gross weight 10.7 dwt (16.7 g).	650.00
4	Pin - Indicolite tourmaline, diamond and 18K yellow gold pin, modified emerald cut blue-green indicolite tourmaline measures 13mm x 14mm, weighs approximately 15 ct, 8 round brilliant cut diamonds weighing approximately .32 ctw, piece measures 50mm x 50mm, gross weight 19.0 dwt (29.5 g).	850.00
5	Shoe clip - Aquamarine, diamond and platinum shoe clip with a white gold clasp mechanism, emerald cut aquamarine measures 16mm x 20mm, weighs approximately 20 ct, 20 round European cut diamonds weighing approximately 1.40 ctw, piece measures 27mm x 36mm, gross weight 5.4 dwt (8.5 g).	1,100.00
6	Chain - Heavy 14K yellow gold rope chain, 22 inches, gross weight 23.7 dwt (36.8 g).	800.00
7	Lighter - Cartier, Paris, gold plated lighter with faux tortoiseshell enamel, 71mm x 25mm x 13mm.	80.00
8	Pendant - Blue diamond center with a diamond halo and 18K white gold dangle pendant with a 14K white gold chain, blue high pressure high heat treated round brilliant cut diamond weighs approximately .80 ct, 25 round full cut diamonds weighing approximately .20 ctw, pendant measures 9mm x 15mm, chain measures 18 inches, gross weight 2.1 dwt (3.2 g).	550.00
9	Pendant - Amethyst, diamond and 18K rose gold drop pendant with a 14K rose gold chain, approximately 7.3 ct pear shape amethyst, 86 round full cut diamonds weighing approximately .5 ctw, pendant measures 14mm x 45mm, chain measures 18 inches long, gross weight 5.5 dwt (8.6 g).	325.00
10	Pendant - Rubellite tourmaline, diamond and 18K white gold dangle pendant with a 14K white gold chain, pear shaped rubellite weighs approximately 1.0 ct, 25 full cut diamonds weighing approximately .25 ctw, pendant measures 9mm x 19mm, chain measures 18 inches long, gross weight 1.9 dwt (3.0 g).	275.00
11	Necklace - Diamond and 14K rose gold dangle necklace, F/G color I1 clarity pear shape diamond weighs approximately .78 ct, 117 F/G color VS2 clarity round full cut diamonds weighing approximately 2.50 ctw, necklace measures 18 inches long with a lobster claw style clasp, gross weight 15.3 dwt (23.7 g). Includes a fair market appraisal by a registered GG.	1,200.00
12	Necklace - Italian 14K tri-color gold brickwork and milled link necklace, just under 15 inches, gross weight 25.7 dwt (40.0g).	900.00
13	Bracelet - United States gold coin bracelet, all coins suspended in 14K gold ring holders, including three \$5 gold coins (1861 and two 1880), one \$2.50 gold coin (1854), and two one-dollar coins (1852 and 1853), bracelet in 14K, gross weight 34.5 dwt (53.0 g).	2,600.00
14	Bracelet - Gold-nugget-style 14K yellow gold ID bracelet with `S.Michael` diamond-set white gold application, also signed `S.Michael` on clasp, 17mm wide, 7.6 inches, gross weight 55.9 dwt (86.9 g). `S.Michael` is the name of a fashion jewelry company, but this bracelet is unlike anything in current offerings. Michael has been in business for 30 years, so anything is possible, but it seems unlikely that this would have been a brand product.	2,000.00
15	Bracelet - Italian 18K yellow gold patterned and tapered gold bracelet, engraved initials on inside of clasp, with safety chain, 15mm up to 23mm width, length 6.8 inches, gross weight 46.2 dwt (71.9 g).	2,200.00
16	Bracelet - ID bracelet in 14K yellow gold, Oyster-style links with twin safeties, 10mm wide, 7-inch length, gross weight 23.5 dwt (36.6 g).	800.00
17	Bracelet - Diamond, baroque pearl and 14K white gold hinged bangle bracelet, 60mm x 48mm internal oval dimensions (2.4 x 1.9 inches), gross weight 7.7 dwt (11.9 g).	250.00
18	Bracelet - Diamond and 14K yellow gold tennis bracelet, yellow gold flat links with white gold section of articulated links carrying one stone each, 9 round full cut diamonds weighing approximately .36 ctw, 7.0` length, gross weight 4.6 dwt (7.2 g).	225.00
19	Earrings - 18K white gold and diamond dangle earrings, 2 round brilliant cut diamonds weighing approximately .97 ctw, 54 round full cut diamonds weighing approximately .56 ctw, earrings measure 8.5mm x 22mm, gross weight 1.9 dwt (3.1 g).	800.00
20	Earrings - Red diamond and 14K white gold screw back earrings, 2 red high pressure high heat treated round brilliant cut diamonds weighing approximately 1.12 ctw, earrings measure 6mm, gross weight 0.9 dwt (1.4 g).	500.00
21	Earrings - Purple diamond with a diamond halo and 18K white gold tension back stud earrings, 2 purple high pressure high heat treated round brilliant cut diamonds weighing approximately .56 ctw, 28 round full cut diamonds weighing approximately .07 ctw, earrings measure 6mm, gross weight 1.2 dwt (1.9 g).	325.00
22	Earrings - Diamond and 14K white gold dangle earrings with tension backs, 2 heart shaped diamonds weighing approximately .60 ctw, 60 round brilliant cut diamonds weighing approximately .90 ctw, earrings measure 10mm x 26mm, gross weight 3.3 dwt (5.2 g).	600.00
23	Earrings - Diamond and 14K white gold stud tension back earrings, 2 radiant cut diamonds weighing approximately .85 ctw, earrings measure 5mm x 6mm, gross weight 0.8 dwt (1.2 g).	650.00

LOT#	DESCRIPTION	PRICE
81	EPW- Longines, US Navy military deck watch with winding indicator, 68mm, .800 silver OF original Longines marked case engraved 'US Navy No 4033' on rear, SW-SS, silvered metal dial with Roman numerals, large sub-seconds and 36 hour indicator register, lever escapement, 17J, 5 adj Cal 21.29 mvt, snail type micrometric regulator, compensation balance with overcoil HS, Geneva stripe NI damascene, s#2975262 with matching case serial, triple-signed Longines.	900.00
82	French 8-day hour repeating carriage clock, mid-size Corinthian style case with stepped base and decorated upper and lower frieze with turned quarter columns, ivory colored enamel Arabic central dial set in beautifully engraved silver mask with lions and floral chasing, hour and half hour bell striking movement, original jeweled lever escapement, original lever platform, s#29503, height 6.5 inches to top of upright handle, with original key and velvet-lined carry case with glass front and a solid panel stored inside for travel, both key and case stamped 29503 to match serial number of clock.	900.00
83	Fine quality French 8-day clock for 'Tiffany & Co, France,' 'Couaillet Fres, France' stamped on back plate, hour and half hour strike on a gong with push button repeat and alarm, fine brass mid-size case, ivory colored enamel Arabic dial, s#19662, height 6.25' to top of upright handle, with replacement key and associated fine leather carry case lined in velvet, front panel removes and stores inside case to reveal glass front, case marked on botton 'Cardellini, Made in Italy.'	550.00
84	LeCoultre, 8-day lucite see-through table or desk clock, 16J, straight line mvt, gold flashed and damascened, stamped VXN on balance bridge (Vacheron group's import code), heavy brass base, approximately 8' high by 7.5' wide.	800.00
85	APW - Charles Fasoldt, Albany NY, very rare tandem escapement possibly of experimental design, SW-KS, unusual off center WE-SSD marked 'Chas Fasoldt Patent Chronometer, Albany, NY,' very unusual tandem escape wheel arrangement, 18J, GJS on balance, third wheel, and fourth wheel, gold Fasoldt regulator, signed mvt bearing Fasoldt patent dates for 1864 and 1865 and also bearing a 'Patent Applied For' marking, fausses-côtes NI damascene, s#484 on center bridge and s#494 on pillar plate (with no other mvt numbers present). This mvt features an entirely different escapement than the traditional Fasoldt design, having a smaller 5-tooth escape wheel acting in tandem with a larger chronometer style escape wheel that is stacked co-axially with an additional train wheel. Most, if not all, of the impulse to the balance appears to be delivered by the larger chronometer style escape wheel impacting a beveled jewel set in a table, mounted on the balance staff. Balance receives impulse in one direc	10,000.00
86	APW - Charles Fasoldt, Albany NY, Fasoldt's co-axial double wheel escapement chronometer with very rare duo-in-uno hairspring, approximately 18S (45 mm dial plate diameter), KWKS, unsigned WE-SSD friction fit to mvt via canister style dial ring, Fasoldt co-axial lever escapement, 16J, steel Fasoldt regulator, compensation balance with gold, platinum, and bronze screws, signed mvt bearing patent dates for 1859, 1864, and 1865, fire gilt with snailed damascene finish, s#54. The duo-in-uno hairspring combines within a single piece of steel the geometry of both a helical spring and a flat spiral spring, the duo-in-uno style hairspring appears to have been only used on a small portion of Fasoldt's earlier production and to our knowledge was used by no other American maker (though in London, A.P. Walsh was making successful use of the duo-in-uno spring for pocket chronometers on a roughly contemporary basis). The present movement also features an unusual early form of double roller having	9,200.00
87	APW - Charles Fasoldt, possibly while at his earlier Rome NY location, Fasoldt's co-axial double wheel escapement chronometer with rare helical (spherical) hairspring, approximately 18S (45 mm dial plate diameter), KWKS with evidence of a now absent SW mechanism addition having been present at some point, unsigned WE-SSD friction fit to mvt via canister style dial ring, Fasoldt co-axial lever-escapement, 16J, steel Fasoldt regulator, helical hairspring, compensation balance with gold and platinum screws, single roller with enormous roller table, signed mvt bearing only 1859 patent date, fire gilt with snailed damascene finish, s#49. Rare appearance of a helical hairspring among an American maker, use of the helical spring appears to have been found among only a small portion of Fasoldt's production. This example with matching assembly number of 9 marked throughout mvt. From the Wing collection.	4,800.00
88	APW - Charles Fasoldt, Albany NY, Patent Chronometer marked dial, Fasoldt's co-axial double wheel chronometer escapement requiring no oil on detent faces, 20S, NI glassback SW recase of later vintage modified to function as display case for this KWKS mvt, WE-SSD, Fasoldt co-axial lever escapement, 16J, GJS on balance and third wheel, gold Fasoldt regulator, signed mvt bearing Fasoldt patent dates for 1859, 1864, and 1865, brushed satin NI finish, s#382. From the Wing collection.	3,000.00
89	APW - Charles Fasoldt, Albany NY, Patent Chronometer marked dial, Fasoldt's co-axial double wheel chronometer escapement requiring no oil on detent faces, mvt also marked 'Made for Thomas J Williams, Albany NY,' 20S, HC model mvt cased as sidwinder in sterling silver OF recase, SW-KS with winding in only forward direction, WE-SSD, Fasoldt co-axial lever escapement, 16J, GJS on balance and third wheel, gold Fasoldt regulator, signed mvt bearing Fasoldt patent dates for 1864 and 1865, fausses-côtes NI damascene, s#431. The SW-KS feature of this mvt is quite typical to this series of later Fasoldt watches as the original cases typically had crowns which held a key in winding position that could be released via a slide on the band to be used for time setting. From the Wing collection.	2,800.00
90	APW - Charles Fasoldt, Albany NY, unfinished late series OF model mvt, Fasoldt's co-axial double wheel chronometer lever escapement requiring no oil on detent faces, 18S, purpose-made OF display case of the type seen on a number of mvts from the Chamberlain collection, SW, 16J, GJS, gold Fasoldt regulator, NI mvt finish, complete with the exception of center arbor, motion works, and winding arbor. The only mvt marking is a partial serial on the dial plate adjacent to a dial foot recess with the final digit being a clearly visible 8 while the preceding digit is largely obliterated by the dial foot recess but what remains is consistent with its being a 3. Inferring from the serials of other similar open face stemwind Fasoldt mvts this suggests a possible intended serial for this piece of 538 that would fall in the final portion of Fasoldt production and suggests a likelihood that this mvt was in its present state in Fasoldt's workshop at the time of his passing in 1889. From the Wing	6,200.00
91	Lot (23) Charles Fasoldt, Albany (and Rome), NY, assorted Fasoldt materials obtained by Henry Wing from Dudley F Fasoldt (Charles' grandson) - [1] Dial for 1/5 flying seconds (jump) chronograph mvt with constant seconds, coaxial second and minute register, and winding indicator, WE-DS, 46mm, front side is very near perfect with only some FS in glaze, rear is missing foot at 12:30. [2] Dial for 1/5 flying seconds (jump) chronograph mvt with constant seconds and coaxial second and minute register, WE-TS, 46mm, fractured segment at 5, some additional other hls, both feet present but with bends. [3] Dial for 1/5 flying seconds (jump) chronograph mvt with constant seconds, coaxial second and minute register, and winding indicator, WE-DS, 46mm, chipped at center, segment fractured at 6:30, some additional hls, rear is missing one foot and other foot is about as badly bent as possible. [4] Small box containing a co-axial escape wheel with pinion present and 10 teeth on each wheel, a fine sing	5,600.00
92	APW - Columbus, 25J Columbus King, 18S, GF OF case, SW-LS, WE-DS matched dial, fully capped lever escapement, jeweled barrel as well as jeweled barrel arbor, 25J, NI damascene, s#503047. Very rare watch, production of the 25 jewel open face Columbus is estimated at just 100 total made per the June 2003 NAWCC Bulletin 'Railroader's Corner' article, with this total production being split among movements marked 'Columbus King' and 'Railway King'.	2,600.00

LOT#	DESCRIPTION	PRICE
93	APW - C P Babcock, Waltham Mass, freesprung spring-detent chronometer mvt, approximately 18S, purpose-made OF display case of the type seen on some mvts from the Chamberlain Collection, mvt secured in case via pins inserted in lower step of mvt pillar plate, KWKS, unsigned WE-SSD, Earnshaw style spring-detent escapement, 15J, GJS, gilt mvt with intricately engraved balance cock, pallet bridge, and detent foot, s#10113. Very intriguing mvt that is based on the general design of the Waltham models 1860 and 1862 and bears the typical Waltham-style script for the Babcock signature and block letter font with flourishes for the 'Waltham Mass' marking, but with this example being intermediate in size between the two Waltham models (the Babcock having a 42.7mm upper plate and 45.8mm dial plate, Waltham model 1860 having a 40.2mm upper plate and 44.0mm dial plate, and Waltham model 1862 having a 43.7mm upper plate and 47.5mm dial plate). Additional design differences from the standard Waltham	7,400.00
94	APW - E Howard & Co, Boston, s#224, the 124th watch produced, assembly #65, the motion wheels without assembly numbers, early Series I, model 1858-A (Geller system), N-S (just over 19S), warranted coin silver model specific 'JMH' recase appearing original, but having another used locator pin hole, ET silver cuvette with perfectly aligned winding holes, KWKS, WE-SSD with straight two-line script signature, lever escapement with upright pallets, 15J, gilt mvt. Our recent accumulated serial and assembly numbers for model 1858 in the lower numbers are s#111-(#11), s#137-(#37), s#175-(#17), s#209-(#34), s#224-(#65), s#234-(#59), s#404-(54), s#453-(#93), s#490-(#40) and s#518-(#68). One can infer a random assembly assignment pattern from s#175 through s#234, at least. The present example has maintaining power assembly between the plates. Gross weight of assembled watch 91.8 dwt (142.7 g).	1,700.00
95	APW - E Howard & Co, Boston, Series II, N-S (just over 19S), 18K Fellows & Co HC recase with gold cuvette, KWKS, WE-SSD, lever escapement, 15J, gilt mvt, s#1809. Gross weight of assembled watch 88.8 dwt (138.0 g). Total production of the Series II was approximately 1200 made, this example is among the very earliest of these and has the scarce smaller style barrel bridge used only among the first 150 to 200 examples.	3,200.00
96	APW - Elgin, rare hunting model Veritas 21J with winding indicator and conversion dial, Grade 274, 18S, GF OF recase, SW-LS, WED with sunken seconds and WI at 3 and 9 respectively that allow this HC model mvt to orient correctly in OF case with 12 figure at pendant, fully capped lever escapement, 21J, diamond endstone, GJS, GT, pinstripe pattern NI damascene quite rare to Veritas grade, s#10854832. Exact production is unknown but only a tiny fraction of Elgin's grade 274 production was finished with WI feature, and these are the only regular production hunting case model WI watches to have been made by a major American maker. The rarity of this particular example is furthered by the pinstripe damascene, this watch being the only HC model wind indicator Veritas that we have seen with this pinstripe pattern with all other examples that we are aware of having the usual more ornate Veritas damascene pattern, making this present piece perhaps the ultimate in collectibility among 20th century	4,000.00
97	APW - Franklin C Adams, Waltham, Mass, freesprung spring detent chronometer, mvt also marked 'A D 1874' and 'No (1),' 16S, 18K OF original offset hinged display case with inner glazed observation cuvette drilled for keyhole positions, KWKS, WE impressed SS fancy dial marked AWWCo Waltham and with Arabic hour numerals in radial orientation within an olive green colored chapter, dial also with green, red, and gold foil accents, spring detent escapement, 17J, NI damascene, gold train wheels, s#1. Beautiful and intriguing piece that looks to have been possibly built on a Waltham model 1860 ebauche, perhaps as a Waltham factory employee's personal masterpiece. From the Wing collection.	6,200.00
98	APW - Elgin, Veritas, 18S, OF mvt recased in spectacular 14K gold multicolor box-hinged HC with gold cuvette, SW-LS, WE-DSD, fully capped lever escapement, jeweled barrel arbor, 23J, DES, decorative gold disk around balance jewel setting, fishscale center pattern NI damascene with radiant surround, s#15475021. Gross weight of assembled watch 92.7 dwt (144.2 g). A top RR grade OF mvt currently housed in one of the best looking multicolor hunters we have handled.	4,000.00
99	APW - Illinois, Bunn Special '26 Ruby Jewels,' 18S, beautifully engraved GF OF original case, SW-LS, WE-DSD, fully capped lever escapement, capped third wheel, jeweled barrel arbor, internally jeweled barrel, 26J, two-tone wavy ribbon pattern damascene, s#2019415. Beautiful high end example of this rare highest jeweled Illinois watch.	7,800.00
100	APW - Illinois, Washington Watch Co Lafayette 24J, 18S, superb and heavy 14K multicolor box hinge original case with scalloped band and a diamond inset on rear, case also with gold cuvette, SW-LS, WE-DS Gothic numeral matched dial, fully capped lever escapement, capped third wheel, jeweled barrel arbor, 24J, NI damascene, s#1859042. Gross weight of assembled watch 93.7 dwt (145.8 g). Very scarce movement with an estimated total production of only 210 made in this hunting case version, simply a spectacular piece in combination with one of the most beautiful large box hinge multicolor gold cases we have handled.	8,400.00
101	APW - Illinois, '23 Diamond, Ruby & Sapphire Jewels,' grade 310, 16S, GF HC recase, SW-SS, WE-DSD with distinctive tall Arabic numerals, fully capped lever escapement, jeweled barrel, diamond endstone, 23J, GJS, adjusted 6 positions, wide transverse band pattern NI damascene, s#2373383. Extremely rare top grade Illinois watch, this model 6 version of the Grade 310 was only made in a single run of 20 watches spanning serials 2373381 to 2373400 and these 20 watches are the only 'Diamond, Ruby & Sapphire' marked movements that Illinois made in a hunting case model.	6,600.00
102	APW - Illinois, '23 Diamond, Ruby & Sapphire Jewels,' Grade 710, 16S, GF OF original SB&B case, SW-LS, WE-DSD, fully capped lever escapement, jeweled barrel, diamond endstone, 23J, GJS, adjusted 6 positions, wide transverse band pattern NI damascene, s#2474821. Rare top grade Illinois watch with a total production of 210 made, this example being the 21st watch of the second of two production runs.	3,000.00
103	APW - Illinois, Pennsylvania Special '26 Ruby Jewels,' GF OF case, SW-LS, WE-DS 'Pennsylvania Special' dial with Gothic numerals, fully capped lever escapement, capped third wheel, jeweled barrel arbor, internally jeweled barrel, 26J, two-tone damascene with bright spotted pattern intersected by concentric gilt rings, s#1742860. Total production of the 26J Pennsylvania Special is believed to be 135 made, with serials spanning from 1742801 to 1742935. Sold in our galleries in 2012.	4,000.00
104	APW - Illinois, Pennsylvania Special '23 Ruby Jewels,' 16S, GF OF NAWCo 'Security' Railroad Model case with inner snap off lid below threaded rear, SW-LS, WE-DS 'Pennsylvania Special' dial with Gothic numerals, fully capped lever escapement, jeweled barrel, 23J, two-tone damascene with bright spotted pattern intersected by concentric gilt rings, s#2406971, comes with small attached GF chain and clip. Rare high grade private label, this example has an extremely well preserved movement two-tone color and luster. While the damascene pattern of this movement is the usual for most other high grade Illinois Pennsylvania Specials, this is actually the first example of this pattern we've seen with the 23 jewel 16 size Getty model version of the Pennsylvania Special as the few other examples of this watch we've observed have had a much simpler style of two-tone wavy ribbon damascene (a pattern being identical to that found on early Sangamo grade mvts, see page 46 of Roy Ehrhardt's '1979 Pri	6,800.00
105	APW - Nashua Watch Co, Nashua, NH, No 1233, 20S, silver HC recase, KWKS, unsigned WE-SSD, lever escapement, 15J, fully signed gilt mvt, s#1233. Upon partial disassembly, this example reveals the correct expected assembly number of '233' marked on the underside of the balance cock and '233' marked on the mvt dial plate which is consistent with other known 15J examples having the last three serial digits as their assembly numbers. The Nashua Watch Co was formed in 1859 with the departure from the American Watch Co of some of Waltham's most talented employees (including N.P. Stratton, B.D. Bingham, C.S. Mosley, J.H. Gerry, and Charles Van Der Woerd) to form this new venture with the goal of making the finest machine made watch yet produced in America. In terms of quality of product Nashua was entirely successful with the production of superb 3/4 plate watches in two grades, a 19 jewel model with known examples being in the 1001-1099 serial range and a 15 jewel model with known examples	10,000.00

LOT#	DESCRIPTION	PRICE
106	APW - Seth Thomas, 'Railway' 25J, likely a prototype or model piece, 18S, GF OF case, SW-LS, WE-DS Montgomery dial with Canadian market 13-24 hour indications, fully capped lever escapement, cap jeweled upper pivots on third and fourth wheels, jeweled barrel arbor, 25J, two-tone gilt and NI ornate damascene in predominantly gilt color, no serial on main plate but a marking of '8.1.99' which presumably signifies the date of August 1st, 1899. A very intriguing watch that we believe likely represents a prototype for the regular production 25 jewel Maiden Lane, this watch is actually the same piece that is pictured in the yearly price guide and described as being a '28 jewel.' Upon disassembly we have confirmed that the watch at present has a jewel count of 25, but the possibility for it having once been higher jeweled does exist as the dial plate has a bushing peened in place beneath the barrel that may have replaced a jewel which would yield an original total of 26 jewel. Beyond this t	3,200.00
107	APW - South Bend, Polaris, Grade 295 21J, 16S, 14K OF original case with distinctive South Bend signature ring on gold cuvette, correct case style to this watch, initial on rear shield, SW-LS, WE-SSD signed 'South Bend Polaris,' fully capped lever escapement, 21J, argyle pattern NI damascene, s#518400. Gross weight of assembled watch 57.2 dwt (89.1 g). Rare top grade piece that was South Bend's premier regular production watch, the total production of the South Bend Polaris is believed to be only approximately 500 made and finding intact examples such as this with original dial and case is quite challenging.	3,200.00
108	APW - Waltham, 'American Watch Co' grade, 21J, model 1872, heavy 18K original AWCo HC with gold cuvette, SW-LS, glass enamel SSD with distinctive Old English AWCo signature characteristic to this grade, fully capped lever escapement, 21J, decorative 'gold dome' around balance jewel setting, ornate quilted pattern NI damascene, s#1448962. Gross weight of assembled watch 81.1 dwt (126.0 g).	5,000.00
109	APW - Waltham, Appleton Tracy & Co, model 1860, 16S, rare and heavy 18K original Baldwin & Co reversible case marked with 1858 Patent date inside the beautifully engraved inner surface of the latched lid, central case body pivots to put watch in either open face or hunting case form with the body released for pivoting by depressing pendant button while latched lid is open, KWKS, WE-SSD, lever escapement, 15J, gilt mvt, s#280624. Gross weight of assembled watch 84.6 dwt (131.6 g). Rare and very desirable early case, by pivoting on a 45 degree axis the Baldwin reversible case orients the watch with its pendant in the correct position for both open face and hunting case form.	4,000.00
110	EPW - Unsigned Swiss high-grade minute-repeating, four-year perpetual-calendar moonphase chronograph, 58mm, 18K rose gold original HC with gold cuvette in addition to glazed observation cover over mvt, slide at 6 position, chronograph button at 12, SW-LS, WED with four-year calendar at 12, date at 3, moonphase on enameled disc with constant seconds at 6, days of week in French at 9, all gold Louis XV style hands, fully capped lever escapement with overcoil hairspring and counterpoised pallet, fully jeweled repeat train through the hammers, at least 32J, narrow lined fausses-cotes NI damascene, s#1296 within covers. Gross weight of assembled watch 111.2 dwt (172.9 g). NOTE - When using correctors to set calendar functions, advance time to approximately 2PM. When adjusting months on perpetual calendar, advance time to approx 2AM, then use lever to advance months - Only at 2AM does the count raise on the month disc to allow passage all around, so do not advance these features at any other	18,000.00
111	EPW - A Lange, Dresden, quality 1a made for and only signed by Tiffany & Co, New York, 51mm, factory sidwinder format in 18K yellow gold OF original case with observation cuvette, 1876 presentation to Civil War veteran 'John J McCook' within back, monogram letters on rear, SW-shift-locking-LS, WE-SSD, fully capped lever escapement, gold pallet and escape wheel, 20J, GJS, gilt mvt, s#7688, triple signed Tiffany. Gross weight of assembled watch 77.3 dwt (120.2 g). John James McCook, a corporate lawyer, businessman and soldier, was the youngest of the famed 'Fighting McCooks' of Ohio, whose family had 15 members in the war. Part of Grant's army, he was severely wounded at Spotsylvania. This information and more is provided with a Wikipedia printout of his biography.	3,000.00
112	EPW - A P Walsh, London, marketed by Samuel Hammond & Co New York, fusee pocket chronometer with winding indicator in gold, 51mm, 18K rose gold OF original case with Old English 'D' hallmark, initials on case rear, KWKS, WE-SSD with retailer signature, fully capped free-sprung spring detent chronometer escapement with helical HS, diamond endstone, 12J at least, signed gilt mvt, s#200 with matching number on case. Gross weight of assembled watch 74.8 dwt (116.4 g).	3,400.00
113	EPW - Chevalier & Compagnie, verge fusee, 48mm, gilt OF original consular case with beautiful enameled scene on back of a standing young man reaching for a seated young woman with dog set against a background of deep blue colored guilloche enamel, case also with additional enameling to perimeters of front/rear and to the pendant in white weave pattern enamel and in blue guilloche enamel, KWKS, WED with winding aperture at 2, verge escapement, gilt mvt with pierced & engraved foliate scrolled two-footed balance bridge, s#6856. Gross weight of assembled watch 44.9 dwt (69.8g).	2,600.00
114	EPW - Daniel Quare, London, verge fusee, 53mm, at least 18K gold consular case with shagreen bezel and back, KWKS, gold champlève dial signed 'Quare' and 'London,' dial with stippled background and with winding aperture at 3, poker & beetle hands, verge escapement, gilt mvt with pierced and engraved foliate scrolled balance cock, pierced tulip pillars, s#2112, ca 1710 per consignor's notes. Gross weight of assembled watch 84.8 dwt (131.9 g).	4,000.00
115	EPW - John Blundell, Greenwich, (apprenticed to George Nau December 2, 1678, active until ca 1730), rare early fusee clockwatch, 55mm, mid-18th century coin silver OF original pair cases with finely engraved and pierced foliate scrolling to both inner and outer, grotesque masks at base of inner and below button on outer, no hallmarks but the inner under bell has the mark, '14/5 1668,' most likely a repair reference, KWKS, WED replaced in the mid 18th century, poker and beetle hands of the same date as the dial, verge escapement, gilt two-train mvt with pierced & engraved foliate scrolled balance cock, no serial number, ca 1720. George Nau, who Baillie says died in 1702, became a brother of the Clockmaker Company in 1675, a status sometimes given to 'aliens,' or foreigners, as Nau's surname suggests, and was a jeweler and casemaker. Blundell became his apprentice only three years after establishment of the Observatory, and made clocks as well as watches. Sold in our galleries in 2012.	3,800.00
116	EPW - John Jardin, London, superb late 18th century gold, enamel, and pearl cased cylinder fusee with matched chain and fitted box, 58mm, very heavy gold OF pair case testing at least 20K with a gold-clad outer ring forming a band of 7mm front to rear thickness with hinge at left side and spring button release at right side, the central is spectacular with green guilloche enamel to front and rear as well as elegant seed pearl borders and this case bears an incuse T W in addition to London hallmarks for 1794 and the duty mark from this era of King George III, the innermost bears an incuse I R in addition to London hallmarks for 1794 and the duty mark from this era of King George III, KWKS, WED, cylinder escapement, DES, gilt mvt with pierced & foliate engraved balance cock, gilt locking dust-cap marked on inside with incuse L F, s#1353. Comes with a matching gold-clad, gold, green guilloche enamel, white enamel, and seed pearl chatelaine having matching key, fob, and tassels; tang of c	0.00
117	EPW - L Leroy & Cie, Paris, rare prototype or exhibition self-winding timepiece of the pedometer type, 54mm, 18K OF purpose-fitted early 19th century French case, SW-SS, gold canister Tavernier style dial of the same period as the case, lever escapement, 15J, gilt mvt, without number, the spring-loaded weight signed and dated 1922. Chapuis and Jaquet ('History of the Self-Winding Watch') document the production of a handful of these timepieces by Leroy, produced from 1922-1929; they note only one series of seven pocket watches of varying styles and complication, all in early to later 19th century style cases of various thickness, signed on the bobs with serial number 1 to 7 and the name of the purchaser, the latter considered connoisseurs of older horological craft. At the same time, they show wristlet watches of navette shape, one also dated 1922 and marked 'Système Remontage Automatique' (automatic winding system). The 'Art of Horology in France' Antiquorum catalog notes that the two	2,800.00

LOT#	DESCRIPTION	PRICE
118	EPW - Mermod, Jaccard & Co, St Louis, Swiss rare split-seconds chronograph with 30 minute register and constant seconds, 52mm, heavy 18K original Becker HC with gold cuvette in addition to glazed observation cover over mvt, SW-LS, WED with sunken seconds and register, lever escapement, at least 17J, fausses-côtes NI damascene, s#63343. The ébauche was made by 'Lecoultrre & Cie' (note the lower case `c`), a factory founded at Le Sentier in 1849 by Charles Antoine Lecoultrre, who invented the first automated pinion cutter in 1823. Some of these carry the Lecoultrre & Cie signature directly, while others bear names of various famous makers. Gross weight of assembled watch 98.4 dwt (152.8 g).	2,400.00

190	APW - Dudley Masonic, model 1, 19J, 14S, yellow GF OF original snap-back display case, SW-SS, signed silvered dial, lever escapement, jeweled barrel arbor, 19 dark red ruby jewels, GJS, gilt mvt with Masonic themes including engraved Holy Bible on winding bridge, s#1610.	2,200.00
191	APW - Dudley Masonic, model 2, 19J, 12S, yellow RGP OF original screw back and bezel display case, SW-SS, signed silvered dial, lever escapement, jeweled barrel arbor, 19 dark red ruby jewels, GJS, gilt mvt with Masonic themes including applied Holy Bible on winding bridge, s#5035.	1,900.00
192	APW - Dudley Masonic, model 2, 19J, 12S, yellow GF OF original snap-back display case, SW-SS, signed silvered dial with gold Masonic symbols in place of hour numerals, lever escapement, jeweled barrel arbor, 19 dark red ruby jewels, GJS, gilt mvt with Masonic themes including applied Holy Bible on winding bridge, s#4357.	2,400.00
193	APW - E Howard & Co, Boston, Series I, model 1858-A (Geller system), N-S (just over 19S), 14K rose gold tested period J H Johnson, NY, recased HC with plugged and redrilled ET gold cuvette, incuse eagle hallmark, KWKS, WE-SSD with two-line arched signature, lever escapement, 15J, gilt mvt, s#825, assembly #25. Gross weight of assembled watch 69.9 dwt (108.7 g).	1,500.00
194	APW - E Howard & Co, Boston, Series I, model 1858-A (Geller system), N-S (just over 19S), well fitting heavy coin silver recased HC with extra locator pin holes, ET silver cuvette, CEH&Co (Charles E Hale) maker's marks neatly over-stamped with lines, perhaps after sale of the company, KWKS, WE-SSD with two-line signature, lever escapement with upright pallets, 15J, gilt mvt, s#996. Gross weight of assembled watch 110.2 dwt (171.4 g). The balance cock, unlike all but the earliest series I Howards, has consistent assembly #96.	800.00
195	APW - E Howard & Co, Boston, Series I, model 1858-B (Geller system) with type B plates identified by Geller as having only three lenticular cutouts, N-S (just over 19S), low-karat gold period recased model-specific 'JH' marked HC (probably John Henry, Philadelphia, active 1856-1860), the unaltered ET gold cuvette aligned perfectly, the mvt with internal case screws as well as another threaded hole in back plate for different casing option, now with dummy screw, KWKS, WE-SSD with two-line script signature, lever escapement, 15J, gilt mvt, s#1424, matching assembly #24 under cock. Gross weight of assembled watch 82.0 dwt (127.5 g).	1,700.00

LOT#	DESCRIPTION	PRICE
196	APW - E Howard & Co, Boston, Series II, N-S (just over 19S), original B&Co silver HC, KWKS, WE-SSD, lever escapement, 15J, gilt mvt, s#1884. Total production of the Series II was approximately 1200 made, this example has the scarce smaller style barrel bridge used only among the first 150 to 200 examples.	1,100.00
197	APW - E Howard & Co, Boston, Series II, N-S (just over 19S), 14-18K OF period T&S (Thiery & Serex) case with spectacular ET gold cuvette, holes aligning perfectly, KWKS, WE-SSD with two-line signature, lever escapement, 15J, gilt mvt, s#2273, with modern E Howard pouch. Gross weight of assembled watch 64.2 dwt (100.0 g). The total production of the Series II was approximately 1200 made, and all were made in the 1860-1862 period, so the watch dates either slightly before the American Civil War or early on in the war. Thiery & Serex operated out of Cambridgeport next to Boston from 1858 to 1864, while Charles Thiery began work in 1844.	4,400.00
198	APW - E Howard & Co, Boston, Series III, N-S (just over 19S), 18K original CEH&Co HC with gold cuvette, KWKS, WE-SSD, lever escapement, 15J, gilt mvt, s#8753. Gross weight of assembled watch 93.0 dwt (144.7 g).	2,400.00
199	APW - E Howard & Co, Boston, Series III, N-S (just over 19S), 18K yellow gold original W&S HC with ET gold cuvette, KWKS, WE-SSD, lever escapement, 15J, gilt mvt, s#21459. Gross weight of assembled watch 79.4 dwt (123.5 g).	1,700.00
200	APW - E Howard & Co, Boston, Series IV, adjusted, N-S (just over 19S), very heavy 18K `Joslin & Park` original HC with ET gold cuvette engraved `Presented to C Hillman Brough by his Father, April 28, 1894, for Honors won at College,` crowned `18` stamp with `D` date letter, SW-SS, WE-SSD, lever escapement, 15J, screwed-down raised jewel settings, rayed scalloped pattern NI damascene, s#40343. Gross weight of assembled watch 103.7 dwt (161.3 g).	2,600.00
201	APW - E Howard & Co, Boston, Series IV, adjusted with rayed damascene, N-S (just over 19S), later heavy 14K rose gold EH&Co recased HC, name engraved on gold cuvette, SW-SS, WE-SSD, lever escapement, 15J, screwed-in jewel settings, rayed pattern NI damascene with origin in center, s#40355. Gross weight of assembled watch 88.7 dwt (138.0 g).	1,700.00
202	APW - E Howard & Co, Boston, Series IV with Abbott's conversion, N-S (just over 19S), very heavy 14-18K `Joslin & Park` original HC with crowned `18` mark, heavy scalloped band without weighting, the ET gold cuvette with professionally plugged holes, unprofessional conversion of mvt to SW-LS, WE-SSD, lever escapement, 15J, gilt mvt, s#31651. The intermediary winding arbor was removed to accept the conversion mechanism, leaving an irregular hole inside the steel collar and the winding clutch visible beneath. Not a pretty site. Gross weight of assembled watch 86.7 dwt (134.9 g).	1,600.00
203	APW - E Howard & Co, Boston, Series IV, N-S (just over 19S), box hinge 14K original HC with gold cuvette, case marked with Jeannot & Shiebler maker monogram inside the cuvette and with `BA&Co` marking inside rear lid likely for the original retailer, monogram initials on case front, SW-SS, WE-SSD with distinct Josiah Moorhouse characteristics but back not checked for signature, lever escapement, 15J, NI damascene, s#47698. Gross weight of assembled watch 89.2 dwt (138.7 g).	1,800.00
204	APW - E Howard & Co, Boston, Series IV, N-S (just over 19S), heavy warranted 14K multicolor rose gold US Assay original true box-hinged HC now converted to OF, leaving mvt in sidewinder format, the internal bezel removed in favor of the new reflector ring, gold cuvette in addition to glazed observation cover over mvt, the back with rare but worn dramatic scene of Native American Indian about to stab the mountain lion that is attacking him, SW-SS, WE-SSD, lever escapement, 15J, GJS, gilt mvt, s#44317. Inside the back is a photograph of a young couple from the 1890's, judging by costume. Gross weight of assembled watch 91.1 dwt (141.7 g).	1,600.00
205	APW - E Howard & Co, Boston, Series V, L-S (just over 15S), heavy 14K EH&Co original HC with gold cuvette, SW-SS, WE-SSD, lever escapement, 15J, gilt mvt, s#55811. Gross weight of assembled watch 76.1 dwt (118.4 g).	1,400.00
206	APW - E Howard & Co, Boston, Series V, adjusted, L-S (just over 15S), HC model mvt cased as sidewinder in heavy 14K OF original E Howard case with gold cuvette bearing 1902 presentation, initials on case rear, SW-SS, WE-SSD, lever escapement, 15J, NI damascene, s#62712. Gross weight of assembled watch 73.6 dwt (114.6 g).	1,300.00
207	APW - E Howard & Co, Boston, Series VI, N-S (just over 19S), heavy warranted 14K EH&Co original HC with gold cuvette, very unusual and beautiful decoration in relief, SW-SS, WE-SSD, lever escapement, 15J, GJS, gilt mvt, s#207174. Gross weight of assembled watch 86.0 dwt (133.7 g).	1,700.00
208	APW - E Howard & Co, Boston, Series VII, adjusted, deer grade, N-S (just over 19S), heavy 14K EH&Co original HC, SW-SS, WE-SSD, lever escapement, 15J, GJS, very unusual swirl pattern NI damascene with snowflake border, s#225424. Gross weight of assembled watch 92.9 dwt (144.4 g).	1,600.00
209	APW - E Howard & Co, Boston, Series VII, adjusted to heat & cold, horse grade, N-S (just over 19S), heavy warranted 14K CWMfgCo original HC with gold cuvette in addition to glazed observation cover over mvt, SW-SS, WE-SSD, lever escapement, 15J, GJS, parallel double-arcaded pattern NI damascene, s#213094. Gross weight of assembled watch 95.1 dwt (147.9 g).	1,700.00
210	APW - E Howard & Co, Boston, Series VII, hound grade, N-S (just over 19S), heavy 14K EH&Co original HC with gold cuvette and weighted band, SW-SS, WE-SSD, lever escapement, 15J, GJS, gilt mvt, s#221297. Gross weight of assembled watch 95.1 dwt (147.7 g).	1,400.00
211	APW - E Howard & Co, Boston, Series VII, Split-plate, adjusted, N-S (just over 19S), GF OF original Keystone J Boss case, SW-SS, elegant WE-DSD with red and black minute indications, lever escapement, 17J, GJS, lined rib pattern NI damascene, s#309180, together with GF chain and heart fob.	1,800.00
212	APW - E Howard & Co, Boston, Series VIII, N-S (just over 19S), very heavy and mint 14K gold EH&Co original OF case with gold cuvette, SW-SS, WE-SSD with Moorhouse style decorative elements, Louis XV hands, lever escapement, 15J, GJS, gilt mvt, s#303017. Gross weight of assembled watch 90.0 dwt (140.0 g). An exceptional example with most impressive case.	2,400.00
213	APW - E Howard & Co, Boston, Series IX, N-S (just over 19S), heavy 14K EH&Co original HC with gold cuvette, case also marked for retailer `Lambert Bros,` SW-SS, WE-SSD, lever escapement, 15J, gilt mvt, s#403629. Gross weight of assembled watch 95.0 dwt (147.7 g). Very attractive example with an exceptionally strong case, the Lambert Bros were jewelers located in New York City at 58th St and 3rd Avenue.	1,700.00
214	APW - E Howard & Co, Boston, Series IX, hound grade, N-S (just over 19S), heavy 14K EH&Co original HC with gold cuvette, SW-SS, WE-SSD, lever escapement, 15J, gilt mvt, s#401723. Gross weight of assembled watch 91.5 dwt (142.3 g).	1,400.00
215	APW - Elgin, Veritas 23J with very scarce Montgomery 1920 Patent dial, Grade 453, 16S, 14K OF recase with gold cuvette, SW-LS, WE-SSD, fully capped lever escapement, jeweled barrel arbor, 23J, decorative gold disk around balance jewel setting, fishscale center pattern NI damascene NI damascene, s#22504701. Gross weight of assembled watch 58.1 dwt (90.4 g). This very unusual dial arrangement by H.S. Montgomery was granted US Design Patent 54950 on April 20th, 1920; dials of this design were made for a number of American watch makes but all of these are quite scarce.	2,800.00
216	APW - Elgin, Veritas 23J with winding indicator, 18S, GF OF case, SW-LS, WE-DSD, fully capped lever escapement, 23J, DES, decorative gold disk around balance jewel setting, fishscale center pattern NI damascene, s#16022336. Very fine example of Elgin's top grade wind indicator in scarcer 18S version.	1,800.00
217	APW - Elgin, 18S, 14K box hinge drum style HC recase with gold cuvette, SW-LS, WE-SSD, lever escapement, 11J, NI damascene, s#2238588. Gross weight of assembled watch 95.2 dwt (148.0 g).	1,800.00

LOT#	DESCRIPTION	PRICE
218	APW - Elgin, 16S, 14K multicolor false box hinge HC recase with a rose gold buck in a floral setting, gold cuvette, SW-SS, fancy WE-SSD with silver foil accents and light blue color to center, lever escapement, 15J, NI damascene, s#7876092 . Gross weight of assembled watch 59.8 dwt (93.0 g).	1,300.00
219	APW - Elgin, 16S, 14K drum style original BWCCo HC with engine turned gold cuvette, very attractive engravings, SW-LS, WE-SSD, lever escapement, 11J, gilt mvt, s#3717486. Gross weight of assembled watch 70.3 dwt (109.4 g).	1,000.00
220	APW - Elgin, 6S, 18K drum style original HC with gold cuvette, rear engraved with buck, SW-LS, WE-SSD, lever escapement, 13J, gilt mvt, s#919886. Gross weight of assembled watch 46.1 dwt (71.7 g).	900.00
221	APW - Elgin, BW Raymond, 18S, 14K scalloped edge HC recase with gold cuvette engraved `D Sannamann from his Wife and Daughter on his 50th Birthday, Feb 8, 1893,` SW-LS, fancy WE-SSD with two colors of metallic foil highlights against a light purple background, lever escapement, 17J, NI damascene, s#5571889. Gross weight of assembled watch 88.8 dwt (138.1 g).	1,800.00
222	APW - Elgin, BW Raymond, 18S, 14K HC recase with attractive engraving and with gold cuvette, SW-LS, WE-SSD, lever escapement, 17J, NI damascene, s#9406113. Gross weight of assembled watch 86.8 dwt (135.0 g).	1,500.00
223	APW - Elgin, BW Raymond, Grade 341, 14K original HC with gold cuvette, very attractive case engraving, SW-LS, WE-DSD, lever escapement, 17J, three finger bridge mvt, NI damascene, s#12283804. Gross weight of assembled watch 60.3 dwt (93.8 g). Uncommon movement with a total production of 2000 made, the 341 was the only grade of BW Raymond to be made in a hunting case three finger bridge style.	850.00
224	APW - Elgin, convertible Grade 50, 16S, 14K OF recase with latched front and hunting bezel for ease of access to lever, SW-LS, WE-DSD with impressed center, lever escapement, 15J, barred and microwave center pattern NI damascene, s#896617. Gross weight of assembled watch 69.5 dwt (108.1 g).	900.00
225	APW - Elgin, GM Wheeler, 18S, 14K box hinge multicolor HC recase with bird on rear, gold cuvette, SW-LS, unsigned fancy enamel dial with two colors of metal foil accents and a pink background behind the hour chapter, lever escapement, 15J, gilt mvt, s#3358148. Gross weight of assembled watch 91.4 dwt (142.1 g).	1,600.00
226	APW - Hamilton, Grade 950 23J in 14K case with original box and certificate, 16S, heavy 14K OF original case with flush hinges, gold cuvette bearing Hamilton signature ring, SW-SS, WE-DSD, fully capped lever escapement, jeweled barrel arbor, 23J, striped NI damascene, s#1154523 on mvt, s#6826145 on case, both serials correctly matched to original box certificate. Gross weight of assembled watch 63.7 dwt (98.9 g). Superb complete example of this top grade Hamilton in the less common pendant-set version; the original certificate is marked with a \$145 retail price, quite a hefty sum in 1921 when this run of Grade 950P was produced.	1,600.00
227	APW - Hamilton, Grade 950 Elinvar 23J, from the first production run, 16S, GF OF Hamilton Model 17 bar over crown case, SW-LS, WE Montgomery DSD with script Hamilton signature style of earlier vintage, fully capped lever escapement with AMAC balance and blued Elinvar HS, jeweled barrel arbor, 23J, GJS, GCW, ribbed and lined pattern NI damascene, s#2611700. Watch comes with unmarked period shipping box.	800.00
228	APW - Hamilton, Grade 950B 23J, 16S, GF OF original Hamilton Model 17 bar over crown case, SW-LS, WE-DSD with Canadian market 13 to 24 hour indications, fully capped lever escapement, jeweled barrel arbor, AMAC balance with Elinvar HS, 23J, striped pattern NI damascene, s#S4784. Very high condition example of Hamilton's top grade Elinvar railroad watch.	950.00
229	APW - Hamilton, Grade 950B 23J, 16S, GF OF original Hamilton Model A case, SW-LS, WE-DS Hamilton Railway Special marked dial, fully capped lever escapement with AMAC balance system and Elinvar HS, jeweled barrel arbor, 23J, pinstripe pattern NI damascene, s#S6738, comes with Hamilton marked fitted wooden presentation box.	900.00
230	APW - Hamilton, Hayden W Wheeler 21J, 16S, very heavy 14K original Dubois Watch Case Co HC with Hayden W Wheeler retailer marking and with elegant features of Jurgensen style lips and five-knuckle front and rear hinges, gold cuvette is engraved `D.F. Caldwell Mch 18-1904` and front of case is engraved with fancy DFC initials, SW-SS, WE-DS unsigned dial, fully capped lever escapement, 21J, wavy pattern NI damascene, s#175121. Gross weight of assembled watch 79.5 dwt (123.6 g). Very impressive original example of this rare high grade watch, the 21 jewel hunting case Hayden W Wheeler model movement has a total production of only 250 made.	1,600.00
231	APW - Howard Keystone, unmarked Series 0 23J, heavy 18K OF case with Jurgensen lips, gold cuvette with Howard signature ring, rear of case with fancy initials, SW-SS, WE-SSD, fully capped lever escapement, jeweled barrel arbor, 23J, striped pattern NI damascene, s#1086360. Gross weight of assembled watch 61.2 dwt (95.0 g).	1,400.00
232	APW - Howard Keystone, unmarked Series 0 23J with original boxes, 16S, 14K OF original case with Howard signature ring and 1910 inscription on gold cuvette, initial on case back, Jurgensen case lips, SW-LS, WE-DSD with marginal minutes in radial orientation, fully capped lever escapement, jeweled barrel arbor, 23J, striped NI damascene, s#1078744 on mvt and s#116620 on case correctly matching to both inner and outer boxes. Gross weight of assembled watch 62.2 dwt (96.7 g).	1,200.00
233	APW - Howard Keystone, unmarked Series 0 23J with scarce damascene, 16S, 14K original HC with Jurgensen lips, gold cuvette bearing Howard signature ring and engraved `To E A Douglas By His Friends of the National Tube Co July 31 - 1909,` rear of case with fancy E A D initials, SW-SS, WE-DSD with blue minute chapter, fully capped lever escapement, jeweled barrel arbor, 23J, scarce argyle pattern NI damascene, s#953059 making this the 59th watch from the first production run of 23J Keystone-Howards. Gross weight of assembled watch 66.1 dwt (102.8 g). Scarce and very attractive damascene, this pattern was only used among Series 0 mvts with serials in the 953001 to 954000 range and per the excellent info at the NAWCC `Encyclopedia` website this HC version with this damascene appears to be substantially scarcer with the division of this run of 1000 watches being estimated at 250 made of the hunting case and 750 made of the open face.	1,300.00
234	APW - Howard Keystone, unmarked Series 0 23J, 16S, 14K original HC with Howard signature ring on gold cuvette, SW-SS, WE-DSD, fully capped lever escapement, ruby banking pins, 23J, striped NI damascene, s#1143003. Gross weight of assembled watch 54.3 dwt (84.5 g).	950.00
235	APW - Illinois, `Ch Hoenninger, New York` marked on dial and mvt, 18S, 14K box hinge drum style original HC with gold cuvette, SW-LS, WE-SSD, lever escapement, 15J, NI damascene, s#1251774. Gross weight of assembled watch 86.9 dwt (135.2 g).	1,500.00
236	APW - Illinois, `The Union Pacific, N Gamse, New York` marked on both dial and mvt, 16S, 25-year GF J Boss original HC with American eagle decoration, SW-SS, WE-DSD, lever escapement, 17J, pinstripe pattern NI damascene, s#3267739, in nicely customized antique rosewood box with `Union Pacific Railroad Co` cut into top, and reproduction enamel pin within, a nice tribute to the railroad.	950.00
237	APW - Illinois, rare 24J Grade 64, mvt and dial marked for A N Anderson, Minneapolis, Minn, 18S, GF HC recase with very unusual rear engraving of workers cutting a tree with a two man saw, SW-LS, WE-DSD with red signature, fully capped lever escapement, capped third wheel, 24J, two-tone damascene, s#1375334. Very rare movement with only 50 total production, it is likely that this full quantity was made and marked for AN Anderson.	350.00

LOT#	DESCRIPTION	PRICE
238	APW - Illinois, Bunn Special Grade 163A, 23J 60 Hour Elinvar, Type IIB marking, 16S, two-tone white and green GF OF original Bunn Special Model 173 case with factory executed pattern back engraving, SW-LS, WE-DSD marked `Illinois Bunn Special 23 Jewel 60 Hour,` fully capped lever escapement with AMAC balance and blued Elinvar HS, jeweled barrel arbor, 23J, GJS, GT, interrupted ray pattern NI damascene, s#5448331. A top example with scarce and very desirable two-tone pattern back case, this particular engraving design is identified as `Curtain Pattern` in Mike Chamelin's comprehensive Bunn Special book.	2,800.00
239	APW - Illinois, Bunn Special Grade 163 with rare Montgomery `Flying J` dial, 23J 60 Hour, Type I marking, 16S, GF OF original Bunn Special Model 206 case with bracketed band, SW-LS, WE Montgomery DSD marked `Illinois 23J Bunn Special 60 Hour 6 Positions,` fully capped lever escapement, jeweled barrel arbor, 23J, GJS, GT, rayed pattern NI damascene, s#5375153, with modern Bunn Special pouch. Considered the holy grail of Bunn Special 16 size dials, this example in top condition.	3,600.00
240	APW - Illinois, rare hunting case Bunn Special 23J, 14K HC recase with gold cuvette, SW-LS, WE-DSD, fully capped lever escapement, jeweled barrel, 23J, bright spotted pattern NI damascene, s#2502458. Gross weight of assembled watch 80.2 dwt (124.7 g). Hunting case versions of the 23 jewel Bunn Special are rare, with this particular variant being the final style of 18 size 23 jewel hunting case and having an estimate total production of only 200 made.	2,000.00
241	APW - Illinois, scarce hunting case Bunn Special 21J, model 8, 16S, 14K HC recase with gold cuvette engraved with name, initial on front shield, SW-LS, WE-DSD, fully capped lever escapement, 21J, rayed pattern NI damascene, s#3347887. Gross weight of assembled watch 66.7 dwt (103.8 g). Scarce watch with a total production of 650 made per Mike Chamelin's Bunn Special book, this movement is identified as `Variant C` per the book's classification system and is the third out of four variants of rayed damascene Bunn Special 21J 16S HC.	1,000.00
242	APW - Illinois, Bunn Special Grade 163A, 23J 60 Hour Elinvar, Type IIB marking, 16S, GF OF original `Pyramid Bow` style case, initials on rear, SW-LS, WE-DSD, fully capped lever escapement with AMAC balance and blued Elinvar HS, jeweled barrel arbor, 23J, interrupted ray pattern NI damascene, s#5448872.	1,400.00
243	APW - Illinois, scarce hunting case Bunn Special 21J, model 8, 16S, 14K HC recase with gold cuvette, SW-LS, WE-DSD, fully capped lever escapement, 21J, rayed pattern NI damascene, s#4216321. Gross weight of assembled watch 56.1 dwt (87.4 g). Scarce watch with a total production of 700 made per Mike Chamelin's Bunn Special book, this movement is identified as `Variant D` per the book's classification system and is the final type of the four variants of rayed damascene Bunn Special 21J 16S HC.	800.00
244	APW - Illinois, Bunn Special Grade 161A, 21J 60 Hour Elinvar, Type IIP marking, 16S, two-tone white and green GF OF original Bunn Special Model 28 case, name engraved in rear, SW-LS, WE-DSD marked `Illinois Bunn Special 21 Jewel 60 Hour,` fully capped lever escapement, replacement non-Elinvar balance and HS, 21J, interrupted ray pattern NI damascene, s#5561517.	900.00
245	APW - Illinois, Bunn Special 23J 60 Hour, Type III marking, 16S, white GF OF Bunn Special Model 28 recase, SW-LS, WE Montgomery DSD marked `Illinois Bunn Special 23 Jewel 60 Hour,` fully capped lever escapement, jeweled barrel arbor, 23J, GJS, GT, rayed pattern NI damascene, s#5305077. Movement is marked on the train bridge with `Illinois Watch` (rather than `Illinois Watch Co`), this shortened version of the factory marking is less common among the Type III variant being only found among the late portion of its production.	1,000.00
246	APW - Illinois, Bunn Special Grade 161A, 21J 60 Hour Elinvar, Type IIB marking, 16S, white GF OF original Bunn Special Model 206 case with bracketed band, SW-LS, fully signed WE-DSD with `21 Jewel 60 Hour` marking, fully capped lever escapement with AMAC balance and blued Elinvar HS, 21J, GJS, GT, interrupted ray pattern NI damascene, s#5496261.	950.00
247	APW - Illinois, Pennsylvania Special `21 Ruby Jewels,` 18S, GF OF original case, SW-LS, WE-DS `Pennsylvania Special` dial with Gothic numerals, fully capped lever escapement, 21J, two-tone damascene with bright spotted pattern intersected by concentric gilt rings, s#1934096. Rare Bunn Special grade private label, all 21J 18S Pennsylvania Special examples we have seen in this grade have been in either the 1742701 to 1742800 or the 1934001 to 1934100 serial ranges suggesting a possible total production of only 200 made.	2,200.00
248	APW - Illinois, Sangamo 21J, 16S, 14K HC recase with gold cuvette, rear of case engraved with scene of a hunter shooting at a running buck, relatively modern presentation engraving on cuvette and inside lid, SW-LS, WE-DSD, fully capped lever escapement, 21J, bright spotted pattern NI damascene, s#1745855. Gross weight of assembled watch 72.9 dwt (113.3 g).	1,100.00
249	APW - Illinois, Sangamo Special 23J, unmarked 60 Hour, 17S, green GF OF original Sangamo Special model stiff bow case with signature ring on cuvette, SW-LS, WE-DS Heavy Gothic Montgomery 17S dial, fully capped lever escapement, jeweled barrel arbor, 23J, broad transverse band pattern NI damascene, s#4642126.	1,100.00
250	APW - Illinois, Washington Watch Co Lafayette 24J, 18S, GF OF original case, SW-LS, WE-DSD, fully capped lever escapement, capped third wheel, jeweled barrel arbor, 24J, NI damascene, s#1807487. Scarce high grade private label sold by the Montgomery Ward & Co, total production of this Bunn Special grade 24 jewel open face Lafayette is believed to be 720 made.	800.00
251	APW - Illinois, Washington Watch Co Lafayette 24J, 18S, GF OF false box hinge Dueber recase, SW-LS, WE-DSD, fully capped lever escapement, jeweled third wheel, jeweled barrel arbor, 24J, NI damascene, s#2592157. Scarce high grade private label sold by the Montgomery Ward & Co, total production of this Bunn Special grade 24 jewel open face Lafayette is believed to be 720 made.	800.00
252	APW - Otay Watch Co, 18S, 14K HC recase with gold cuvette and weighted band, SW-LS, WED, lever escapement, 15J, gilt mvt, s#30094. Gross weight of assembled watch 96.8 dwt (150.5 g). This scarce and short-lived southern California maker was in production from May to November of 1890, with a total production of only about 1200 watches made.	1,900.00
253	APW - Rockford, Grade 800 24J, 18S, GF original HC with faceted band, SW-LS, WE-DSD, fully capped lever escapement, capped third wheel, jeweled barrel arbor in distinctive `eyeball` style setting, 24J, fishscale pattern NI damascene, s#542146. Scarce high grade watch with an estimated total production of only 500 made per Roy Ehrhardt's Rockford book.	1,300.00
254	APW - Rockford, marked with low s#44, mvt marked `M M Pomeroy, Denver, Col,` mvt also marked `15 R` on barrel bridge, 18S, HC model mvt cased as sidewinder in NI OF glassback case which is as made without bow, SW-LS transitional style with retained KW arbor on barrel, WE-SSD, lever escapement, 15J, GJS, gilt mvt, s#44. Movement has been disassembled and bears s#44 on pillar plate, balance cock, balance spar, winding bridge, barrel bridge, barrel, and barrel cover; mvt bears number 4 on hour and minute wheels. Intriguing piece with a seemingly very early serial but with some features such as the `15 R` marking and lever-set style that would suggest an actual finish date some years later into Rockford's production. We believe this was likely Pomeroy's personal watch rather than being the more typical jeweler's private label marking for retail purposes, and an internet search reveals some colorful history of Marcus Mills `Brick` Pomeroy (1833-1896). In his earlier years Pomeroy was a	1,200.00
255	APW - Rockford Winnebago, 16S, 14K yellow gold original HC with 1908 presentation on gold cuvette, initials on front shield, SW-LS, WE-DSD, lever escapement, 17J, concentric expanding fishscale pattern NI damascene, s#625148. Gross weight of assembled watch 65.7 dwt (102.1 g). Superb example of this scarce watch, total production of the 16S HC Winnebago is 900 made.	1,100.00
256	APW - Rockford Indicator, Grade 665, 16S, GF OF original Philadelphia case, SW-SS, WE-DSD, lever escapement, 17J, GCW, pinstripe pattern NI damascene, s#916187. Uncommon watch with an estimated total production of 1900 made per the excellent April 2008 NAWCC Bulletin `Railroader's Corner` article covering the Rockford Indicator grades.	1,300.00

LOT#	DESCRIPTION	PRICE

Gross weight of assembled watch 128.6 dwt (200.0 g). Among the largest of this type seen.	3,600.00
284	EPW - Effingham Embree, New York, English pair cased verge fusee, 58mm, coin silver OF original inner and outer cases both bearing matching London hallmarks for 1794 and maker's cameo mark I T (equivalent to J T) as well as duty mark of King George III (which was used from 1786 to 1798), outer case also containing paper for 'Evans, Clock & Watch Maker, Newark,' KWKS, replacement WED, verge escapement, gilt mvt with elaborately pierced and foliate scrolled balance cock, s#441 with matching serial on inner case. Excellent Federalist Era example, and more specifically from the fifth year of George Washington's presidency to put its vintage in good context with early United States history.	950.00
285	EPW - French market verge fusee calendar watch with exposed escapement, 56mm, silver OF original consular case with casemaker's mark 'A B' in lozenge, pendant with French provincial guarantee mark for 1798 to 1809, KWKS, WED with subsidiary day, date and time dials, aperture at top revealing pierced & engraved foliate scrolled balance bridge with garnet endstone, verge escapement, engraved gilt mvt, the back plate entirely devoted to the regulator and its scale, s#53785 on case only. Gross weight of assembled watch 58.3 dwt (90.7 g).	850.00
286	EPW - Frisch & Schierwater, Liverpool (listed late 19th century), keyless lever fusee with winding indicator, 52mm, heavy 18K yellow gold original demi-HC with enamel chapter, gold cuvette, London hallmarks for 1871, casemaker's mark 'HEM' in type 74 cameo (unknown), SW-LS with disabling switch controlled by front cover, will wind when open, set when pressed in fully, disengage stem with cover closed, WED with sunken seconds and WI, fully capped lever escapement, 19J, gilt mvt in tourbillon layout, s#2913. Gross weight of assembled watch 89.5 dwt (139.2 g).	2,400.00
287	EPW - George Linsley, Leeds, lever fusee, 47mm, 18K OF original case bearing London hallmarks for 1866 and with casemaker's mark R R in oval cameo, gold cuvette engraved with 1866 presentation and rear shield of case with initials, KWKS, cream colored enamel dial, lever escapement with capped escape and lever operating on an unjeweled pivot, 15J, gilt mvt, s#60368 with matched case serial. Gross weight of assembled watch 54.9 dwt (85.4 g).	850.00
288	EPW - Henri Grand Jean & Co, Locle, minute repeater operating on two gongs, 51mm, 14K American made HC bearing DuBois Watch Case Co maker's mark and Hayden W Wheeler retailer's mark, no cuvette, SW-LS, WE-SS unsigned dial with blue colored numerals and chapters for hours and seconds, minute numerals in red, fully capped lever escapement, fully jeweled repeat train down to hammers, likely 30-32J, wolf's tooth winding, fausses-côtes NI damascene, s#19393 on case. Gross weight of assembled watch 70.2 dwt (109.2 g).	1,600.00
289	EPW - Henri Grand-Jean & Co, Locle & London, rare two-barrel 8-day with elaborate case & dial, 52mm, heavy 18K yellow gold OF original case with elaborately engraved signed gold cuvette, deeply engraved back, band and bezel, SW-pin-set, silver dial with multicolor gold appliqué against stippled field, fully capped lever escapement, 21J, fausses-côtes NI damascene, s#24009. Gross weight of assembled watch 85.7 dwt (133.3 g). The mvt appears at first glance to be tandem winding, but actually both barrels wind at the same time on the reverse turning of the crown. The decoration is remarkable.	2,600.00
290	EPW - Invicta, 'couteau' style (knife-edge) very thin men's gold dress watch, 51mm, front to rear thickness is 8mm, 14K original HC with gold cuvette bearing medallions, SW-SS, gilt engine turned dial, lever escapement, likely 15J, NI damascene, s#837564 on case. Gross weight of assembled watch 41.3 dwt (64.3 g).	600.00
291	EPW - Ixora, minute repeating triple calendar chronograph with moon phase, 56mm, 18K yellow gold original HC with gold cuvette, SW-LS, WE-QSD with aperture for lunar phase, lever escapement, 16J, gilt mvt, signed on gold arrow that serves as governor for the repeat train, s#201682 within case. Gross weight of assembled watch 88.0 dwt (136.8 g). Fabrique Germinal SA of Picard & Cie in Chaux-de-Fonds registered the Ixora brand in 1899.	4,200.00
292	EPW - J Ullmann & Co, Hong Kong, Shanghai & Tientsin, quarter repeater striking on two gongs via a slide in the case band, 50mm, 14K original HC with glazed observation cover over mvt, SW-shift-locking-LS, WE impressed DSD, lever escapement, 11-15J, gilt mvt, s#17747, ca 1900 per consignor's notes. Gross weight of assembled watch 58.7 dwt (91.2 g).	1,600.00
293	EPW - James Picard, Geneva, minute repeater striking on two gongs, 53mm, 14K drum style American made HC with gold cuvette bearing presentation engraving, rear shield of case with engraved sailboat, SW-shift-locking-LS, WE-SSD, fully capped lever escapement, jeweled strike train down to hammers, probably 29-32J, wolf's tooth winding, fausses-côtes NI damascene, rhodium plated top grade mvt, s#3325, ca 1890 per consignor's notes. Gross weight of assembled watch 76.1 dwt (118.3 g).	2,200.00
294	EPW - Jean Robert, Soret, verge fusee, 40mm, 18K gold (tested) OF original pair cases with consular style inner, outer case with floral multicolor gold accents around the sides and enamel portrait on rear of young woman holding a cat, case bezel and back with rose cut glass borders and also with a blue enamel border on rear, KWKS, WED, verge escapement, gilt mvt with pierced & engraved foliate scrolled balance cock with grotesque mask at its neck, ruby endstone, s#22472. Gross weight of assembled watch 44.4 dwt (69.7 g).	1,600.00

LOT#	DESCRIPTION	PRICE
295	EPW - Jno Richard, London, repeating verge fusee, repeats on two tabs protruding from inner band of case cavity, depressing plunger pin located in front of pendant activates repeat mechanism, 36mm, OF hinged gilt box style case with silver overlay in a floral pattern, raised Roman numeral dial chapter integrated with the case, verge escapement, diamond endstone, gilt mvt with pierced & engraved foliate scrolled balance cock with engraving at neck of a bird with outstretched wings, s#2599. Mvt appears to have been designed for a traditional consular style case, showing a lift tab at the 6 position and with posts for a gilt locking dustcap which is not present. Gross weight of assembled watch 45.9 dwt (71.4 g).	700.00
296	EPW - LeCoultre & Co, high-grade Swiss quarter hour repeater with chronograph and 30 minute register, 55mm, heavy 18K rose gold original HC with gold cuvette in addition to glazed observation cover over mvt, maker's mark `JL` in oval, engraved owner's name on cuvette, SW-LS, WED with sunken seconds and register, fully capped lever escapement, jeweled repeat train down to hammers, capped fourth wheel, possibly 35J, fausses-côtes NI damascene, wolf's tooth winding, s#19074 within case. Gross weight of assembled watch 89.3 dwt (138.8 g).	3,000.00
297	EPW - Longines, split-seconds chronograph with minute register, 50mm, 18K yellow gold OF original case, signed gold cuvette with attributes and medal display. SW-SS, WED with sunken registers, lever escapement, 17J, gilt mvt, s#1804907, in Longines box with old tag from Sotheby's auction. Gross weight of assembled watch 59.9 dwt (93.1 g).	2,000.00
298	EPW - Longines, rare military patent instantaneous chronograph with constant seconds and sweep-minute-recorder, 52mm, nickel alloy OF original hinged-back, hinged cuvette, snap-bezel case, SW-SS, rare WE impressed SSD with unique layout and `Patent` marking, lever escapement, 17J cal 18.72, fausses-côtes NI damascene, s#6203017, ca 1941. Looking like a split-second chronograph, both sweep hands return to zero upon depression of the button at 1:30, and immediately start recording upon release of the button, a feature needed by pilots, bombardiers and other military specialists. This pocket variety is seldom seen, and when found will typically have silvered dial with minute register only going to the inner minute track. The outer chapter is graduated in fifths of seconds.	1,500.00
299	EPW - Ls Duchêne & Fils, active about 1785 per Britten, 50mm, 16-18K gold (tested) OF original consular glassback case displaying at the lower rear an enamel portrait framed in gold-set seed pearls of a young man and woman with a goat against a cobalt blue basse-taille enameled background, at the upper rear an annular-sector shaped aperture revealing an enameled lake scene that forms the background to a rotating action of an engraved gold deer being `chased` by a gold dog and hunter with the rotation of these figures operating on an approximately 60 second cycle, these upper and lower rear elements being surrounded by light blue enamel and gold foil accents and thin borders of white and dark blue enamel, KWKS, WED with colored imagery of cherubs laying wreaths, dial with winding aperture at lower right and regulation arbor at top which is missing its adjustment hand, verge escapement, gilt mvt, no visible serial. Gross weight of assembled watch 48.2 dwt (75.0 g).	4,200.00
300	EPW - M I Tobias, Liverpool, for `Bailey & Co` predecessor of `Bailey, Banks & Biddle, Philadelphia,` two-train, 54mm, 18K original consular HC, KWKS, WE-SSD, lever escapement, gilt mvt, `Bailey & Co` signed gilt locking dust-cap, s#40199 with matched case serial. Gross weight of assembled watch 89.5 dwt (139.2 g).	1,600.00
301	EPW - Modernista sector watch, jump-hour with retrograde minutes in 180 degree sector and constant seconds below, advertising dial for `Cigarrillos Excelsior,` 50mm, GF OF original case marked `Modernista Patent` on cuvette, SW-SS, ET gilt metal dial with hour aperture, lever escapement, 15J, fausses-côtes NI damascene, s#17884 on case only. The watch bears Swiss patent 27838, awarded to Gabriel Lopez Mantaras for his watch design on February 29, 1904.	350.00
302	EPW - Montin, push-activated minute repeating chronograph with 30-minute register, 54mm, decorative and heavy 18K yellow gold original HC with signed gold cuvette bearing attributes in French, among them `Silent Repetition` and `Meticulous Quality,` initials `SMA` engraved in shield, Swiss patent +31798 on plate (incorrect number), SW-SS, WE-TSD, lever escapement, 20J, fausses-côtes NI damascene, s#84711 within case, triple signed. Gross weight of assembled watch 67.1 dwt (104.3 g). Max Diener of Diener Hermanos registered the Montin brand in 1905, first in Pforzheim, Germany and then in Mexico. The patent number is not correct, so we do not know which patent is referred to, but the spin-ball governor is the component allowing silent repeat function, in this case meaning without the buzz of the wag governor.	2,600.00
303	EPW - National Park, Swiss chronograph with minute register, 51mm, rose GF OF original case, modern presentation on cuvette, initials on rear, SW-LS, WED with sunken registers, lever escapement, 15J, fausses-côtes NI damascene, s#78235 within case.	160.00
304	EPW - Parkinson & Frodsham, London, 49mm, 18K original demi-HC with dark cobalt blue enamel hour chapter, inner surface of snap back bearing London hallmarks for 1873, rear of case is engraved with the phrase `Druste Et Droit` (`right and just` in French) over the image of a whippet holding a fleur-de-lis, case back also with monogram initials, SW-button-set, WE-SSD, fully capped lever escapement, 19J, gilt mvt, s#3841 with matched case serial. Gross weight of assembled watch 67.5 dwt (104.9 g).	1,200.00
305	EPW - Patek Philippe, Genève, 47mm, 18K OF original case with Patek signature ring on gold cuvette, additionally marked `Made for the Frank Herschede Co, Cincinnati,` the mvt also double-signed, SW-SS, WE-SSD, fully capped lever escapement, 20J, adjusted, fausses-côtes NI damascene, s#134890. Gross weight of assembled watch 48.0 dwt (74.8 g).	3,200.00
306	EPW - Patek Philippe, Genève, 48mm, 18K OF original case with Patek signed gold cuvette, monogram initials on rear, SW-pin-set, WE-SSD, lever escapement with moustache counterpoise, 15J, gilt mvt, s#126036. Gross weight of assembled watch 51.0 dwt (79.3 g).	2,400.00
307	EPW - Patek Philippe, Genève, made for and only signed by Tiffany & Co, 49mm, 18K yellow gold original HC with memorial presentation from 1917 on gold cuvette, initials on front, SW-SS, WE-SSD, fully capped lever escapement, 20J, fausses-côtes NI damascene, s#120438 with matched serial on case, triple signed. Gross weight of assembled watch 60.8 dwt (94.5 g).	2,200.00
308	EPW - Patek Philippe, Genève, mvt with additional marking for retailer Shreve Crump & Low Co, Boston, 44mm, 14K OF original Patek Philippe signed case, initials on rear, SW-SS, silvered dial, lever escapement with moustache counterpoise and capped escape, 18J, fausses-côtes NI damascene, s#812915. Gross weight of assembled watch 32.8 dwt (51.0 g).	2,800.00
309	EPW - Patek Philippe, Genève, retailed by Tiffany & Co of New York, 45mm, 18K OF original hidden hinge case with ornate engraved dedication on back, SW-SS, WE-SSD, lever escapement with moustache counterpoise, 18J, fausses-côtes NI damascene, s#186083. This watch was a gift from renowned attorney Francis Lynde Stetson, personal attorney and close friend of J P Morgan and partner of Stetson, Jennings & Russell now known as Davis, Polk & Wardwell. Stetson bestowed this gift to the young attorney Edwin S S Sunderland upon becoming partner at the firm. Later on, Edwin became one of the named partners making the name Davis, Polk, Wardwell, Sunderland & Kiendl. This firm has been called the Tiffany of lawfirms which is rather appropriate given the watch. Gross weight of assembled watch 39.4 dwt (61.3 g).	3,200.00
310	EPW - Patek Philippe, Genève, made for and only signed by Bailey, Banks, Biddle, Philadelphia, triple-signed, mvt marked `Special,` 51mm, 18K original Jeannot & Shiebler HC with 1882 and 1911 presentations on gold cuvette, SW-SS, WE-SSD, fully capped lever escapement, 20J, fausses-côtes NI damascene, s#64263. Gross weight of assembled watch 79.7 dwt (123.9 g). The Extract from the Archives confirms manufacture of the mvt by Patek Philippe in 1881, and sale without case on March 21, 1882, a typical practice for US contracts in those days.	3,400.00

LOT#	DESCRIPTION	PRICE
311	EPW - Patek Philippe, Genève, made for and only signed by Wright Kay & Co, Detroit, 48mm, 14K OF original Jeannot & Shiebler case with gold cuvette, initials on rear, SW-SS, WE-SSD, lever escapement with moustache counterpoise and capped escape, 18J, fausses-côtes NI damascene, s#84083 with matched case serial. Gross weight of assembled watch 56.9 dwt (88.5 g).	2,000.00
312	EPW - Patek Philippe, Genève, 46mm, 18K OF original Jeannot & Shiebler case with elegantly engraved 1891 presentation on gold cuvette, SW-SS, signed WE-SSD, lever escapement with moustache counterpoise and capped escape, 18J, fausses-côtes NI damascene, s#75783, case #54119. Gross weight of assembled watch 48.7 dwt (75.7 g).	2,200.00

314	EPW - Patek Philippe, Genève, made for Tiffany & Co, New York, 38mm, 18K original HC with gold cuvette having both Tiffany & Co and Patek Philippe & Co marking, inner surface of lids both with Tiffany & Co marking, inner surface of case back engraved `A A Ormsby from Rhoda Fuller, Dec 25th 1873,` SW-SS with Adrien Philippe's patented one way winding, off-white enamel dial with pale blue border and central décor, cylinder escapement, 10J, gilt mvt, s#18114 on case, ca 1862 per consignor's notes. Gross weight of assembled watch 33.2 dwt (51.5 g).	1,500.00
315	EPW - Patek Philippe, Genève, 39mm, 18K original HC with black champléve enamel floral accents against hand engraved background, gold cuvette with Patek signature, initials on front shield, SW-SS, WE-SSD, lever escapement with moustache counterpoise and capped escape, 17J, wolf's tooth winding, gilt mvt, s#34529. Gross weight of assembled watch 35.6 dwt (55.4 g).	1,900.00
316	EPW - Patek Philippe, Genève, 35mm, 18K original demi-HC with black enamel Roman numerals and chapter, gold cuvette with Patek marking and 1882 engraving, initials on rear, SW-SS, WED with black Arabic hour numerals in radial orientation and minute chapter in red, lever escapement with moustache counterpoise, 16J, fausses-côtes NI damascene, s#61959. Gross weight of assembled watch 28.0 dwt (43.5 g).	1,700.00
317	EPW - Paul Buhre, split-seconds chronograph with counterclockwise 60 minute register, split mechanism operated by button on band at 11, Swiss ebauche made for Russian market, 54mm, silver OF original case marked `Faber Type` in early Russian script on cuvette, SW-pin-set, WE-DSD, lever escapement, possibly 16J, gilt mvt, s#186610 on case. Consignor's notes indicate this watch was brought to the US from Russia by the grandfather of the most recent owner.	500.00
318	EPW - Philippe Miège, Paris (watchmaker from Geneva born 1702, died 1785), verge fusee, 48mm, 18K rose gold OF original consular case with exceptional deep engine-turned back and bezel in Louis XV taste, KWKS, WED, original gilt pierced hour hand, verge escapement, gilt mvt with pierced & engraved foliate scrolled two-footed balance bridge, s#744. Gross weight of assembled watch 51.2 dwt (79.6 g).	800.00
319	EPW - Reuge, Swiss, modern Swiss musical watch, `The Fountain` automation with four actions activated by either alarm set via crown at 11 or on demand via touch in cuvette, 57mm, GP OF original case with rear engraving of musical instruments on a rayed background, SW-SS, musical mainspring wound through cuvette with key, small time dial with sweep seconds, large dial with idyllic scene, multicolor gold tone figures of man on horse drinking at well, woman operating pump, lever escapement, 17J, satin NI timekeeping mvt within larger gilt frame also holding musical mechanism, s#4187 on case, with original fitted suede box and lyre form ratcheting key. The automation actions are the horse lowering its head to drink at trough, the hunter raising his arm with falcon in hand, the maiden operating the pump handle, and water flowing into the trough.	1,300.00
320	EPW - Robert Roskell, London, `Improved Skelet Lever` Swiss made mvt of mid nineteenth century vintage with engraving to a Civil War surgeon of the Confederacy, decorative plate design featuring a snake coiled around a tree trunk and also featuring a bird, 57mm, silver or silver plated original 13 sided case engraved on front with ship scene and on rear with country scene, cuvette bearing attributes including `Rail Way Timekeeper` marking, inner front lid with engraving `A M Bourland MD, May 1859,` KWKS, WE impressed SSD, lever escapement, 13J, gilt mvt, s#6663 on case only. Addison McArthur Bourland M.D. was born August 27th, 1825 and at the age of 37 on March 20th, 1862 began a 15 month enlistment serving the Confederacy as a surgeon for the 15th Northwest Arkansas Infantry Regiment. Dr. Bourland passed away March 13th, 1913 and his grave is located in Van Buren, Arkansas at the Fairview Cemetery.	225.00
321	EPW - Rob Stroud, London (Robert, pre-1775-1822 - Loomes), fusee, 48mm, original pair cases, the perfectly fitting gilt tombac alloy outer with reverse-painted tortoiseshell piqué, the inner in silver but with matching gilt tombac alloy pendant and bow, an unusual combination but apparently original, the silver case bearing London hallmarks for 1785, casemaker's incuse mark `ID` probably for John Dearmer II, his father also a casemaker from 1730 forward, the shell with idyllic painting and ferns, KWKS, WED, verge escapement, gilt mvt with pierced & engraved foliate scrolled balance cock, the cock provided with tiny garnet endstone secured with three screws, possibly by the maker, s#10729. Gross weight of assembled watch 57.2 dwt (88.9 g). The tortoise has been carved by the button latch with an owner's name, `D Steinecke.`	450.00
322	EPW - Swiss minute repeater, slide activated operating on two gongs, 52mm, 18K original HC with gold cuvette bearing London import mark, case also having small Jurgensen lips on lids, SW-SS, WE-DSD, lever escapement, likely 16J, unsigned gilt mvt, s#39619 on case, ca 1913 per consignor's notes. Gross weight of assembled watch 60.7 dwt (94.4 g).	1,900.00
323	EPW - Swiss, unsigned quarter hour repeater with chronograph, 62mm, decorative 18K rose gold original HC with gold cuvette, initials on rear, SW-LS, WE impressed SSD, lever escapement, 17J, gilt mvt with exposed governor, case s#21915. Gross weight of assembled watch 96.5 dwt (150.0 g).	1,300.00
324	EPW - Swiss skeleton watch in gold, identical to a type marketed in China marked `Squelette Déposé,` the present example only bearing serial number, 50mm, 14K or better gold (previous owner believes case is likely in the 16K or better gold content range) OF original display case with solitary `UR` mark on bow, SW-pin-set, WED with open centers, lever escapement, 15J, elaborately engraved gilt mvt, s#15189. Gross weight of assembled watch 51.6 dwt (80.3 g). This variety is seldom seen in silver, let alone gold. The case, made for Chinese market, was most likely a special order for a wealthy client.	2,200.00
325	EPW - Swiss verge fusee calendar watch with decorative dial, 56mm, .800 silver OF original consular case bearing Neuchâtel hallmark and star, casemaker's mark `IslG,` KWKS, WED with day and date sub-dials, hand-painted scene of girl with rake and dog by a river, pierced gold hands, verge escapement, unsigned gilt mvt with pierced and foliate scrolled two-footed balance bridge, s#675 within case. The watch comes with GF chain and in a fitted box from Black Starr & Frost, New York.	600.00
347	APW - Elgin, Father Time 21J with winding indicator, 16S, white GF OF original Elgin marked case with attractive pattern engraving on rear, SW-LS, WE-DSD, fully capped lever escapement, 21J, NI damascene, s#17269052.	500.00
348	APW - Elgin, Father Time 21J with winding indicator, 16S, GF OF original case with rear engraving of fabulous woodland theme with two squirrels on tree branches and a bird, SW-LS, WE-DSD, fully capped lever escapement, radial spoke pattern NI damascene, s#18106044.	550.00
349	APW - Elgin, Father Time 21J, Grade 252, 18S, GF OF original case with superb fancy engraving on rear, SW-LS, WE-DSD, fully capped lever escapement, 21J, GJS, NI damascene, s#9294575. Top example of this railroad grade watch with a spectacular gold filled case.	275.00
350	APW - Hamilton, `Erie Special` marked on mvt, Grade 940 21J, 18S, unusual NI OF case with high relief on rear in protruding repousse style of a locomotive and coal car passing over a bridge, SW-LS, WE-SSD, fully capped lever escapement, 21J, NI damascene, s#138919. Very unusual movement marking, the first example we have seen.	150.00
351	APW - Hamilton, `Fred McIntyre So McAlester IT` marked dial, `Made Expressly for Fred McIntyre by Hamilton Watch Co` marked mvt, Grade 940 21J, 18S, GF OF case, SW-LS, WE-DSD, fully capped lever escapement, 21J, NI damascene, s#160134. Scarce Indian Territory marked watch, at the time this watch was made Fred McIntyre was a jeweler in South McAlester, Indian Territory (later Oklahoma) and a few years later went on to found the McIntyre Watch Company.	950.00

LOT#	DESCRIPTION	PRICE
352	APW - Hamilton, Grade 922 Masterpiece 23J, Packard Motor Co presentation, 12S, 14K OF original Hamilton marked case with 'Presented to M P Meenan by the Packard Motor Car Company in Appreciation of Ten Years Loyal Service 1936' engraved on gold cuvette, SW-SS, silvered metal dial with applied gold numerals and marked with Packard's 'Ask the Man Who Owns One' slogan, fully capped lever escapement, jeweled barrel arbor, Invar balance, 23J, bull's-eye pattern NI damascene, s#3013594. Gross weight of assembled watch 37.8 dwt (58.7 g).	750.00
353	APW - Hamilton, Grade 938, 18S, GF OF recase with attractive bird engraving on rear, SW-LS, WE-DSD, lever escapement, 17J, ornate NI damascene, s#10149. The 938, and its hunting case equivalent the 939, were Hamilton's best quality 18 size 17 jewel grades.	375.00
354	APW - Hamilton, Grade 942 21J, 18S, GF OF case, SW-LS, WE-DSD, fully capped lever escapement, 21J, GJS, NI damascene, s#442485. Strong example of this best quality 18 size 21 jewel Hamilton grade.	300.00
355	APW - Hamilton, Grade 944 19J, fully marked mvt, 18S, GF OF original 'Majestic' (guaranteed 5 year grade GF) with attractive rear engraving, SW-LS, WE-DS 'H H Thompson Special' private label marked dial, lever escapement, jeweled barrel arbor, 19J, NI damascene, s#494205. Henry H Thompson was a long time jeweler in Brattleboro, Vermont.	275.00
356	APW - Hamilton, Grade 946 23J, 18S, GF OF case with attractive rear engraving, SW-LS, WE-DS Montgomery dial, fully capped lever escapement, jeweled barrel arbor, 23J, GJS, ornate NI damascene, s#523794.	650.00
357	APW - Hamilton, Grade 948, 18S, GF OF original case, rear shield engraved 'C E O Dec 25, 14,' SW-LS, WE-DSD, lever escapement, 17J, NI damascene, s#981144. An excellent example of this scarce grade with only 1500 total production, Hamilton sales-manager Lowell Halligan's notes on the 948 indicate that this grade 'was put on the market at the time Street Railways were establishing Time Inspections and was particularly recommended for that service.'	325.00
358	APW - Hamilton, Grade 950 23J with time zone hands in blue and red, 16S, GF OF Hamilton Railroad Model case in later style typically found with 950 Elinvar of 1937 to 1941 vintage, SW-LS, WE-DSD, fully capped lever escapement, jeweled barrel arbor, 23J, GJS, GT, pinstripe pattern NI damascene, s#1154208. Watch comes with unmarked period shipping box.	700.00
359	APW - Hamilton, Grade 950 23J, 16S, GF OF Fahys RR model case, SW-LS, WE-DSD, fully capped lever escapement, jeweled barrel, 23J, striped pattern NI damascene, s#1575940.	500.00
360	APW - Hamilton, Grade 974, 16S, fancy 14K OF Keystone recase with gold cuvette, SW-SS, WE-SSD, lever escapement, 17J, concentric pattern NI damascene, s#1212873, in Boston retailer's fitted box. Gross weight of assembled watch 52.9 dwt (82.3 g).	425.00
361	APW - Hamilton, Grade 990 21J, 16S, GF OF original case, SW-LS, WE-DSD, fully capped lever escapement, 21J, GJS, ornate NI damascene, s#1083198.	190.00
362	APW - Hamilton, Grade 992B 21J, 16S, two-tone stainless steel and GF OF original #3 bar over crown case signed Hamilton Railroad on the crown, SW-LS, WE-DS Hamilton Railway Special dial, fully capped lever escapement, AMAC balance with Elinvar HS, 21J, striped NI damascene, s#178182. Very strong example of this attractive railroad watch, this two-tone 'No. 3' case was a short lived design that was introduced by Hamilton in about 1947.	650.00
363	APW - Hamilton, Grade 992B 21J, 16S, GF OF original Model 11 case with replaced bow, SW-LS, WE-DS Hamilton Railway Special dial, fully capped lever escapement, AMAC balance with Elinvar HS, 21J, striped pattern NI damascene, s#C48379.	190.00
364	APW - Hampden, New Railway 23J with rare B of LF dial, 18S, GF HC recase, SW-LS, WE-DSD with oncoming train image having B of LF (Brotherhood of Locomotive Firemen) marking on front of train, fully capped lever escapement, jeweled barrel arbor, 23J, NI damascene, s#1056241. Hampden made several varieties of decorative dials for the various railroad brotherhood organizations, all of these dials being quite rare.	300.00
365	APW - Hampden, Special Railway 21J, 18S, NI OF original case, SW-LS, WE-SSD, fully capped lever escapement, 21J, GJS, NI damascene, s#2751900.	140.00
366	APW - Illinois, 12S, 14K multicolor original Solidarity HC with gold cuvette, SW-SS, WE-SSD, lever escapement, 17J, striped pattern NI damascene, s#2743551. Gross weight of assembled watch 42.8 dwt (66.6 g).	800.00
367	APW - Illinois, Bunn Special '24 Ruby Jewels,' 18S, GP OF Supreme IWCCo case, SW-LS, WE Gothic DSD, fully capped lever escapement, capped third wheel, 24J, GJS, bright spotted pattern NI damascene, s#1606013.	450.00
368	APW - Illinois, Bunn Special 23J 60 Hour, Type III marking, white GF OF original Bunn Special Model 173 case, SW-LS, WE-DSD marked 'Illinois Bunn Special 23 Jewel 60 Hour,' fully capped lever escapement, jeweled barrel arbor, 23J, rayed pattern NI damascene, s#5240470.	600.00
369	APW - Illinois, Bunn Special 23J 60 Hour, Type I marking, 16S, white GF OF Bunn Special model recase, SW-LS, WE-DS 'Flying J' style dial marked 'Illinois 23J Bunn Special 60 Hour 6 Positions,' fully capped lever escapement, jeweled barrel arbor, 23J, rayed pattern NI damascene, s#4492781. Scarce Type I variant marked 'Motor Barrel 60' on the barrel bridge, estimated total production is approximately 950 made with this example being from the first of the two production runs.	550.00
370	Addendum - Mainspring has been replaced; now in GRO Illinois, Bunn Special 21J 60 Hour, Type II marking (double marked 60 hour), 16S, CPBM OF original Keystone case engraved 'Hansen & Hansen Denver Loaner 27' on back, SW-LS, WE-DSD, fully capped lever escapement, 21J, GJS, GT, rayed pattern NI damascene, s#4792004. In the 1920's, Hansen & Hansen advertised themselves as official watch inspectors for the Union Pacific, the Rock Island, the Colorado & Southern, and the Burlington railroads.	300.00
371	APW - Illinois, Bunn Special Grade 161A, 21J 60 Hour Elinvar, Type IIB marking, 16S, white GF OF original Bunn Special Model 29 case, SW-LS, WE-DSD, fully capped lever escapement with AMAC balance and blued Elinvar HS, 21J, GJS, GT, interrupted ray pattern NI damascene, black lettering, s#5511750.	700.00
372	APW - Illinois, Chesapeake & Ohio Favorite, Grade 65, 18S, coin silver OF original case with gold inlaid train on rear, WE-DSD marked 'R H Smith, Hinton W Va,' lever escapement, 17J, gilt screws and trim, two-tone checkerboard gilt and NI damascene, s#1268396. Very scarce railroad marked watch with its correct dial.	375.00
373	APW - Illinois, Sangamo Special 23J in rare case, model 9, 16S, GF OF Pugh Brothers 'Special Railroad Model' recase with fabulous relief engraving inside back of an oncoming train and decorative surrounding elements, decorative bow and inverted conical crown, SW-LS, WE-DSD, fully capped lever escapement, jeweled barrel, 23J, GJS, GT, fishscale pattern NI damascene, s#2868802. The Pugh Brothers were watch inspectors for the B&O Railroad as well as a number of other lines, these 'Special Railroad Model' cases are quite scarce and this example is one of the finest we have seen with most examples we have observed being well worn.	950.00
374	APW - Keystone, dustproof model, 18S, original GF HC with Keystone logos on both sides and with oncoming train image inside rear logo, SW-LS, celluloid double impressed dial with Keystone logo containing oncoming train image, lever escapement, 11J, pearled NI damascene, s#321790. The case of this watch was made by the Metropolitan Case Co. who used this distinctive logo with clover, horseshoe, and acorns. Many of the dustproof model Keystone movements were paired with Metropolitan cases that were engraved with various designs; this particular style with oncoming train image within a Keystone logo being one of the most attractive of these.	350.00

LOT#	DESCRIPTION	PRICE
375	APW - Seth Thomas, Olympia Special 21J, 18S, NI OF recase, SW-LS, WE-DSD, fully capped lever escapement, 21J, narrow stripe NI damascene, s#223533. The excellent www.seththomasresearch.com website by Eric Unsell lists only four observed examples (present watch included) of the 21J model 5 `Olympia Special,` all falling neatly within the 223501 to 223600 serial range which suggests the possibility of a total production as low as 100 made. The present example has a high grade Seth Thomas factory signed dial while the other three examples listed on the website have `Olympia` signed dials.	225.00
376	APW - United States Watch Co, Frederic Atherton 19J, low serial #1801, coin silver HC recase, originally SW-button-set with retained KW arbor on barrel but now cased and functioning as KWKS, WE-DSD, fully capped lever escapement, 19J, gilt mvt with `butterfly` escapement aperture, s#1801. United States Watch Co production began with serial #1001 making this watch the 801st by serial number, and the Frederic Atherton was the USWCo.`s initial grade with its first run serials spanning from 1001 to 2000.	400.00
377	APW - Waltham, Appleton Tracy & Co, 18S, sterling silver OF recase, SW-SS, WE-DSD, lever escapement, 17J, two-tone gilt and NI damascene, gilt screws and trim, s#5718589.	200.00
378	APW - Waltham, Canadian Pacific Railway, model 1892, 18S, GF OF recase, SW-LS, WE-DSD with Canadian market 13 to 24 hour indications, lever escapement, 17J, NI damascene, frosted CPR logo of beaver seated atop marked shield, s#12020539.	600.00
379	APW - Waltham, Crescent St 21J with winding indicator, 16S, sterling silver OF original case, SW-LS, original metal dial with sunken seconds and indicator registers, lever escapement with capped escape wheel, jeweled barrel, 21J, NI damascene, s#20102905.	425.00
380	APW - Waltham, Crescent St 21J with winding indicator, 16S, GF OF original case, SW-LS, WE-TSD, fully capped lever escapement, NI damascene, s#20091490.	300.00
381	APW - Waltham, Maine state seal dial, model 1883, 18S, 17J, GF OF original case, SW-SS, WE-SSD with colored image depicting a moose resting beneath a conifer tree, a farmer on left resting on a scythe and with whetstone in other hand, a seaman on the right resting on an anchor, and marked `Dirigo, Maine` on banners (Dirigo is Latin for `I Direct` or `I Lead`), lever escapement, 17J, NI damascene, s#15660749. Very attractive and colorful dial, the Waltham state seal dials are quite scarce and appear to have been made for only a handful of the Northeastern states.	600.00
382	APW - Waltham, model 1894, 12S, 14K gold OF original Gruen case with gold cuvette, initials on rear, SW-SS, WE-SSD, lever escapement, 15J, GCW, concentric pattern NI damascene, s#9850869. Gross weight of assembled watch 46.2 dwt (71.8 g).	600.00
383	APW - Waltham, model 1857 in scarce NI finish, `Joseph Bevan, Williamsport Penna` marked mvt, 18S, NI OF recase, KWKS, WE-SSD, lever escapement, 11J, NI damascene, s#877762.	600.00
384	APW - Waltham, Vanguard 23J with winding indicator, 16S, GF OF original Waltham marked case, SW-LS, Montgomery WE-TSD, fully capped lever escapement, jeweled barrel arbor, 23J, small checkerboard center pattern NI damascene, s#26129876.	425.00
385	APW - Waltham, Vanguard 23J with winding indicator, 16S, GF OF original case, SW-LS, WE-TSD, fully capped lever escapement, jeweled barrel, diamond endstone, 23J, large checkerboard center pattern NI damascene, s#19063579.	400.00
386	APW - Waltham, The Globe, N Gamse New York USA, 18S, 4 ounce sterling silver OF original case with gold steamboat inlay on rear, SW-LS, WE-DSD with matching signature, fancy gold hands as frequently found on N Gamse private labels, lever escapement, 17J, two-tone gilt and NI damascene, rose gilt screws and trim, s#15077625. Scarce Model 1883 private label in attractive original condition, this mvt has the very unusual feature of two-tone color on the main plate but not the barrel bridge yet this is entirely correct for this watch being consistent with the handful of other examples of this marking we have observed and as inspection of the barrel bridge underside has confirmed its matching serial to the main plate.	375.00
